This Wife a Treasure.

The saving habit may not be as much in favor today as thirty years ago, but one New York man has had occasion to be converted to a belief in it. He is a man who has worked seventeen years as a carpenter. His wife died recently, leaving him enough money to live in comfort the rest of his days. He knew that his wife took care of his money, but had no idea that she had saved so much.

Matter of Judgment.

"So you suspect that men are quicker of judgment in practical matters than women?" asked her friend of the middle-aged spinster. "Yes," replied Miss Cayenne. "Men have heeded the warnings of the newspapers and quit buying gold bricks, but women continue to marry for money."

Better Not Take His Word.

Declaration from a learned source that the "day of judgment" is mythical may comfort such among us as have lived without due regard for the hereafter.—Exchange.

Chop Suey \$25 a Dish.

High cost of living is not worrying the Chinese. One big Chicago restaurant run on the Hong-Kong style has on its menu a dish that costs \$25. "Foony wong wu yin" is what they call it, and one portion is enough for five hungry suffragettes or six ordinary men. It has to be ordered twenty-four hours before you get it.

Only Way.

Knicker—A fashion note says that skirts are to be six inches narrower at the ankle. Bocker—Will the girls stand on one leg?

Frequently Happens.

A man may work so hard running after a band wagon that when he overtakes it he's too tired to get any pleasure out of the ride.

Training the Colt.

Many valuable horses are spoiled by improper or harsh treatment in training. A man who is incapable of understanding the disposition of horses is certainly incapable of training them. Two-thirds of the horses that have been called vicious can be managed by proper treatment, says a contributor to Farm and Home.

Uncle Snooks Puzzled.

"What puzzles me," said Uncle Snooks, as he looked up from a book he was consulting, "is this. If a man is standing on the side of a hill or mountain, how is he to settle in his mind whether he is on an acclivity or a declivity? According to my dictionary here, the former is 'a slope up,' and the latter 'a slope down.' I've never yet seen a slope up that didn't slope down."

Peculiar Alpine Custom.

A curious eastern custom has been observed for many centuries in the western Alps. One hundred eggs are distributed over a level space covered with sand and the young men and women perform a dance around them. If a couple are fortunate enough to finish the dance without breaking an egg it is taken as a token of the compatibility of their temperaments and they are betrothed.

It Spread Easier.

One cold night a few years ago, we were all seated at the table eating our dinner. The butter was very hard, and, consequently, remarks were made about it. The next week the weather was very warm and the butter was somewhat soft. Little Billy, six years old, suddenly exclaimed: "Mamma, the butter is easy tonight, isn't it?"

Tut, Tut.

"I wish," said the brown sugar to the sand, "that you'd get out of this. You're always in my weight!"

Blood Bath Knocks Rheumatism

Remarkable Effects of a Remedy That Actually Irrigates the Entire Blood Supply.

It sounds queer to take a blood bath but that is precisely the effect of a most remarkable remedy known as S. S. S. It has a peculiar action of soaking through the intestines directly into the blood. In a few minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflaming atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid accretions to dissolve, renders them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all, this remarkable remedy is welcome to the weakest stomach. If you have dragged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure botanical infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

The great Swift Laboratory has spent millions of dollars in perfecting, producing and placing in the hands of the public this wonderful remedy. So give your blood a good bath with S. S. S., for it knocks the worst forms of rheumatism and gives you freedom to enjoy life.

You can get it at any drug store at \$1.00 a bottle. It is a standard remedy, recognized everywhere as the greatest blood antiseptic ever discovered. If yours is a peculiar case and you desire expert advice, write to The Swift Specific Co., 160 Swift Bldg., Atlanta, Ga.

Beauty of Spider's Web.

There are few more beautiful objects than a spider's web covered with dew. In symmetry, in perfection of geometrical arrangement and in the prismatic reflection of color it is a gorgeous object. And consider the wonderful devices that our garden spider has for attending to its toilet. Was ever comb in woman's boudoir more perfect or more attractive than these combs that the spider has at the end of the claws to aid in manipulating the cobweb threads, in clinging to a rough object, and as aids in walking over the web?

Graft the Neglected Apple Trees

There are thousands of apple trees growing in fields and pastures and roadsides that bear only poor, natural fruit and many of the apples are left to rot on the ground. If these trees had been grafted 15 or 20 years ago they might be bringing a handsome profit now. Many of them are not yet too old to graft. See that they are properly trimmed and fertilized.—(W. W. Torture of Tantalus.

The golf bug's soul came back from a little range around Satan's preserve with a smile as wide as the Amazon river. "I say," he exclaimed, "I don't call this much of a hell. They have the finest golf course out there I ever saw in my life." A droll-looking old soul who was sitting on the safety valve looked up. "But did you see anybody playing on it?" he asked. "No," the newcomer admitted. "I didn't." The old-timer chuckled. "That's it," he said. "He won't let anybody play on it."—Exchange.

Wanderlust.

'Tis great to go as you please and come as you please, with no telegrams to send, no stress of meeting friends and missing friends, and all that."—New York Times.

Voyage Somewhat Unique.

Steamers often load cargoes of wood pulp at Chicoutimi, at the head of navigation on the Saguenay river, that wonderfully picturesque tributary of the St. Lawrence which flows out of Lake St. John, and take their freight straight to Manchester, England. The voyage begins on the deepest river in the world, in the Canadian wilderness, and ends with nearly 40 miles of canal, through the mill districts of England.

IDAHO FRUIT MEN WILL AID

North Pacific Distributors Association Gets Another Backer.

Boise, Idaho—Declaring for the immediate organization to perfect selling plans whether the Wenatchee district or others refuses to join the movement, the officers and directors of the Idaho-Oregon Fruit Growers' association went on record here as back of the North Pacific Distributors' association. The conference was attended by representative growers of Southern, Southwestern Idaho and Eastern Oregon and included J. H. Lowell, Roswell; M. J. Higley, Buhl; H. M. Dorman, Caldwell; J. M. Johnson, Nampa; E. H. Smith and R. H. Woods, Payette; B. F. Tussing, Fruitland; W. N. Yost, Meridian, and H. E. McElroy, Boise.

Fruitgrowers of the intermountain country are enthusiastic in their praise of the work of the North Pacific Fruit Distributors' association and believe, particularly in Southern Idaho and Eastern Oregon, that the success of the rapidly-growing fruit industry of the West largely depends on the work of the big selling agency which has been perfected.

The Idaho-Oregon Fruit Growers' association is one of the largest and most representative in the North Pacific Fruit Distributors' association.

STOCK AND GRAIN ARE FREE

Committee Reverses Action to Meet President's Views.

Washington, D. C.—Reversing its former action in voting to place wheat, flour, oatmeal and fresh meats on the dutiable list, the senate finance subcommittee in charge of the agricultural schedule voted to place livestock, wheat and oats on the free list.

This action, it was authoritatively declared, was taken to meet the views of President Wilson, Senator Simmons, chairman of the finance committee, and other administration leaders, who disapproved the decision announced previously to tax meats 10 per cent compensatory to a duty on cattle in the Underwood bill and to assess a compensatory duty on both flour and oatmeal.

The vote to reconsider was taken in the sub-committee on a motion made by Senator Simmons, ex-officio member of all the sub-committee handling the tariff schedules, when he returned to the capital from a conference with the President.

In his enlargement of the free list, President Wilson is known to have taken a leading part, as he did in the matter of raw wool and sugar before the ways and means committee. As he still is standing uncompromisingly with the wool and sugar schedules, so, it is declared, he will stand firmly for free cattle, sheep and hogs, and free wheat and oats, now that this has been determined upon as the party policy.

Twin Falls to Get New Railroad.

San Francisco—It is authoritatively declared by a Western Pacific official that the Western Pacific railroad will shortly be extended to Twin Falls, Idaho, the heart of a rich mineral and timber belt, and Boise City, the later extension heading off the often-discussed line from Boise to San Francisco.

Plans for these extensions have been divulged in the last few days during the Western Pacific's efforts to secure sufficient money with which to make improvements. By the extension into Idaho the road expects to acquire a large freight business in timber and ore.

Biplane Failure in War.

Nogales, Ariz.—General Pedro Ojeda's federalists Wednesday shelled the constitutionalist camp at Maytorena and drove the state troops back to their base at Ortiz. The insurgents are said to be short of water, which must be hauled from stations to the north along the Southern Pacific railway, and also to lack ammunition.

Didier Masson, the French aviator, so far has failed to make any showing with his aeroplane, from which it was planned to drop shells on the Mexican gunboats Morelos and Guerrero.

"Anti-Hatpin" Law Passes.

Seattle—The "anti-hatpin" ordinance introduced into the city council at the request of the Federation of Women's clubs was passed unanimously. The ordinance provides that the point of a hatpin shall not be permitted to extend more than one-quarter inch beyond the crown of the hat and in no case beyond the brim. Violation of the ordinance will be punished by a fine of not more than \$100 or imprisonment not more than 30 days.

Rain Makes Crops Glad.

Topeka—More than an inch of rain was reported in Southern and South-eastern Kansas Wednesday, bringing great relief to crops which, it was feared, would suffer heavily from dry weather there.

From Tulsa, Okla., it was reported that showers in that section had broken a hot wave extending over five days and which had threatened the oats and potato crops.

Invention Brings Pardon.

Washington, D. C.—President Wilson pardoned Dr. Theodore Kharas, of Elmira, N. Y., sentenced at Omaha, Neb., to four months in jail and to pay a fine of \$300 for alleged misuse of the mails, in connection with the selling of stock of a company promoting an invention. Since his conviction the invention is said to have proved successful.

MAY STOP LOBBYING

Senate Investigation Likely to Cause Radical Reform.

Washington, D. C.—Neither President Wilson nor the Democratic managers of the two branches of congress can estimate what effect the senate's remarkable "lobby investigation" will have upon the progress of the tariff bill, the currency reform plan, or other business of congress.

In the six days of grilling to which it has subjected senators themselves the investigating committee has secured information and opened channels of investigation that are likely to have an important influence upon the whole course of legislation in the future.

Progress on the tariff bill has not been hindered by the lobby investigation, but it is believed that before the reconstructed Underwood bill finally gets into the senate for debate the lobby investigation will have become a direct issue in the fight. None of the alleged "lobbyists" has been questioned as yet, but facts brought out by senators on the witness stand and the course the committee has determined on for the future make it clear that congress will be urged to consider these issues:

A registration law requiring every "lobbyist," legislative agent or other person who comes to Washington to influence legislation to identify himself and the interests he represents at once.

The condemnation, and possible prohibition, of the present system of "manufacturing sentiment" in a state to influence that state's senators or representatives on certain legislative matters.

Already three bills have been introduced in the senate to require registration of lobbyists.

TABLOID "BOOZE" IS OFFERED

Maine Drinkers Gladdened by New Way to Circumvent Laws.

Bangor, Me.—A Maine sheriff might find a barrel of beer or even a jug of whiskey, but he cannot find a beer lozenge or a cocktail tablet, and over that glad fact the thirsty of this state are rejoicing now.

For a tabloid booze drummer has come to Maine and is doing a rushing business in condensed drinks of all kinds, from plain whisky to cocktails, and from beer to gin fizzes. The drummer carries a considerable stock of tablets with him for immediate demand and arranges for further and unlimited supplies by mail.

Nobody here knows anything about the constituent elements of the tablets, but nobody cares, so long as they produce something that looks and tastes like liquor. The tablets come in little paper boxes or glass bottles of a dozen each, and the price varies. A small vial of tablets costing 13 cents, dissolved in a gallon of water, with other ingredients costing 50 cents, makes a gallon of what passes for whisky, at a total cost of 63 cents.

Militant Suffragette Dies.

London—Emily Wilding Davison, first martyr to the militant efforts of women to obtain the suffrage, died at the Epsom hospital as the result of a fracture of the skull sustained in an attempt to stop the king's horse, Anmer, during the running of the Derby on Wednesday last. Only the matron of the hospital and two nurses were present at the deathbed.

A few moments before her death two comrades draped the screen surrounding the cot with the fateful colors of the Women's Social and Political Union, which she wore when she made her sensational attempt to interfere with the great classic of the British turf.

"Woman" Escapes Bandits.

Douglas, Ariz.—George Bogartis, a Mexican-American rancher of wealth, attributes his personal safety and the possession of his money to his success at feminine impersonation. Captured near Oputo, Sonora, Bogartis was ordered to pay \$5000 for his life. He took the bandits to his ranch house and told them to wait outside while he went after the money. In the house he put on women's clothing and secreting his money in his clothing, boldly passed through the picket lines which had been placed around the premises.

Lightning Destroys Inn.

Los Angeles—When W. B. Dewey, proprietor of the Summit Inn, on top of Mount Baldy, at an altitude of 10,200 feet, made his first trip to the hotel since last December, he found only blackened stone walls and charred timbers. The fact that the peak is snow-bound during the winter months makes it certain that a bolt of lightning struck the building and set it on fire, for it is known that several storms passed over it this spring.

Quebec Has Earthquake.

Lachute, Que.—An earthquake shock was experienced here at 12:39 a. m. Sunday. It lasted about two minutes, but no serious damage resulted.

EXPERIENCE OF MOTHERHOOD

Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once children there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
