Sheep on Reserves.

SUMPTER, Ore, March 23.—The department of the Interior has issued a proclamation permitting sheep to graze on the forest reserves of Grant, Crook and Umatilla counties. This news will please the sheepmen, as notices were posted last year warning them to keep their sheep off the reserves. A large number are driven here every summer from Morrow and other counties to graze on the luxuriant grass of the Blue Mountain ranges.

Slayer of a Teacher.

BAKER CITY, Ore., March 21.—Counsel for Ples Armstrong, murderer of Minnie Ensminger, have applied for a change of venue to Umatilla county on the ground that sentiment is so strong against Armstrong here that he would not be accorded fair trial. An attempt was made to lynch Armstrong two weeks ago, but the Sheriff was warned, and placing his prisoner on a train took him to Portland for safety. A masked mob went through the jail a few hours after Armstrong had been taken away. The prisoner, who is of Spanish extraction, shot Miss Minnie Ensminger in the back at a county dance last Christmas eve and killed her. His act was due to jealousy. She was a school teacher.

The Benefit of Change.

We are like house plants: We need a change of soil now and then to be replanted. New scenes, new experiences, new surroundings—a change of climate, dry air instead of moisture, sunshine in place of cloud. This is sometimes essential to health. There is conditions near at hand that are better than Europe can offer. Take a month or two in California. Plant yourself for a time where there are no irritations, where the hotel is beyond criticism, the landscape pleasing, and where warm sunny weather invites to walks and drives. Pure and dry air, and the increased electric influences of sunshine are vastly helpful.

You can make this trip at very little expense, and enjoy a ride over the scenic Siskiyou and Shasta mountains, which, at this time of the year with their show-covered peaks, are unsurpassed for their grandeur.

Found Brother in Poorhouse.

The latter is now an inmate of the county poorhouse, but as a result of his brother's visit will be taken out and cared for. Thirty years ago J. F. Denny grub-staked his brother in California to come to Oregon and prospect for gold. The latter has been following the life of a prospector ever since, sometimes finding a little gold and always hoping to strike it rich. One year ago he became incapacitated and was committed to the poorhouse. His brother was communicated with recently and came to his rescue. The old man will be sent to another brother in Idaho.

The new Myrtle Creek council has put liquor license in that town at \$1500. This was a surprise as the election went "wet." It is charged that the mayor has arranged to buy the principal hotel and run the only bar in town.

The referendum will be invoked in Oregon in three cases: The Lewis and Clark exposition, the portage railroad \$165,000 graft, and the corporation license law. The initiative will be called for in three cases: For a corporation law, flat salary law and a direct nomination law.

STATELY MISS BINGHAM.

Why She Scolds the New York Critics of Her New Play. Here is a new picture of Miss Amelia Bingham, showing that stately and statuesque actress in one of the becoming costumes which she wears as the frisky Mrs. Johnson in her new play of that name. Miss Bingham was recently much displeased with the New York critics be-

MISS AMELIA BINGHAM. cause they said that the frisky Mrs. Johnson did not frisk. She contended that the author never meant her to frisk, but that the critics had wholly failed to understand the character—that of a widow who under a light exterior masks a sound and loyal heart.

As Others See Us. Myer—You may make some people believe that story, but I'm not such a fool as I look. Gyer—Well, why don't you stop traveling around in disguise then?—Chicago News.
