Very sincerely yours, HATTIE M. LAUER.

YOW many women would accept a tailored suit which depends for its fit over the bust and the hips upon the elasticity of its materials? Yet there are scores of brands of knit underwear which depend almost entirely upon the elasticity of the fabric for a semblance of shapeliness.

Athena Underwear, on the contrary, is cut to fit, tailored to fit, and actually and truthfully does fit without stretching.

The features combined for the first time in Athena Underwear all contribute to its tailored perfection

THE PATENT-FITTED SEAT—The most notable improvement ever made in underwear designing, being so shaped that it clings snugly to the figure in any posture.

THE THREE-CORNERED GUSSET-Relieves the strain at the thigh, giving greater comfort and longer wear.

THE PERFECTED SHOULDER-STAY—Keeps the garment from stretching down over the shoulder and holds the sleeve in place.

THE FITTED SHOULDER AND SLEEVE-Give the natural form to the bust and the proper tapering to the back. THE EXTRA-ELASTIC CUFF-Holds the sleeve in place and

keeps it from slipping up on the arm. SHAPING AND SIZING-Giving Athena garments the actual body lines and proportions, and affording sizes that will fit

with tailored precision. You can buy Athena at the price you have been paying for ordinary under-wear. Made in thirty-eight fabrics—comprising sheer light-weight lisle and cotton, light-weight wool, heavy-weight cotton (fleeced and unfleeced), heavy-weight wool, silk and wool. Twenty-eight distinctive shapes.
