Quite Particular.

"Why is there such a hot fight over the appointment of a postmaster in this town? asked the stranger. "The office doesn't pay anything much, does it?" "That ain't it, mister," replied the native. "You see, most of us are particular as to who reads our postal cards."

Her Plan.

"Do you read all the war news?" "Every line of it." "And can you pronounce the awful names of these places?" "Dear me, no. Whenever any other town than London or Berlin or Paris is mentioned I just skip right over the name."—Detroit Free Press.

MRS. THOMSON TELLS WOMEN

How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I am just 52 years of age and during Change of Life I suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pains were intense in both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound to me and I tried it at once and found much relief. After that I had no pains at all and could do my housework and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use my letter in any way."—Mrs. THOMSON, 649 W. Russell St., Philadelphia, Pa.

Had First Carrier Pigeon.

The sport of pigeon-flying, now prohibited by our war office, dates back less than 100 years, although the Egyptians trained pigeons to serve as messengers 4000-odd years ago, and their example was followed by the Assyrians, the Chinese, the Greeks and the Romans. The first pigeon race was organized in Belgium in 1818, and two years later a bird was flown from Paris to Verviers, where its arrival was hailed by a procession with brass bands. Over here the first pigeon race was held in 1875, from Newcastle-on-Tyne to Bexhill. The sport caught on rapidly, especially in Lancashire and Yorkshire, and such long distance flights as from Manchester to San Sebastian (700 miles) have been achieved. Nowadays the English clubs train about 1,500,000 birds annually, and "pigeon specials" of 16 or 20 vans are common on all our railways.—London Chronicle.

HERE IS A WAY TO GET RID OF PIMPLES

Bathe your face for several minutes with resinol soap and hot water, then apply a little resinol ointment very gently. Let this stay on ten minutes, and wash off with resinol soap and more hot water, finishing with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing, antiseptic resinol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear and velvety. All druggists sell resinol soap and resinol ointment.—Adv.

First Fiction Known.

Are you aware that the "Tale of Two Brothers," written 3200 years ago by the Theban scribe Ennana, librarian of the palace of King Merenptah, the supposed Pharaoh of the Exodus, is the oldest work of fiction extant?

The tale was written, apparently, for the entertainment of the crown prince, who subsequently reigned as Seti II. His name appears in two places on the manuscript—probably the only surviving autograph signatures of an Egyptian king.

This piece of antique fiction, written on 13 sheets of papyrus in a bold hieratic hand, was purchased in Italy by Mme. d'Orbigny, who sold it in 1857 to the authorities of the British museum, where it is now known as the d'Orbigny papyrus.—Tid-Bits.

Rats Save Store Manager.

Rats saved August Schmidt in court at Greensburg, Pa., when tried on the charge of embezzling goods worth \$2460 from the store of P. H. Butler, Monessen, of which he was the manager.

It was offered in testimony that during the early part of the year the rodents killed 27 cats which had been purchased to exterminate them. They also destroyed a weasel which was guaranteed to rid the place of rats.

Clerks in the store testified that as many as half a crate of eggs would be destroyed in a night, and that 17 barrels of flour had been eaten by the rats in a short time. It did not take the jury long to arrive at acquittal.—Philadelphia Record.

Named.

"That is Percival Algernon Cyril Milk," replied the native.

"And who is the delicate, sissified-looking chap with him?" asked the stranger.

Too Effective.

"But how did he happen to get engaged to the girl if he doesn't love her?"

"Why, he said he was convincing when he merely meant to be plausible."—Judge.

"Fifty in reading and 50 in 'rithmetic.'"—Philadelphia Public Ledger.

British Warships Attack German Force in Ostend

London—"It is reported that Ostend is being bombarded by the British fleet," says a dispatch Friday from Berlin.

London—In a dispatch dated "Behind the allies' left wing," the Daily Mail's correspondent says he hears the Germans are on the point of evacuating Bruges. He declares the situation is daily improving for the allies.

"The Germans' 'channel army,' the correspondent adds, 'zigzags irregularly between the coast and Lille, and it cannot be long before the enemy is crumpled and his forces hurled back into Germany.'"

A dispatch to the Daily Chronicle from the Belgian frontier says:

"The theatrical excursion of the German army to the North Sea has reached an inglorious conclusion. The attempted coast raid to Calais has completely failed.

"Ostend has been evacuated by the Germans. Their retreat is being closely followed up by the allies."

California State Plans to Invite Belgians There

San Francisco—As a result of a meeting of the California Development board here steps will be taken immediately to ascertain what California lands are available for colonization by Belgian agriculturists now landless and homeless through the European war.

Dr. Thomas Forsyth Hunt, dean of the University of California, and Robert Newton Lynch, president of the California Development board, were appointed a committee to call on large landowners of the state to learn where such lands are situated, on what terms they could be secured for colonization, and on what terms they could be rented with option to purchase.

A second committee was appointed to investigate the question of state aid and to find the status on which a state mortgage could be founded.

Gavin McNab, who broached the idea of extending a state-wide welcome to Belgian immigrants, expressed the opinion that it would be unwise to attempt to bring industrial laborers to California, laying stress on the desirability of farmers. He called attention to the fact that neutrality would not be violated by offering asylum to Belgians, as those people are the victims of the war and not the belligerents.

The sense of the meeting was that the actual purchase of land in California must follow some preliminary tenure on a rental basis and the opinion was expressed freely that it would be greatly to the advantage of owners of beet lands and other large industries to establish Belgian farmers on their lands at a moderate rental and contract to purchase their products.

German Prince Said to Have Been Shot in Back

Calais, via London—Accounts of the recent fighting in Northern France must not contain any names of places, on account of the censorship, but from a small town comes this story:

"In this district some troops entering a small village held strenuously for several days by the Prussian troops came upon the body of Prince Max, of Hesse. He had been lying there dead for three days. The body was stripped of everything but the tunic and socks. "There were five wounds made by revolver bullets in the body and all of them were from behind. It is whispered in this little place that he was a victim of his own soldiers.

"A rough coffin was made for the body. Then for three days he lay in the rude open coffin in an outbuilding of a farmhouse. The body has now been sent to the German lines."

Austrians Led Into Trap.

Petrograd—Correspondence from Warsaw giving the details of the recent capture of an Austrian battalion in the region of Galicia, relates how the Austrians, bearing branches of trees heavy with foliage to screen their movements, advanced at nightfall. The Russians, feigning ignorance of their approach, lessened the musketry fire, allowing the Austrians to draw near but meanwhile bringing their machine guns and light artillery into position. In the morning, so the story goes, the Russians opened an unexpected and deadly fire on the Austrians who, after a momentary hesitation, surrendered.

Anxiety Is Felt for Duke.

London—Anxiety is felt in Brunswick as to the whereabouts of Duke Earnest August, the German emperor's son-in-law. The Duke, who was leading a squadron of hussars on the French front, is reported to have been cut off from the German line and it is feared he has been made prisoner.

Antwerp Folk Returning.

London—A dispatch received here from Bred, in the Netherlands, says 19,000 residents of Antwerp have been repatriated in the last two days. The water supply of Antwerp has been restored and the tramways are running.

NORTHWEST MARKET REPORTS.

Portland—The undertone of the butter market is weak. City creameries quote the old price and give no indication of any immediate change, but it is said some shading of quotations is being done. The weakness of the market is due to the large make and the slower demand.

Because of the mild, open weather, production is unusually heavy for this time of year. One large creamery man reports that the output of his plant is 75 per cent of what it was in July. Country creameries are turning out a great deal of butter, as is shown by the pressure to sell the surplus on this market. In past years, the October make has usually shown a great shrinkage, but this season the creamery men are facing unexpected conditions.

Club wheat sales were made in the Walla Walla section at a price equal to \$1.05 at tidewater. This is the highest price that club has brought in the Pacific Northwest this year. In the Palouse country fortyfold sold at the equivalent of \$1.08 Coast. Buying was active in the country wherever wheat was offered for sale, and strong prices were bid.

At the Merchants' Exchange 5000 bushels of November club changed hands at \$1.04. The best bid for spot club was \$1.02 1/2. Bluestem was also unchanged at \$1.08, but there were lower offers made for fortyfold and red. For spot fortyfold \$1.06 was bid, and \$1.08 was offered for December delivery.

Wheat—Bid: Bluestem, \$1.08 per bushel; fortyfold, \$1.06; club, \$1.02 1/2; red Fife, 98c; red Russian, 97c.

Seattle—Greatly encouraged by the probable success of apple week, growers of Yakima, are selling f. o. b. on a firm to higher basis for ninety-sixes and larger sizes, as shown in a reply to a telegram of inquiry sent out by one of the leading brokerage houses. These quotations were \$1.35 for Delicious and Winter Bananas, \$1.20 for Winesaps and \$1.10 for Spitzenbergs, f. o. b. shipping point. These prices, of course, are for the very best extra fancy grades, but it indicates the brighter feeling now prevailing among orchardists, who a month ago viewed future with gloomy prophecy.

Fish Stealing His Gasoline.

Leo Kelly, director general of Portage Lake, has solved one of the oddest of mysteries. Kelly operates the motorboat ferry service. A few weeks ago Kelly observed a mysterious disappearance of gasoline from his reserve tank in the boat. Each night a gallon or more of gasoline disappeared.

Kelly searched for leaks, tested his valves and could not find the cause of the shrinkage in the supply. He began to suspect that some one was pilfering during the night.

Watching his vessel to learn the cause of the loss of gasoline he heard an odd sound under the keel, and casting his light down to the surface of the water he saw an 18-pound pickerel sucking gasoline from the escape pipe at the water line.—Detroit News.
