Murine Eye Remedy Co., Chicago
Great Soldier's Mistake.

When General Moreau was in England he was once the victim of a rather droll misunderstanding. He was present at a concert where a piece was sung by the choir with the refrain:

"Tomorrow, tomorrow."
Having a very imperfect knowledge of English, he fancied it to be a cantata given in his honor, and thought he distinguished the words:

"To Moreau, to Moreau."
Each time the refrain was repeated he rose to his feet and gracefully bowed on all sides, to the great astonishment of the audience, who did not know what to make of it.

Still Demand for Flints.
Millions of flints are produced annually in England by "knappers," who use much the same tools and work in much the same manner as did the men of the Neolithic age. The flints go to Africa, South America and China. Flintlock muskets are still used by many negroes in the depths of Africa, and shipments of the bits of stone find ready market in the benighted regions.

Be thrifty on little things like bluing. Don't accept water for bluing. Ask for Red Cross Blue, the extra good value blue.

"Canna Ye Boo, Ye Brute?"
Rev. Maxwell Nicholson, when minister of an Edinburgh parish, was called upon to marry a couple in humble life, and in the course of the ceremony he thrice asked the bridegroom whether he took "this woman" as his wedded wife without eliciting a reply. At last the patience of the bride was fairly overtaxed and she thus politely addressed her lord and master, in the hearing of the assembled friends, "Canna ye boo, ye brute?"

Shake Into Your Shoes
Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting, sweating feet. Makes new shoes easy. Sold by all Druggists and Shoe Stores. Don't accept any substitute. Sample FREE. Address A. S. Olmsted, Le Roy, N. Y.

Out of His Class.
The young man with a perpendicular measurement of six feet and breadth in proportion had asked the demure little maiden of four feet, six inches, to marry him. "Harold," she said, flashing a resentful glance up at him, "that isn't fair! It isn't sportsmanlike! Take one of your own size!"

New Weapon.
Binks had an idea. Taking the phonograph horn he attached it to the vacuum cleaner. "Now," he said, "let your flies come on!"

Will Be Costly Undertaking.
To bore the deepest hole in the world, an opening in Silesia 7,350 feet deep, cost more than \$10 a foot.

Take Long Time to Hatch.
Eggs laid by a New Zealand lizard require fourteen months to hatch.

Do You Hear Well?
Test, without risk, in your own home, the Audiphone—with latest instantaneous adjustment. It is almost humanly sensitive to sound, and receives at once keen, distinct, aided hearing power to those who are almost totally deaf. We will let you take an Audiphone home for a month. We ask a small rental. Rental applied on purchase. This should appeal to you as a proposition that ought to be investigated.

Physician Declares That Appurtenances and Menu All Tend to Promote the Digestion.

Dinner as a social institution has been so sedulously attacked by gastronomic experts in recent years that the banquet has been held responsible for many untimely deaths of public men. One of the most conspicuous statesmen in America was said to have been killed by dining out. The consumption of course after course upon a menu is held by various authorities to be inconsistent with long life and even with continued health.

Now, all these notions, according to Dr. R. S. Levenson, are based more or less upon delusion. Discoveries in the physiology of digestion during the past dozen years do not discredit the modern dinner, he says. They vindicate it. Man has unconsciously established a routine of courses in the dinner that takes thorough cognizance of the physiological principles upon which digestion is founded. Take, for instance, the elaborate gowns worn by the women and the evening suits by the men, the floor decorations and the music. There is no doubt that each of these items serves the purpose of composing a generally favorable stage setting for digestion. It has been shown in recent years that the moods created by these details have a directly favorable bearing upon the performance of the digestive function.

—Current Opinion.

When Your Eyes Need Care
Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our chemists—not a "patent medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Remedy Co., Chicago

Three High Mountains.
Mount Mitchell is the most lofty mountain in the eastern part of the United States. It is located in Yancey county, N. C., and according to the United States Geological Survey is 6,711 feet above sea level. There are two other mountains in the Appalachian system above 6,000 feet—Mount Guyot in Tennessee, 6,536 feet, and Mount Washington, in New Hampshire, 6,293 feet.

Indignantly Denied.
I see by your paper that you have published in the Duncan news department what you called a dance at my house and the statements made are entirely false. True, we had a few of our neighbors to spend the evening and some pups from Duncan came entirely without any invitation whatever, and when they came they were given to understand that they were not wanted.—Thornbury (Ont.) Herald Reflector.

Ambitious Age.
We are ambitious, be it said, although the cost of living's high. We want to earn, besides our bread, our daily pickles and our pie.

Red Cross Ball Blue gives double value for your money, gives twice as far as any other. Ask your grocer.

Quite So.
In reporting another motor bus accident in which a workman was the victim a daily paper says: "The wheels passed over his dinner-can and for a few minutes he was stunned." We only wonder that he was not killed outright from injuries to so vital a part.—Fattler.

Covers for Books.
Old brocades and tapestries make beautiful covers for books—temporary covers, and are suited to the annoying telephone book, the dictionary and the like. These bits of interesting stuffs also make fittings for the work table, cushions and needle books and vie with the beautiful leather equipments.

Simple Test of Tea.
A tea test is to reduce a few leaves to a powder on a sheet of white paper, and if there is artificial coloring it will be noticeable on the paper.

Pass the Plate.
A good-for-nothing—The churchgoer who doesn't contribute.—Judge.

Fine Remedy For Eczema
Also for Salt Rheum, Tetters, Psoriasis, Lupus, and All Skin Afflictions.

All skin troubles should be attacked from within by giving the blood circulation a good daily bath. This is accomplished with S. S. S., the best known and most highly recommended blood purifier ever discovered. Its action is very rapid. Its vegetable nature is such that it naturally goes right into the blood, saturates the entire circulation, bathes the tissues with an influence that enables the skin to heal quickly. The action of S. S. S. is that of an antidote, and this fact has been demonstrated time and time again in the most severe forms of weeping eczema.

Its influence in the tissues where the tiny arteries transfer the red blood for the worn out blood to the veins is quite remarkable and goes on constantly with every tick of the clock—the beat of the heart.

And new skin is thus caused to form while the germs of irritating influences that cause eczema are scattered and their harmful nature entirely suspended.

S. S. S. has a wonderful tonic influence in the blood because it contains no "dope," is not a physic, is entirely free of any mineral drugs or any other drugs except the remarkable medicinal effect of the pure vegetable products of which it is made.

Few people realize how harmful are many of the strong, crude ointments that used to be in favor before they learned that S. S. S. is safe, speedy and sure. Ask at any drug store for a bottle of S. S. S. Give it a good trial and you will soon see a decided improvement in any form of skin trouble. Write to The Swift Specific Co., 140 Swift Bldg., Atlanta, Ga., for special free advice on eczema and any other form of skin or blood trouble.

Do not allow anyone to palm off a cheap substitute for S. S. S. You will be grievously disappointed if you do. There is nothing else "just as good" as S. S. S.

MODERN DINNER ALL RIGHT

Physician Declares That Appurtenances and Menu All Tend to Promote the Digestion.

Dinner as a social institution has been so sedulously attacked by gastronomic experts in recent years that the banquet has been held responsible for many untimely deaths of public men. RAISE BEEF CATTLE

Nebraska Farmers Will Try to Reduce Cost of Living.

Organized Efforts Will be Directed by State Authorities—Big Profits Are Expected.

Lincoln, Neb.—To do their part in reducing the high cost of living, 200 Nebraska farmers have pledged themselves to devote their time, talents and energies to increasing the production of beef cattle in this state, and to follow the instructions of the university experiment station, which for several years has made a special study of raising cattle for beef by the best methods.

"The fact that the population of the country is increasing, while beef cattle are decreasing, has aroused the nation to a realization that the high cost of living can never be lowered until this state of affairs is mended, and that the farmers are responsible for the work is just as apparent as that present conditions exist," said Dean Burnett, addressing the farmers' convention at the State University farm.

Dean Burnett produced figures to show that Nebraska can raise beef at a profit equalled by no other state in the Union, with the possible exception of Kansas.

"The small farmer is especially adapted to the raising of beef," he said.

"The market has changed in late years, so that now the demand is for higher beef. These days the farmer may get almost as high prices for cattle 12 and 15 months old as in former years for four-year-olds. This is in favor of the farmer, as the cattle can be sold sooner and raised much more cheaply."

EXTINCT VOLCANO FORTRESS
Americans Store Supplies and Prepare for Long Siege.

Boston—American troops in the Hawaiian Islands have taken possession of the crater of a large extinct volcano situated on the coast, and are working night and day to convert it into a fortress capable of withstanding a long siege. Ammunition and food supplies are being stored within it, guns are being mounted, a water supply has been arranged for and gardens have been planted on the slopes of the crater to provide food and thus render the place self-sustaining in case it is besieged for any great length of time.

This information reached Boston from an authentic source in Honolulu, and the communication further said that Americans residing in the Hawaiian Islands, including troops, are much exercised over the Japanese situation.

The communication says that Americans have moved into the crater, bag and baggage; that living quarters are being prepared within, and that guns are being mounted all around the rim, so that a fortress capable of resisting an attack either from land or sea will confront any forces that may try to attack the place.

Cooking to Cut Living Cost.
Topeka, Kan.—Through the teaching of domestic science and economy in the home, Kansas gained \$1,000,000 last year, and the amount will be increased at the rate of \$500,000 a year until practically there will be no waste food in the entire Sunflower State. That is the aim of the Agricultural College, and the state is spending \$40,000 a year to help in cheating the garbage can.

Seven hundred girls completed the domestic science course at the Agricultural College last week, and the college has just closed its movable cooking schools, which were attended by 11,000 women during the ten weeks which they were operated.

Soldiers on Long Hike.
Newport, R. I.—To give a better idea of the advantages of the army of the United States, Louis A. Mohr, late sergeant of the One Hundred and Ninth company, Coast Artillery, stationed at Fort Grabo, and Sergeant Karl Rittman, of the Eighth company, Rhode Island guard of Pawtucket, left Monday afternoon on a 3500-mile hike to San Francisco.

Mayor William MacLeod presented them with letters to the mayor of Newport, Ky., and Mayor Rolph, of San Francisco.

Bulgaria Again Shaken.
Sofia—The earthquakes of Sunday were renewed again in many parts of Bulgaria. Two violent shocks occurred at Crabovia, where much damage was done. The seismic disturbances at Tirnova continued throughout the night and the rumbling of the earth had not ceased next morning. At that place many people were killed and churches and private buildings were damaged. Thousands are homeless and destitute.

Women to Study Politics.
Chicago—Special classes in politics for women are to be opened in some of the churches as soon as Governor Dunne signs the woman suffrage bill passed by the legislature last week. The first of these classes was announced by the People's Liberal church.

Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk. The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

For weak stomachs and the indigestion or dyspepsia resulting, and the multitude of diseases following therefrom, no medicine can be more adaptable as a curative agent than **DR. PIERCE'S GOLDEN MEDICAL DISCOVERY**.

This famous Doctor's prescription has been recommended for over 40 years, and is today just as big a success. Restores a healthy appetite. Cleanses the blood. Strengthens the nerves. Regulates stomach and liver. Demand the original.

COURT CALLED IT CRUELTY

Method of Negro Lion Tamer Met With the Decided Disapproval of English Judge.

Lady Helmsley was a witness in an interesting case heard at York, in which a negro lion tamer named Albert Maccomo was summoned for cruelly terrifying a lioness, and Albert Mauders, menagerie proprietor, of Oldham, was summoned for permitting the animal to be terrified, says the London Pall Mall Gazette.

Mauders was at the York Martinmas fair, in November, and Lady Helmsley was told by one of the attendants that the lioness had already caused the death of one man and attacked two others, and that Maccomo would at the peril of his life enter the cage.

Lady Helmsley described how the animal was frightened by noises and by the insertion into the cage of red-hot bars. She was so disgusted with the performance that she left and reported the matter to the police.

Further evidence was called to show that the man entered the cage for a few moments, firing blank cartridges while he was inside.

Mauders was fined 20 shillings and costs, and Maccomo 10 shillings and costs.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for the children during the teething period.

Here We Have Not the Time.
The hotels of Europe come in for commendation from an observer, who points his moral with this incident: "The European hotel manager, who, at our departure, came to our cab door, bowing his thanks for our patronage and presenting Mrs. B. with a bouquet of roses, left us with a sense of pleasure and a desire to return which I have never experienced on leaving any hotel in this country."

War.
War is a hangover from the days when men ate their flesh hot from the kill and not from the fire.—Will Levington Comfort.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels and cure constipation.

Simply Do One's Best.
Everything that happens to us leaves some trace behind it, everything contributes imperceptibly to form us. Yet often it is dangerous to take a strict account of that. For, either we grow proud and negligent or downcast and dispirited; and both are equally injurious in their consequences. The safe plan is, always simply do the task that lies nearest us.—Goethe.

Sometimes True.
A friend's three-year-old little girl, upon being asked if she would like some vegetable soup, replied: "I would like some more soup, but I don't want any more of the garbage."

THIS WOMAN HAD MUCH PAIN WHEN STANDING

Tells How Lydia E. Pinkham's Vegetable Compound made Her a Well Woman.

Chippewa Falls, Wis.—"I have always had great confidence in Lydia E. Pinkham's Vegetable Compound as I found it very good for organic troubles and recommend it highly. I had displacement, backache and pains when standing on my feet for any length of time, when I began to take the medicine, but I am in fine health now. If I ever have those troubles again I will take Lydia E. Pinkham's Vegetable Compound."—Mrs. Ed. FERRON, 816 High St., Chippewa Falls, Wisconsin.

Providence, R. I.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound as it has done wonders for me and I would not be without it. I had organic displacement and bearing down pains and backache and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. ABRIEL LAWSON, 125 Lippitt St., Providence, R. I.
