NEWS FROM OREGON SPRINGS.

Mr. B. M. Hawley and family and Miss Hawley arrived Saturday. Mr. Hawley is a resident of Heppner. Mrs. Hawley's health has been poor for some time and she hopes to regain her health as well as enjoy a pleasant outing at Oregon's best health resort.

There were a large number of visitors at the springs from Portland, Eugene, Cottage Grove and Hebron Monday. They think Oregon Mineral Springs the ideal place for health and pleasure. It has delightful shade, abundance of water, perfect drainage and sewerage system. The improvements already completed and those to be added in the near future will make London the most attractive spot in Oregon for pleasure and health. The new carbonating plant is now in operation and is complete and modern in every detail, and the carbonated water will be one of the purest and best products placed on the market.

Last week reports show 91 baths taken at the Oregon Mineral Springs.

Editor Gilstrap and L. L. Schell visited their families over Sunday. The Gilstraps and Schells are camping here from Eugene.

The Destructive Panther.

T. C. Scurr of Dothan, this county, makes the following good point relative to the protection of deer. He writes:

"It takes about two little beauties (spotted fawns) each day to satisfy the appetite of the panther. I can find these little fellows nearly every day in the week now, and in the fall I will perhaps see a hundred large deer before I will see one of them, and where are they? It would be much more to the credit of the state to fix a bounty of not less than \$25 for the scalp of every panther killed in the state, instead of arresting a poor man living in the hills for killing a buck at this time of year. If the state is too poor to

afford a bounty, then the federal government ought to place a bounty on them, for I do believe that a panther kills more deer in a year than any half-dozen hunters. It is said that a panther cannot be caught in a trap. I have a steel trap that weighs 42 pounds, and during the last rain storm a panther killed my largest Angora wether. The next day we found what was left of the goat (about one half) neatly covered up. We set the trap and in four hours had him. I have long since learned that when a panther furnishes the bait himself he can be caught in a trap, and in no other way have I been able to get them in a trap. This is my experience with the cowardly brute."—Plainedealer.

Work on Lumber Flume.

The Booth-Kelly Lumber Company have a large force of men employed building a new span across the Coast Fork of the Willamette at Saginaw for the lumber flume. The span is 150 feet. G. W. Catching is in charge of all construction work for the Booth-Kelly Co., and has practically completed the work. All was done without interrupting the flow of lumber across the span. Many large timbers came shooting across last Friday when the Leader representative was there. These timbers are for the Armour Car Co., at Omaha, Nebraska. Yard forces are being increased and the shipments are likewise showing a tendency toward larger volume.

Violated Game Law.

State Game Warden Baker reports the arrest and conviction of A. Cerson of Douglas county Monday for killing a female deer. He was fined \$25 and costs. Isaac Johnson, also of that county, was fined a like amount for the same offense. Deputy Warden E. G. Hodgson made the arrests.

J. G. Blake, Supt. Postal Telegraph Co. line was here getting poles for the company. Ten cars were secured and loaded from Latham.

LEADERS

Men are wanted by the Pacific Timber Co., at the Alca mill. See advertising columns.

We call attention to the nature of Welch & Woods' advt. this issue. It's the kind that pays.

Miss Cecil Staples accompanied her cousin, Miss Nina Pearl Ostrander up from Portland Wednesday.

A bottling and carbonating plant was installed at Boswell Springs Monday and that famous water is now being placed on the market by T. W. Blew & Co. at Cottage Grove. Call for it.

Cards are out announcing the marriage August 10th of Miss Nina Pearl Ostrander, daughter of Mr. and Mrs. J. E. Ostrander of this city to Mr. Chas. Humphreys, manager of the Pacific Postal Telegraph Co., at Astoria. Astoria will be their future home.

Foster P. Phillips, arrived Monday from Mt. Vernon, Idaho, and went at once to his homestead on Mosby Creek, where he will do extension work on the road from Walter Baker's ranch to his property. He is a brother of F. B. Phillips of the firm of Wheeler & Phillips.

Parents Attention.

The old method of teaching a child to read by the uninteresting meaningless plan of learning his A, B, C's has long since been supplanted by the word system. The methods of teaching music have kept pace with the improved methods of teaching school. The old tedious, discouraging method of teaching the five finger exercises and scales has given place to a method which interests and delights children as well as grown people.

Mrs. Roy Welch has taught music for eight years during which time she went east twice to study. Recently she had the privilege of a year's continuous study under an own pupil of Calvin Cady of Boston, Mass., whose genius has revolutionized the methods of teaching music.

Drop a card in the P. O. and Mrs. Welch will call upon you and give you an idea of the method whereby one can begin reading and writing music from the first lesson.

Killed in Logging Camp.

L. F. Prazia was killed Tuesday at 3 p. m. in a logging camp above the mills of the Booth-Kelly Lumber Co., at Saginaw. A falling snag struck his head crushing the skull and causing death almost immediately. His home was at Roseburg where the remains were taken for burial. The father and mother are employed at Saginaw.
