Spring Medicine

There is no other season when good medicine is so much needed as in the Spring.

The blood is impure, weak and impoverished—a condition indicated by pimples and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength, and want of animation.

Hood's Sarsaparilla and Pills

Make the blood pure, vigorous and rich, create appetite, give vitality, strength and animation, and cure all eruptions. Have the whole family begin to take them today.

"Hood's Sarsaparilla has been used in our family for some time, and always with good results. Last spring I was all run down and got a bottle of it, and as usual received great benefit." Miss BRULAN Bozart, Stowe, Vt.

Hood's Sarsaparilla promises to cure and keeps the promise.

Character of Our Immigrants.
Prior to 1850 the nations of western Europe, Great Britain, Germany and the Scandinavian countries furnished over 80 per cent of all our immigrants, the highest class that we could hope for. Hungary, Italy, Poland and the other countries of eastern Europe furnished less than 1 per cent. From 1851 to 1899 the ratios changed slightly, but still western Europeans were greatly in the majority. From Germany alone we drew 1,500,000 citizens inside of 10 years. Lately conditions have changed. Eastern Europeans and Asiatics send us 75 per cent of our immigrants (so-called Europeans), while western Europe sends us but 24 per cent. In 1901, for instance, Austro-Hungarians, Slovaks, Croatians, Poles and Magyars to the number of 114,000 came in, while 136,000 Italians honored us with their transfer of "allegiance." In July of this year 67,538 people of all nations immigrated into this country.

In the Spring.
Lowndes, Mo., April 4th.—Mrs. H. C. Hartly of this place, says:—"For years I was in very bad health. Every spring I would get so low that I was unable to do my own work. I seemed to be worse in the spring than any other time of the year. I was very weak and miserable and had much pain in my back and head. I saw Dodd's Kidney Pills advertised last spring and began treatment of them and they have certainly done me more good than anything I have ever used."
"I was all right last spring and felt better than I have for over ten years. I am fifty years of age and am stronger today than I have been for many years and I give Dodd's Kidney Pills credit for the wonderful improvement."
The statement of Mrs. Hartly is only one of a great many where Dodd's Kidney Pills have proven themselves to be the very best spring medicine. They are unsurpassed as a tonic and are the only medicine used in thousands of families.

Electric Light and Public Speaking.
Singers, actors and public performers generally are able to speak with much greater ease and comfort in a building lighted with electricity than in one where gaslight is used. In the former case the temperature of the whole building is more equal and the risk of catching cold is consequently diminished. The speaker is cooler, does not perspire, his throat is not parched, and his voice is less liable to get husky. It is said that since the introduction of electric light public performers are in much better voice than they were before.

"But, mamma," protested Miss Bulyon, "why are you sending out invitations for a diamond wedding? You haven't been married nearly long enough for that." "What's that got to do with it?" demanded Mrs. Bulyon; "your father's financial standing would make anything less than a diamond wedding absurd."—Chicago Evening Post.

A weekly newspaper recently published the following in its "Answers to Correspondents" column—"We have two apple trees in our garden," writes Ella, "and in the spring they are covered with such lovely pink and white blossoms that I pull them off for table decorations. Now I see that there are no apples on the trees. Do you think that this is likely to be because I pulled the blossoms off?"

In a Tangle: "By Jove, old chap!" said Mr. Makinbrakes, with enthusiasm, "your wife must have been a mighty handsome woman when she was young. Even in all these years she hasn't changed so much—though, of course, it couldn't have been many years since she was young and handsome—but when you come to think how little it takes to make some people look old, you know you wonder how she manages to conceal the ravages—that isn't exactly what I mean, but she's the youngest-looking woman for her—for her—have you got a match? My cigar has gone out."—Chicago Tribune.

NO APPETITE - EMACIATED - NERVOUS.

Many Women During the Spring Months Suffer From Extreme Lassitude, Loss of Appetite and Nervousness—What They Need Is

PE-RU-NA, THE GREAT TONIC.

Miss Bertha M. Rush, 5435 Kindred street, Pittsburg, Pa., Superintendent Junior Society of Methodist Protestant Church and leading soprano of the choir, writes: "Words cannot describe my thankfulness to you for Peruna. I was a sufferer from systemic catarrh for years and was in a very much run down condition. I was extremely nervous and had the most foolish fears over nothing. I was thin and emaciated."

"My physician advised me to leave this climate but as it was not convenient to do so at this time, I took the advice of a friend to use a bottle of Peruna. I took it faithfully and when the first bottle was gone I felt so much better that I bought six more and took them faithfully, after which I looked like a new woman."

"I gained in flesh, my appetite returned and all my old symptoms had disappeared. I am more than thankful to Peruna."—Miss Bertha M. Rush.

I AM TIRED.

Everybody Is Tired—Spring Weather Does It—Every One Should Be Cautious.

Depression of the nervous system at the approach of spring is the cause. General lassitude, dull, heavy sensations, continual tired feeling, with irregular appetite, and sometimes loss of sleep. Peruna meets every indication and proves itself to be perfectly adapted to all their varied peculiarities. Peruna invigorates the system, rejuvenates the feelings, restores the normal appetite and produces regular sleep.

That tired feeling which is the natural result of the depressing effect of warm weather immediately after the invigorating cold of winter, quietly disappears when Peruna is taken. Thousands are daily testifying to its priceless benefit.

Mrs. H. Kassatt, 1309 W. 13th street, Des Moines, Ia., writes: "I am happy to give my endorsement for your valuable medicine, Peruna, as I consider it a valuable medicine to take when the system is run down from overwork. About two years ago I felt that I must take a long rest as I had been unable to work for over a month and could not regain my strength. I could not sleep at night and was in a very nervous, high strung condition. I decided to try what Peruna would do to build up my strength, and am pleased to say that I began to improve very shortly, and in less than two months I was able to take up my work, and felt better than I have for years. I take it now twice a year and find that it keeps me in perfect health." Mrs. Kassatt was for over ten years the manager of a plant furnishing ladies' wear and employing hundreds of women.

Miss Rush Suffered With Systemic Catarrh—Was Nervous, Had No Appetite, Grew Thin and Emaciated. She Now Looks Like a New Woman After a Course of Pe-ru-na.

Tired, Nervous Women.
There are thousands of them everywhere. A few bottles of Peruna would do them untold benefit. As a tonic and nerve invigorator it has no equal. It builds up the nerves, it gives strength to the circulation and at once restores the appetite and digestion. No feeble woman should be without Peruna.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

"Say, pa," queried little Johnny Bumpernickle, "do actions speak louder than words?"
"Civil actions do, my son," answered the old man. "A judgment is worse than a dun."

RHEUMATISM

NOT A SKIN DISEASE.

It is natural to rub the spot that hurts, and when rheumatic pains are shooting through the joints and muscles and they are inflamed and sore, the sufferer is apt to turn to liniments and plasters for relief; and while such treatment may quiet the pain temporarily, no amount of rubbing or blistering can cure Rheumatism, because it is not a skin disease, but is in the blood and all through the system, and every time you are exposed to the same conditions that caused the first attack, you are going to have another, and Rheumatism will last just as long as the poison is in the blood, no matter what you apply externally. Too much acid in the blood is one cause of Rheumatism; stomach troubles, bad digestion, weak kidneys and torpid liver are other causes which bring on this painful disease, because the blood becomes tainted with the poisonous matter which these organs fail to carry out of the system. Certain secret diseases will produce Rheumatism, and of all forms this is the most stubborn and severe, for it seems to affect every bone and muscle in the body. The blood is the medium by which the poisons and acids are carried through the system, and it doesn't matter what kind of Rheumatism you have, it must be treated through the blood, or you can never get permanently rid of it. As a cure for rheumatic troubles S. S. S. has never been equalled. It doesn't inflame the stomach and ruin the digestion like Potash, Alkalies and other strong drugs, but tones up the general health, gently stimulates the sluggish organs, and at the same time antitoxins and filters out of the blood all poisonous acids and effete matter of every kind; and when S. S. S. has restored the blood to its natural condition, the painful, feverish joints and the sore and tender muscles are immediately relieved.

Our special book on Rheumatism will be mailed free to those desiring it. Our physicians will cheerfully answer all letters asking for special information or advice, for which no charge is made.
