Readers of this paper will be pleased to know that there is at least one dreaded disease which has been able to cure in all its forms and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the cause of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The doctor has so much faith in its curative power that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### THE KING OF BLOOD PURIFIERS SSS

No remedy ever yet discovered has met with such popular favor as S. S. S. The people everywhere endorse it, and there are few homes where S. S. S. for the blood is not known and used. It is superior in many ways to the ordinary blood medicines. In the first place S. S. S. is a guaranteed purely vegetable compound, made exclusively of medicinal roots selected for their wonderful purifying and tonic properties that act upon the blood, purging it of impurities and restoring it to a healthy, natural condition. At the same time, under its tonic effects the general system improves, the sluggish organs are toned up, and renewed strength and vigor and better health is the result. No bad after-effects follow the use of S. S. S., as so often happens with blood medicines containing strong minerals, which derange the stomach and digestion and in other ways damage the system. For diseases of the blood, such as Chronic Sores, Rheumatism, Catarrh, Scrofula, Boils and Pimples, Eczema, Tetter, Blood Poisons, and other troubles due to impure or bad condition of the blood, no remedy acts so promptly and thoroughly as S. S. S. It reaches deep-seated, long-standing cases, upon which the ordinary potash and sarsaparilla compounds have no effect. Even where there is an hereditary predisposition to disease, S. S. S. will search out and remove from the blood the fixed poison and build up the health; it enriches and purifies weak, thin blood and stimulates the circulation. Pure blood is essential to health. You can exist without good blood, but can never be robust and strong; for every organ, tissue and nerve in the body looks to the blood for nourishment, and unless this vital fluid is kept in a pure, healthy state, the rest of the body suffers and the system soon breaks down. Nature has provided in S. S. S. a remedy for diseases of the blood which long experience and a thorough test have proven superior to all others, and the acknowledged "King of Blood Purifiers."

### Why Fruit Trees Fail.

Country Life in America points out that the dropping off of young fruit is not due to insect pests, as it is popularly supposed. More often it is because of the fact that many varieties of fruits are self-sterile and the blossoms require the contact of the pollen of other varieties before they will mature fruit. Not getting this pollen, many fruit trees do not bear at all or very much. The same trees treated by the methods of grafting and planting will often bear large fruit and plenty of it.

### The Preacher's Evidence.

Roland, Ill., June 27.—Diabetes has so long been looked upon as an incurable form of Kidney Disease that a sure cure for it must rank as one of the most valuable medical discoveries of the age. And every day brings forth fresh evidence that Dodd's Kidney Pills will cure Diabetes. Important evidence in their favor is given by Rev. Thos. B. Norman, the well known Baptist minister here. Mr. Norman says: "I had all the symptoms of a bad case of Diabetes and received so much benefit from the use of Dodd's Kidney Pills that I cheerfully recommend them to anyone suffering from that dread disease. Dodd's Kidney Pills will cure the worst form of Diabetes."

Dodd's Kidney Pills always cure Diabetes, one of the final stages of Kidney Disease. All the earlier stages from Backache to Rheumatism are naturally much more easily cured by the same remedy.

As a sergeant was bawling out his orders in a barracks in Dublin and watching the line of feet as the new recruits endeavored to obey the word of command, he found, to his astonishment, that one pair of feet, more noticeable on account of their extra large size, never turned. Without taking his eyes off those feet, the sergeant bawled out a second order: "About face." He could see that all the feet except those he watched turned in obedience. Rushing up to the owner, a little fellow, he seized him by the shoulders, shouting: "Why didn't you turn with the rest?" "I did!" replied the trembling recruit. "You did, eh? Well, I watched your feet, and they never moved." "It's the boots they gave me, sir!" said the poor fellow. "They're so large that when I turn, my feet turn inside of them."—London Answers.

### TRUMPET CALLS.

Ram's Horn Sounds a Warning Note to the Unreconciled.

WE do not judge our friends by their failures. An inspiration is mightier than an argument. There is no science without the supernatural. A purse is the most common poultice for the conscience.

Have no thoughts you dare not put in deeds. You must be of His family to sit at His feast. It is love for men that lifts a man above men. Delays are never dangerous when we are angry. Outward plenty is a mockery without inward piety. Children bring the cheer as well as the tears of a home. The more a man knows himself the less he says about it. Every man has his price; but God only knows what it is. He who would be friendly to all must be foe to himself. The rich are not always godly; but the godly are always rich. The power that comes down is the only one that will lift up.

**A NATURAL ROMAN CANDLE.**  
Something of the New Metal Radium and Its Wonderful Properties.

The new metal, radium, which has been so much talked and written about during the last few months, turns out to be a sort of natural Roman candle, since, in addition to giving light, it also shoots off bodies of two different sizes. The light itself from this mysterious substance is not like ordinary light. Even a small fragment sealed up in a glass tube shines with a weird glow like a firefly, but bright enough to read by. Moreover, if these rays fall on certain other substances, as, for example, diamonds, it causes them also to glow with a similar unearthly radiance; and like the "X-rays," which enable one to see his own bones, they will go through a plank or a dictionary. We never use metallic radium, because it has never been entirely separated from other material. We haven't it to use. We are therefore compelled to be content with some salt (a mixture) of the metal. One experimenter consequently placed the least pinch of radium bromide in a glass tube, and screwed it tightly inside of a rubber thermometer case. This he put in an iron box, with a silver soup tureen and four sheets of copper above it, yet in some way the rays got out. After all, I don't know that it is any more difficult to understand why this light goes through iron than why the light of a candle goes through glass.

But a piece of radium, in addition to giving off these peculiar rays, sends out such a shower of little particles that it is like a sort of exploding battery of tiny rapid-fire guns. These, as I said at the beginning, are of two sizes. The smallest are the smallest particles known to science. Indeed, as they travel some two hundred times faster than a bullet from a rifle, they must needs be pretty small not to wipe out everything within range. The others are much larger, perhaps by a thousand times, and they do not travel so fast. But even these are so small that, after millions upon millions of them have been shot off, the most careful weighing with a balance or which a hair is a heavy weight cannot detect any loss. Now these smaller bodies are the mysterious "electrons," which as they stream against the walls of a Crookes tube, produce the X-rays. So they seem quite like old friends. The larger ones come still nearer home. They are like the minute particles of vapor which are always being sent off by any substance, such as water, or alcohol, or camphor, or ice, which is drying up or wasting away. But the remarkable thing about radium is that, while the gas which goes off into the air from these familiar substances is still water or alcohol or what not, the gas from radium is not radium at all, but helium.—St. Nicholas.

**The Magnolia.**  
The magnolia, so called from Pierre Magnol, professor of botany at Montpellier in the seventeenth century, is a genus embracing fourteen species of remarkably handsome shrubs deliciously scented and far more hardy than is commonly supposed. They are very widely distributed in China, Japan and the Himalayas and in Mexico and the United States.

The old world species seem to have been the earliest cultivated, the Chinese preserving the buds as well as using them medicinally and to season their rice. The purple flowered Japanese plant was discovered by Koempfer in 1690 and introduced into England in 1769. The Himalayas possess three varieties, among them the most magnificent of all, Magnolia Campbelli, a conspicuous object in the scenery of Darjeeling, eighty feet high, twelve feet in girth, with flowers ten inches across.

North America has given many distinct varieties, among them the cucumber or umbrella tree, the beaver tree and the favorite Magnolia grandiflora.

### WHY HOT WEATHER MAKES WOMEN NERVOUS.

**Blanche Grey.**

A Well Known Canadian Lady Sends Letter of Endorsement to Pe-ru-na.

Miss Mary Burns, 28 Spring Garden Road, Halifax, N. S., writes: "Having used Peruna for indigestion and stomach trouble and to build up a broken down system with the very best results, I am pleased to state my experience with this excellent medicine. I had been troubled with stomach trouble and poor digestion for some years, and although I tried many remedies and dieting, nothing seemed to restore my health until I used Peruna. In three months I had entirely recovered my health and strength."—Mary Burns.

**Suggestions by Dr. Hartman—How to Combat the Nervous Depression Incident to Warm Weather.**

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are the reservoir for nerve vitality. These centers become bloodless for the want of proper nutrition. This condition is especially noticeable during the warm season. Every summer an army of invalids are produced as a direct result of weak nervous systems. This can be easily overcome by the use of Peruna. Peruna strikes at the root of the trouble by correcting the digestion. Perfect digestion furnishes increased nutrition for the nerve centers. Perfectly digested food gives these reservoirs of life a vitality which creates strong, steady nerves, and in this manner fortifies and nourishes life. Miss Blanche Grey, a prominent young society woman of Memphis, Tenn., in a recent letter from 174 Alabama street, writes: "To a society woman whose nervous force is often taxed to the utmost for lack of rest and irregular meals, I know of nothing which is of so much benefit as Peruna. I took it a few months ago when I felt my strength giving way, and it soon made itself manifest in giving me new strength and health."—Miss Blanche Grey.

**Pe-ru-na Contains no Narcotics.**  
One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect. It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature. At this season of the year we are peculiarly liable to inflammations of the stomach and bowels. It is the part of wisdom to learn how to cut them short and in the easiest and quickest manner. Peruna does this by its peculiar power over all forms of catarrhal troubles.
