NEW SCHEDULE FOR THE U. W. V. LEAGUE

The schedule of the upper Willamette valley league for the next four games has been arranged and Manager Fred Bartels received copy of the same from President H. C. Dye this week. Cottage Grove gets only one game at home during this series of games, that being with Eugene.

The schedule as arranged has met with approval by all the clubs in the league. Cottage Grove has no kick coming, as out of five games played so far she has had four of them at home. The schedule follows:

May 17.
Junction at Marcola.
Coburg at Eugene.
Cottage Grove at Creswell.
May 24.
Marcola at Eugene.
Creswell at Junction.
Cottage Grove at Coburg.
May 31.
Eugene at Cottage Grove.
Marcola at Junction.
Coburg at Creswell.
June 3.
Coburg at Junction.
Creswell at Eugene.
Cottage Grove at Marcola.

BASEBALL NOTES

There will be about a hundred of the local Rooters go to Creswell Sunday. Sorry for you, Mr. Rankin!

With but one or two exceptions there is not a Cottage Grove player hitting less than .300. How's that for a kid league team?

Brumbaugh has made a kick about the trees in left field. He wants them cut down. Every chance that comes his way drops among the trees, and last Sunday a home run was made on this account. This outfielder says he does not mind covering lots of ground in fielding his position, but when it comes to climbing trees after 'em, he quits.

"Dot" Medley has been signed by Manager Bartels to play third base for the locals, and will take part in Sunday's game at Creswell. His ability is well known here and in securing his services the team will not be materially weakened by the loss of Cellars.

There are plans under way in several cities of the Willamette valley to organize a six team class D League for next year. The places mentioned that would no doubt support franchises are Cottage Grove, Eugene, Corvallis, Albany, Salem and Roseburg. The class of baseball that is now being played in some of these towns on Sundays is being well supported and with an organization that has organized baseball for protection, would make a success of the venture. While the Sunday games are being well supported now in this territory, a schedule of three or four games a week would undoubtedly be more popular and better supported than just Sunday baseball. Anyway it would be a good venture to try out, and Cottage Grove would take a crack at it next year.

CELLERS GOES TO BAKER CITY TEAM

Carl Cellers, hard-hitting third baseman of Cottage Grove, has graduated into faster company, and left Thursday night for Baker City, to play in the Tri-State league. He received a telegram several days ago from the Baker City manager asking him to come immediately. Cellers at first was reluctant to accept the offer, but finally decided to take a chance. He will be with his old team mate Ray Baker, who is pitching for the same club.

The local management tried to have him remain over till after Sunday's game with Creswell but as he is to report at Pendleton immediately, he could not stay.

Cellers is a good ball player and will no doubt make good. He has a lot to learn about "inside" base ball, but his natural ability as a fielder and his hitting should pull him through in good shape. The local team and fans regret his leaving, but as he has a chance to better himself, and probably work his way to the major league, all wish him good luck and success in his new berth, and that he will return at close of the season with as good an average as he had when he left Cottage Grove.

Decoration Day Program

The parade will form and start for the cemetery at 10:00 a. m., the G. A. R. veterans being escorted by the Sixth Company O. N. G., in full dress uniform.

The address will be delivered by Rev. H. N. Aldrich at 2:00 p. m., at the M. E. church.

The Memorial sermon will be preached at the Christian church on Sunday, May 23.

Geo. W. Kerr, Commander.
D. L. Woods, Adjutant.

CALIFORNIA PRICES SENDING US PEOPLE

Elwood Mead, former chief of the Bureau of Immigration, now chairman of the Supply Committee of the State of Victoria, Australia, speaking to the Commonwealth Club at San Francisco a few nights ago, said: "The price of land in California is being raised to such a height as to hinder your development. Conditions here are a bar to the man of limited means, and are going to be a bar to the development of the state."

Mr. Mead thinks that many of the people who are turned from California by outrageous realty prices are going to Australia and Canada. But we of Oregon know that a great many of them are coming here, and are finding a climate, industrial conditions and possibilities better than they ever found in the much advertised and far-famed "Golden State."

SHORT CIRCUITS.

Mission of the Fuse When the Wires Become Crossed.

"Another short circuit!" One of the commonest reports heard in all electrical works.

A "short circuit" means that the electric wires have become crossed or connected so as to form a bypath or shunt of comparatively low resistance, through which so much of the electrical current passes as practically to cut out that part of the circuit through which the current originally flowed. In other words, a "short circuit" has replaced the normal circuit, which may be considered a long circuit. The cutting out of the resistance of the long line permits the power to rush over this path of low resistance, and if the apparatus were not protected by the fuse or circuit breaker the electrical machinery would do itself serious harm.

To prevent serious effects from accidental short circuits of electric lighting wires in buildings a "fuse" is inserted in the circuit just inside the building. In case a nail or some other falling object short circuits the electric wires in the house this fuse blows out—namely, melts out—and throws the circuit open so that no electricity can flow through the wires in the house until the "short" has been found and corrected.—New York World.
