Almost every day we read of some serious accident to the driver of automobile or motorcycle. Most of these accidents, as well as accidents to pedestrians, are due to carelessness, or ignorance of the machine. Some of these warm days the dustpan brigade is going to be called out in this man's town to sweep up the remains of a few of that class, and the tears shed at the grave when the scattered particles are committed to the dust, will be mostly tears of congratulatory joy.

BETTER BABIES AT THE GRANGE FAIR

The entire country is talking Better Babies.

Of course there are babies AND babies, some better than others, but the phrase Better Babies, as representing a big idea for race betterment was coined only a little more than a year ago.

A lot of wise men and women had talked in long phrases about the uplift of a child, eugenics and preventive medicine, but it was left to a magazine editor who understands mothers and babies to suggest a popular phrase that would appeal to everybody, doctors and parents and babies. The phrase Better Babies has come to stand, the country over, for a splendid, helpful campaign.

So long as there are babies, there will be competition among parents as to the good points of their respective children. For many years, the competition reached a climax in what was known as baby-shows. But after all, the judges decided for this baby or that, purely as a matter of personal taste, and there are enough brands of infantile prettiness to drive judges wild with doubt and indecision. Never were parents satisfied with the decisions rendered.

Out of this dissatisfaction grew what is known as the Better Babies Contest. It is the scientific examination and comparison of babies through a series of mental and physical tests. There can be no favoritism, because each baby is tested by the aid of a score card, covering the entire mental and physical development, from the sturdiness and straightness of the limbs to the ability to grasp objects in his chubby hands.

Not only does the Better Babies Contest decide who's who among the babies entered for examination, but it is the means of bringing parents and physicians together for conferences on child hygiene which are bound to improve the general health of the community. A healthy baby means a bright pupil for the local schools. A bright healthy pupil in the school room means a normal, self-respecting and desirable citizen in the factory, store or office.

The world is just beginning to realize that the foundation of national health and greatness is laid in the care given each baby born into the home. That is why the Better Babies Contest to be held in Cottage Grove Sept. 17, 18, 19, is one of the most important events of the year. Parents are alive to the opportunities which the contest offers, for the scientific examination of their children and the conferences with physicians on child life and development.

In addition, the Better Babies Bureau of the Woman's Home Companion will award the following medals: Medal for Grand Champion Boy; Medal for Grand Champion Girl; Certificate for Each Contestant.

Each first prize winner will receive a Better Babies Diploma beautifully printed in colors, and each child examined, irrespective of the score made in the tests, will receive a Better Babies Certificate of Examination which enrolls him in the ranks of Better Babies, and forms a beautiful souvenir of the contest.

Mrs. Olive Lacey returned to her home at Portland Friday after an enjoyable visit with her parents, Mr. and Mrs. Jas. H. Shortridge. Mrs. Rogers, sister of Mrs. Shortridge, returned to her home at Turner the same day after a pleasant visit at the Shortridge home.
