Spray's Column

This column is devoted to bringing the buyer and seller together, especially to bring them to Spray's store, so you see I have two axes to grind. I want you all to know I want to sell you something or buy something from you. Also I want you all to know what your neighbor has to sell or what he wants to buy. If you have anything to sell, come and see me. If you want to buy, see me. It will cost you not a penny unless I sell the article listed.

Good second hand Hay Press, \$150.00

Pure milk from Spray's dairy at the confectionery stores or your grocer's. Remember, my method of selling milk cuts out the expense of peddling from house to house, making the cheapest milk. Cottage Grove has the best and cheapest milk supply of any town in Oregon. Who did it? Spray. When I commenced selling milk it was selling at 7c to 8c per quart, measured out of a can in a cup. Everybody had to furnish their own vessel to put it in. Now all the milk sellers use bottles with tight caps put on at the farm and even at the high price of feed are willing to sell at 6c per quart. There is double the milk used in the Grove now that there was before I commenced selling and not one-half the condensed milk used.

Second hand mower, \$10.00.
Jersey red male hog for sale.
McCormack mowers and binders. None better.
Twine and extras on hand.
Second hand wood saw and engine. A bargain.
Good milch cow for sale.
Try a sack of my mixed chicken feed.

A cheap feed that fills the egg basket. I have several second hand wagons at a bargain.
Try a sack Golden Loaf flour.
Jersey bull for sale.
One more grubbing machine at a bargain.
Good second hand cook stove for sale.
Feed! Feed! Feed! I want to sell you part of your feed.
Page fence, a spring steel wire.
Fence your land and put goats in. They make the brush go and let the grass grow. There is enough brush land tributary to Cottage Grove if it was properly fenced and used for goats and sheep to produce more money than is now produced in the whole country.
When I was young, old people told me the way to break a hen from setting was to put her in a pen and starve her but I find a better way is to feed her all she can eat and her comb will turn red and instead of setting she will lay eggs. I bought 100 White Leghorn hens of a well known chicken raiser. They weighed less than 3 lbs. each when I bought them. In less than 3 weeks they weighed nearly 4 lbs. and were laying 75 per cent. They needed the last half of the feed. If your hens don't lay eggs I will sell you the feed, and then if they don't lay I will sell you more feed.

"MONEY"

The mint makes it and under the terms of the CONTINENTAL MORTGAGE COMPANY you can secure it at 6 per cent for any legal purpose on approved real estate. Terms easy. Tell us your wants and we will co-operate with you.
