NEW VERSION OF IT

It's a long way to Tipperary,
It's a long way to go.
It's but a short step to our soda fountain,
And the finest drinks, you know.
Good-bye, ice water;
Farewell, all other drinks;
It's a long, long way to Tipperary.
But here's the right place, me thinks.

Printing Point Does Not Bob Up and Down

In an L. C. Smith & Bros. Typewriter the point on the paper which is to receive the type impression is stationary at the instant the type hits. The carriage does not bob up and down when the shift is made to write capitals.

Why?

Because the type is shifted—not the carriage.

The only movement of the carriage is back and forth on its closely adjusted ball bearing runways—and this does not take place while the print is being made. There is no lifting of the carriage.

This is one reason why L. C. Smith & Bros. typewriting is free from blurs and every letter in the right place.
