great lumbering companies,
the gateway to the rich Bo-
hemian and mines, and the
rich little cinnabar mines

VOL. XV

COTTAGE GROVE, LANE COUNTY, OREGON, FRIDAY, NOV. 6, 1903.

NO. 29

LATE ELECTION RETURNS

Tammany Sweeps the Field in Greater New York by a Big Majority.

JOHNSON BEATEN

San Francisco Will Again Dance to the Music of Eugene Schmitz.

New York, Nov. 4.—Complete returns give McClellan the Tammany candidate and son of the great general, a majority of 63,617 over Low. Tammany made a clean sweep, and has a working majority of 37 in the board of aldermen. Comptroller Groat ran 6000 ahead of his ticket, defeating Heinrich. His plurality is 65,790. Every Tammany candidate in all the five boroughs of Greater New York, except Richmond is elected. Richmond gave a few votes to Low. Big Bill Devery got only 2900 votes.

Columbus, O., Nov. 4.—Shortly before midnight, Chairman Dick announced that Myron Herrick's plurality for governor over Tom Johnson would exceed 125,000. It is thought the Republican majority on joint ballot will exceed 74.

Louisville, Ky., Nov. 4.—The re-election of Governor Beckham, Democrat, over Colonel Morris B. Belknap, Rep., by a majority of fully 15,000 seems assured. The Republicans concede the election of Governor Beckham. Numerous disorders.

Boston, Nov. 4.—With returns complete from every town and city in the state, the total for governor today stands: Bates, Rep., 199,393; Gaston, Dem., 163,544. The rest of the state Republican ticket was also elected. Socialists lost heavily.

Des Moines, Nov. 4.—Returns received up to midnight indicate the re-election of Governor Cummins by 60,000, and of his associates on the Republican ticket by substantially the same pluralities.

Omaha, Nov. 4.—At 2 o'clock this morning the defeat of J. J. Sullivan, Democrat candidate for the supreme bench by John Barner, Rep., is conceded. The majority will be between 4599 and 5000. The returns show fusion gains.

Salt Lake, Utah, Nov. 4.—Almost complete returns give Morris, Dem.,

about 1500 majority over Knox, Rep. The Democrats also elected 13 of the 15 councilmen. Eight are Morjous.

Providence, R. I., Nov. 4.—At midnight the returns indicate the re-election of Governor Garvin, Dem., by a greatly reduced plurality. The vote is very close, however, and the result probably will be in doubt until the last district is heard from.

Trenton, N. J., Nov. 4.—The Republicans today elected four state senators and enough of the assembly to claim both houses. The entire Democratic assembly ticket was elected in Union county, which is a defeat for United States Senator Keam. The next state senate will stand 14 Republican and 7 Democrats.

In the house at least 33 out of the 60 members will be Republicans.

Denver, Nov. 4.—John Campbell, Republican carried the state by nearly 7000 votes.

San Francisco, Nov. 4.—The official vote for Mayor of San Francisco, as given out by Registrar Walsh, is as follows: E. E. Schmitz, Union Lab., 26,016; H. J. Crocker, Rep., 19,621; F. K. Lane, Dem., 12,578; F. R. Whitney, Soc., 1094.

The Democrats elect a majority of the supervisors, the assessors, recorder, sheriff, public administrator, coronor and all the best offices.

Washington, Nov. 4.—Roosevelt declines to comment on yesterday's elections, except to say that he is gratified at the result in Ohio.

Sidewalk to the Cemetery.

A vigorous movement is again being inaugurated to raise a fund to be expended in building a good, five foot sidewalk from the west end of Wall street to the Masonic and Odd Fellows' cemetery. This is a very commendable undertaking and worthy of the best efforts of our public spirited citizens. Owing to the bad condition of the roads on the route to the cemetery during the winter season, burial services can hardly be attended by relatives and friends of the deceased, especially when teams are scarce. And, again, there is about six months of each year when the work of keeping up the cemetery must necessarily be suspended owing to the difficulty experienced in reaching the grounds, all of which would be overcome by the construction of a sidewalk. This movement was first inaugurated more than a year ago, but failed through the lack of interest. However, it seems to the LEADER that the two prominent secret orders which own the cemetery should manifest enough interest alone, to push it to a successful conclusion. However we find the citizens of the town ready and willing to assist in securing the sidewalk. Let the good work go on.

MINING

NOTES OF INTEREST GATHERED FROM ALL SOURCES

W. M. Brewer has located the Eleanor claim in the Bohemia district.

The Improved Mineral Smelter people are figuring on putting up a plant at Atlanta, Idaho, in the near future.

Harry Hart who has been engaged in development work in the Crystal Consolidated mines in Bohemia for some time past, returned to this city Monday to remain a short time looking after business matters and renewing acquaintanceship with his wife and baby.

W. E. Edwards, returned to this city Monday after spending the summer season in the Bohemia mines developing his properties and assisting in the general improvement work. He says the fine new wagon road being constructed by the Crystal Consolidated Mining Co., from their mine to intersect with the Champion Basin road, was completed and opened to travel this week, which will be a great convenience to the Crystal Company as well as other mine owners of that vicinity and will enable the Crystal to put in their mill and begin active mining operations at an early date. Mr. Edwards is well pleased with the showing made in his Peek a-bog mines this season, and will return to the camp in about a month.

T. H. Supple, the well known mining correspondent and stockholder in several Bohemia mines, is

spending a brief season at Portland and gives the following statement to the big dailies:

"It is a source of much gratitude to the residents of Bohemia and Cottage Grove to see the activity existing in the district. Only a few months since practically everything was as still as the grave. Now how different! Everything is hustle and bustle. Bohemia district has over 300 men at work, opening up fine bodies of ore that until recently were not known to exist.

"The enterprise displayed by the Oregon & Southeastern railroad in pushing its line from Cottage Grove to Bohemia camp is a source of great pleasure to the owners of property in the camp. The splendid plants being erected by the Oregon Securities Company, the Crystal, and Vesuvius, show how much faith the owners have in the future of the camp. Bohemia is an ideal camp. Vast quantities of the best timber in the West are on all sides. Water sufficient to generate power for all necessary purposes and all advantages requisite to mining are there. Ore in abundance exists wherever the veins are tapped. I predict that from the first of the year the production of gold will be steady and permanent. The stamps will begin dropping in the Oregon Securities mill by the 15th of this month at the farthest. The plant is a very modern one, and thoroughly equipped. The people of Cottage Grove feel much interested in the progress of the camp, as it is the gateway to the district."

HOT FOOTBALL

Cottage Grove High School Defeats The Eugene High School Team in This City Last Saturday Afternoon.

On last Saturday afternoon one of the very best and fastest football games ever played on the local grid-iron took place here, between the Eugene high school eleven and the peerless high school eleven of this place, resulting in the defeat of the visitors 5 to 10. And the score does not tell half the story, as all who stood on the side lines during the contest, and saw the local team go through the visitors' line repeatedly for good gains, and the visitors fail, time after time to make their yardage, can attest. However, the game was snappy and full of interest from start to finish, although it did seem somewhat one-sided.

The work of our team was far superior to what it was in either of its former games this season, as a result of faithful practice and good "coaching" by "Buck" Starr, who has had them in hand but a short time.

The game, to have shown the respective merits of the teams, had it not been for an unlucky fumble and a fumble, would have been at least 16 to 0.

The first half was not more than five minutes old before Harms was put straight through the line for a fifty yard run and a touchdown. Soon after this, Eugene, when within a few yards of their own goal, were held for downs and forced to try a punt which was successfully blocked and captured beyond the goal line, resulting in another touchdown for Cottage Grove. Again the ball was put in play, taken from the visitors and forced across their fifteen yard line where the expiration of time prevented the third touchdown by Cottage Grove in the first half. The score at the close of this half stood 10 to 0, and it began to look like an easy game.

In the second half the local team kicked off to the visitors who succeeded in advancing the ball to the centre of the field where they lost yardage and were forced to punt. Hill, who was playing safety, made an attempt to secure the pigskin but it rolled past him untouched. There was no attempt made to prevent Eugene from getting the ball and crossing the line, for it was not thought it would be allowed. However, the referee, Ford, who hails from Eugene, decided that Hill did touch the ball and that the play should be allowed. This gave them five points, as they missed the goal kick. This play looked rather raw

to the boys here, but as the visitors refused to go on with the game unless it be allowed, and as there seemed to be no possibility of them scoring another point, the game progressed and the fumble was allowed. As soon as the ball was again put in play it was carried within less than two feet of the visitors' goal line by fierce line bucks and end runs by Orval Taylor, Al Griffin and Duke Knox. With the ball within eighteen inches of the line and three downs to make it in, the ball was fumbled on the first down and lost to the visitors, who kicked off from their twenty-five yard line to the center of the field where it was in play when time was called. Thus ended one of the best and most decisive games ever played in the city, much to the delight of the four or five hundred spectators who thronged the side lines.

The Eugene boys are nice, gentlemanly fellows and put up a splendid game, but in this instance they were simply outclassed in speed and experience and perhaps a little in weight. The result of the game is especially gratifying when we recall the fact that the Eugene team was the only one that succeeded in defeating the C. M. A. team last year.

The work of Earl Hill at full-back was fully up to its usual high standard, while the halves, Harms and Knox, were towers of strength in almost every play. Martin, Hawley and Mike Finnerty did great work in the line and forced their opponents to believe they were up against something. Taylor and Griffin made good gains when given the ball and did good defensive work. "Peg" Bennett acted as umpire and fully filled the bill. His knowledge of the game is good and his decisions fair and impartial.

The people here are beginning to realize more fully than ever that the team here is the making of a good one and fully worthy of the most liberal support, also that there is no better way to advertise our little city than by putting a good football, baseball or track team in the field.

The "Holy Rollers" of Corvallis.

A small organization of religious fanatics styling themselves as "Holy Rollers," created a general sensation at Corvallis late last week by tearing up their sidewalks, remov-

ing the petitions and furniture from their respective homes and surplus clothing as well as many other articles about their homes for the purpose of forming a great bonfire to inform the world of their "complete sanctification." They also built a crude altar and offered sacrifices and in the absence of lambs or calves, dogs and cats were substituted. The organization consisting of several families and led by O. V. Hurt, a prominent politician of Benton county, was organized some time ago by an Easterner. The headquarters of the sect being outside the city limits the officers are unable to stop their idiotic actions. The Holy Rollers derive their name from the supposition that their names are written on the roll in Heaven. It is stated that the organization had predicted the end of the world was near at hand and their sacrifices were offered as one of their last religious rites on earth. The organization and its actions is unequalled in the history of the west for absurdity, foolishness and absolute fanaticism.

"God Loves a Cheerful Giver."

There was a case worthy of Charity came to our notice Wednesday in this city. A covered wagon containing a man and his wife with a few little children including a three weeks old babe arrived in town on that day in destitute circumstances. The husband being afflicted with hip joint disease could do nothing for the family, so the wife with babe in arms solicited aid which was graciously extended by our citizens to help them on their way. The family hailed from Minnesota and were on their way to Jacksonville, Oregon, to join relatives. They were traveling in a covered wagon, in which a stove had been so arranged that a fire could be had to keep the family comfortable while traveling. They had been on the road eleven weeks, and were thankful that their journey was so near an end.

New Saw-mill at Drain.

Articles of incorporation have been filed by the Kelleber-Shelly Company, with a capital stock of \$50,000, paid in full. The incorporators are Wm. J. Kelleber, of Yoncolla, John K. Shelly, a prominent banker and merchant of McKeesport, Pa., and J. H. Sykes, of Roseburg. Included in the company also is T. R. Sheridan, president of the First National Bank of Roseburg. The company is at present constructing a large sawmill west of Drain, which will be completed in about a month. All necessary machinery will be on hand ready for immediate installation. A flume will be built to transport the lumber to Drain, where connections will be made with the S. P. R. R. There has already been built in the creek where the mill is being constructed, a dam creating a pond large enough to hold 10,000,000 feet of logs.

NEW MINING MACHINERY

New Stamp Mill for the Crystal Consolidated Mining Company

ARRIVED TUESDAY

Everything Ready to Begin Installing the Mill—Road Completed.

The fine new stamp mill for the Crystal Consolidated Mining Co., arrived at this place from San Francisco Tuesday night and on Thursday was taken up to the present terminus of the new Bohemia railroad where it will be taken in charge by freighters and hauled into the mines of the company, the fine new wagon road into their property having just been completed. Everything is in readiness for the new stamp mill and it will soon be set up and put into operation. A force of men have been pushing work on improvements about the mines since the company's new saw mill was put into operation at the mines sawing out lumber and timbers, among the improvements being a commodious stamp mill building, the company's hotel or eating house, assay office and other necessary buildings. This company has large quantities of fine ore on its dumps which will soon be running through their fine new stamp mill.

Kiln Dryer.

Work is progressing rapidly on the large new steam kiln dryer at Long and Bingham's mill. The foundation of the big building 30x250 feet is all laid and the frame work is well under way. This enterprising lumber manufacturing firm has also recently equipped conveniently arranged and modern offices in the rear of the company's merchandise store and have moved therein, Mr. Long using the small office building vacated by the company as a place in which to conduct business in connection with the sale of town lots in his stately and rapidly building up addition to the city.

The Stewart Estate.

The J. W. Stewart estate is valued at \$20,000. Henry W. Stewart has been appointed administrator with bonds at \$40,000. The heirs are Henry W. Stewart, of Pendleton, Hattie S. Wheeler, of Portland, Ethel Clark, James E. and Harry Stewart of Springfield.
