Lynch of Woodson's Garage, who made the trip Sunday afternoon accompanied by his wife and Bert Trask and Miss Veta Holderman. Mr. Lynch says the "Hardscrabble Grade," a continuous 6 mile hard pull, did not seem to worry his little Ford and the 12 miles round trip up and back down this grade was covered in two hours. He left this city at 11 o'clock in the forenoon, returning home early in the evening, his car already having a record of 12,000 miles to its credit. LOCAL LIGHT COMPANY SECURES CONTRACT

Owing to a misunderstanding regarding the requirements of the city for the lighting of Main street, the Cottage Grove Electric Co. submitted an amended bid for a three year contract, last week, which was accepted by the city council upon the withdrawal of the former competitive bid by O. L. Nichols. This new contract will give the city more light at less cost, and the local electric light company is also preparing a new light schedule which will lower the cost of lights to their patrons, both in business places and the homes.

This action on the part of the city council renders unnecessary the special election called for Aug. 20, to vote on a proposed electric light franchise, and the election is therefore called off.

SOME advertisements GO OFF like a bunch of FIRECRACKERS.
Others are as STABLE as a QUAKER MEETING.

Each is PROPER if it attracts the RIGHT kind of attention.

A national bank would not write the same style of ad. used for a bargain sale at a dry goods store.

But, whatever the style adopted, it must serve the primary purpose of advertising. It must ATTRACT ATTENTION and PERSUADE or CONVINCE the reader.

Even in a RELIABLE and PAYING advertising medium, such as this paper undoubtedly is, an ad. must HIT THE NAIL on the head properly or lose half its EFFECTIVENESS.

Big department stores employ expensive window dressers and high salaried advertising men. You perhaps have to dress your own window and write your own ads. We can't help you to do the FORMER, but we can the LATTER.
