### BROKEN NECK HEALS.

Nine-year-old New York Girl Again Strong and Happy.

New York.—Nine-year-old Marian Raynor Wallace, daughter of former Justice and Mrs. Archer B. Wallace of Freeport, N. Y., now romps in the yard of her home, laughing with other children, having entirely recovered from a double fracture of the vertebrae at the neck, after having been in a plaster cast for nearly five months.

While playing "follow my leader" last summer at the country home of her parents in Merrick, Marian fell from a door. She was taken to Nassau hospital, Mineola, where the X ray showed distinct fractures.

Dr. William H. Runcie, the family physician, placed her in the cast. Although it was at first thought there was not a chance for her to recover, the bones began to knit and within a week it was deemed safe to take her home, on condition that she remain in the cast, which extended from her head to her hips, leaving out only her face.

The cast was taken off, and Marian returned to school well.

### DEER KILLS MAN IN LAKE.

Hunter Pursues Wounded Animal into Water—Body Found.

Antigo, Wis.—David Gibson, a hunter, met death while battling with a wounded deer in Sawyer lake, near here.

This was revealed when Gibson's body was recovered. His head was badly cut, his arms and the upper part of his body bruised and his clothing torn. The body was located in deep water.

Gibson, while hunting with his brother, pursued a wounded deer to the lake. The animal plunged in and, although it had grown dark, Gibson followed. His brother heard him call for help, but the darkness prevented him from seeing what was taking place out in the lake. He obtained a boat, but could find neither his brother nor the deer.

Searching parties spent two days in the hunt for the body.

### REGAINS SIGHT AT NINETY.

Operation Restores Vision to Veteran of Two Wars, Blind Thirty Years.

Philadelphia.—"I am sorry I have had my first glimpse of the world after so many years on a cold, rainy day," said Captain Isaac Williams, who is ninety, a veteran of the Mexican and civil wars. He had been blind nearly thirty years. He was operated upon by Dr. Mary Buchanan a few days ago, and now he says he can see as well as the day he watched Pickett's men as they marched across the field at Gettysburg.

"Somehow I had been wondering if my first look at the things I used to know by sight would be on a day when I could see the sun," the aged man said wistfully. He received many callers seated in the old arm chair in which he had spent nearly all of his thirty blind years.

"Let me see. This would be Sally," he said once as a white haired woman took his hand. "I am glad to be able to have another look at you after all these months."

"But I am not Sally," the woman replied with a laugh. After that the old man listened to his caller's voice before he spoke the name.

"You see," said the old soldier, "everything is new to me."

### MEAT AT 50 CENTS; SHOES \$10

Experts See This In Two Years Owing to Shortage in Cattle.

Chicago.—Meat at 50 cents a pound and shoes at \$10 a pair are possibilities in the next two years, in the opinion of government and stockyard experts after taking a census of the cattle in the country and finding the visible supply less than 35,000,000 head. As this includes calves, yearlings and full grown stock, the number of animals capable of breeding is reduced to an alarmingly deficient supply.

"Meat in America will be a rarity before the war ends, with its drain on our supply," said Henry J. Williamson, government statistician in the department of agriculture.

"Unless scientific breeding becomes general and the slaughter of calves ceases before five years have expired America will find herself in the class of European countries that have to look to importation to supply meat."

### Gaekwar Buys Empress of India.

Seattle, Wash.—The liner Empress of India of the Canadian-Pacific Railway company, which has been plying between north Pacific ports and the far east for twenty-three years, has been sold to the Gaekwar of Baroda, said to be the richest prince of the Indian empire. The Empress of India is to serve as a hospital ship for Indian troops.
