COTTAGE GROVE LADY DELIVERS ADDRESS

Mrs. F. D. Wheeler, President of Lane County W. C. T. U., Delivered the Following Address at Convention at Junction City Last Night.

Truly am I thankful for having been allowed to live in this age. Too often we are like Elijah under the juniper tree, and what came to him is very likely to come to us.

There are multitudes to whom the characteristics of the present age are all alarming. They think with longing regret of the good old days, the old safe habits and methods.

They conceive of the world as a doomed ship, fast breaking up and driving on to complete wreck; that the business of the Gospel is to rescue as many as possible from the doomed hulk, and keep them in the safe seclusion of a religious life. Escape is their definition of salvation.

Some think the intellect days are evil, therefore we will not read. Some modern worshippers say that the church is evil, therefore we will stay out of it, and citizens say the political days are evil therefore we will take no interest in politics, will stay from the primaries, will gather close about me the robes of my safe, useless citizenship, lest they get soiled.

These days are evil? Then fight the evil, do not stay outside and criticize, but go inside and purge. These important days are evil! Then wrest the important work away from those whose work is negative, faith destroying, and give it into the hands of those who are devout and zealous and let them do, and be one of the doers yourself.

But if we have faith in God, we must have faith in man, and may learn to pray, "O! Lord God, we thank Thee that men may put their hands into the hand of God and become mighty."

Have confidence in God, man and yourself. Expect all things of God, but do not expect perfection in mankind.

If your friends, relatives and neighbors were perfect, they would be so unlike yourself that you would hardly feel at home with them.

Ob! That we might form a habit of speaking of each other good qualities rather than bad ones. Too often the spirit that prompts the criticism is more evil than the fault spoken of. Rather let us think of the possibilities in human nature and by admiration, praise, sympathy, love and care, seek to keep off the blight and develop the good. Look on the bright side of your nature, and earnestly seek to make it brighter still. Look on the bright side of the events of life.

"Every cloud has a silver lining." "Into each life some rain must fall." We, as Americans, should be able to look on the brighter side until we realize that the American nation is a child of Providence.

Columbus was a providential man. In great movements of history some men stand forth pre-eminently among their fellows. They are like pivots upon which the epoch of history turns. Such men were Moses, Abraham, Nehemiah, John the Baptist, Paul, Peter the Hermit, Cromwell and Lincoln. This seems to be true in a remarkable degree of Columbus.

The discovery of America was a providential event. It was in the fullness of time when America was discovered. The bible was unchained; a new arena was in demand, the great purposes of the years were about culminating, and at this opportune time, the new continent with its boundless resources, was opened to the dauntless navigator.

Note the events of 1620. At that time in this new country there was a flourishing English colony at Jamestown, Virginia.

The Spaniards had founded St. Augustine in the land of flowers, and the Dutch were strengthening themselves on Manhattan Island. In this year the movements of the hands of providence are visible.

If the Spaniards had succeeded in America, a monarchical form of government would have cursed this country. If the settlers of Jamestown had succeeded a mediaeval civilization would have blighted the land. If the industrious Dutch had prevailed, this country would have been great only as a commercial center. But in 1620 with the coming of the Mayflower, elements were introduced which were destined in a peculiar sense to make this God's country. The providential sequel of a coming of the Puritans was the struggle of 1776. The two imposing forces in America, represented by Jamestown and Plymouth Rock, which were freedom and slavery met in conflict in the Sixties. Slavery could not win. It was against the purpose of the Almighty for the new world.

By an irony of fate the very sight of Jamestown is being swept by the swift waters of the James river. The liberating of the Black man was the most astonishing event of two centuries, but in less than a score of years, the example of the new country had been followed by all civilized nations.

Now let us look on the shadowed side until we realize we must not overlook, in our intense interest in world wide proclamations of liberty, our Supreme duty to our selves. Great Nations die from eternal enemies from strife, selfishness and corruption. We must be faithful to ourselves if we would fulfil the prophecy of the translated old man of England, that, "America will one day become what England is today, the head steward in the great household of the world, because her service will be the best and ablest."

And it was Abraham Lincoln who said, "At what point shall we expect the approach?" shall we expect some military giant to step across the ocean and crush us at a blow? Never. All armies of Europe, Asia and Africa combined, with all the treasures of the earth (our own excepted) in their military chest, with a Bonaparte for a commander, could not by force take a drink from the Ohio, or make a track on the Blue Ridge, in a trial of a thousand years.

At what point, then, is this approach of danger to be expected? I answer, if it ever reaches us, it must spring up among us, it cannot come from abroad.

If destruction be our lot, we must ourselves be its author and finisher. As a nation of freedmen, we must live through all times or die by suicide. Are we willing to die by suicide? Never. Even though we have such mighty inward foes as the saloon, with all its attending evils, as well as a Mormonism and such questions as what shall be done with the black man to solve. And just here I would emphasize, that to underestimate an enemy is sure to bring disaster.

That was the awful mistake made by both the north and the south during the Civil war. Russia underestimated Japan, and is suffering bitterly the consequences.

No great enemy was ever crushed by one defeat. Many a man has underestimated the power of rum and Mormonism. And just as sure as this nation underestimates the two evils will one or the other or both, crush it. But if we can judge the futures by the past, God will raise up faithful men and women to do his bidding, and he is raising such up all around us.

Elijah made a great mistake when he came to the conclusion that he was alone. "The sun is always shining behind the cloud."

"God has never deserted the world." Let us not be discouraged and give up in despair because we have made so little progress. Growth is slow, it takes God centuries to make an Oak tree. "Heaven is not reached by a single bound, we climb the ladder by which we rise from the lowly earth to the vaulted skies, mounting upward round by round." It is a long and painful march to the summit of ideal's. Do not be discouraged but "keep pegging away." That is the success of coronation.

God did not scold his discouraged child, that would have broken his heart. But God promises that "As thy days, so shall thy strength be." The world is growing better and

will continue so to do while God is on his throne. Our whole nation is more thoroughly stirred on all questions of moral reform than ever before and Oregon is falling into line (even to investigating land frauds and Tanner creek sewers) do you think it a small victory for Oregon to adopt local option, and at the very first test under this law for eleven counties to go prohibition? Not while we have as true women as one little union I know in this country, will we give up the struggle. This union was so discouraged, and most of its members had become so interested in her church work and her ladies' Aid Society, or her lodge that only from four to six attended the regular meetings, and it thought it was doing nothing, yet would not give up. When the brethren thought something should be done on election day this union undertook great things and in one day gave over one thousand free lunches and knots of white ribbon, and when a moral ordinance was needed to be passed by the city council did those out side go to the churches, Ladies Aid societies or women, who were willing to present it? No, but to this same discouraged union. Do you think it has an influence in the community? And do you at Junction know anything of a similar band of women? I believe you do. At least Lane county does, and I believe you realize that they have been tried and have proven true, so that you are willing to come and stand by their side shoulder to shoulder, in this great work for God, and home and native land.

Only to kindle the fire of enthusiasm and faith for this cause in the heart of every true man and woman until we can measure up to our responsibilities. Let us build up, eagerly every opportunity to help the needy souls and bodies and save this glorious nation for the great work that our great God has committed to its hands.

May Affect Many.

The new Shiveley case, from Cottage Grove, has now been brought before the county court in the shape of an application of Attorneys Medley and Johnson for an injunction restraining the school board of the Cottage Grove District from paying out moneys belonging to the district for salaries of the three teachers in the Cottage Grove High School. The restraining order is asked on the ground that said high school has not been legally organized.

The defense appeared and argued that law in regard to voting on the organization of a high school by the voters of the district, which law was passed in 1901, cannot apply in this case as the Cottage Grove district has in reality been maintaining a high school for ten years, and the voters have annually been voting a tax to sustain the same.

If the law applies to Cottage Grove it must necessarily apply to Eugene and nearly every other district in Oregon where a high school exists, as very few, if any, of them have ever submitted the question of organizing a high school to vote of the people. The hearing of the case is set for Saturday.—Oregonian.

GUARD AGAINST EXTORTION

Exposition Management Provides for the Accommodation of Visitors at Reasonable Rates.

PORTLAND, January, 13.—Until quite recently one of the most perplexing questions in connection with the general plan of the Lewis and Clark Exposition was that of providing visitors with suitable accommodations at reasonable rates and preventing extortion. This question has been solved by the organization of a Bureau of Accommodation incorporated under the general laws of the State of Oregon, a separate corporation in fact from that of the Lewis and Clark Fair, but under the supervision and control of the latter.

While this association acts independently of the Fair Corporation in the general management of its business, it is bound nevertheless under the terms of a special contract to make reasonable terms with all visitors who may become patrons of the Bureau and by every means within its power protect their interests during their sojourn in the city of Portland.

It has been the experience of other cities where great expositions have been held in the past that visitors have been held up by unscrupulous and grasping landlords in spite of all that has been done to prevent it. The primary purpose of this Bureau will be to offer rooms in the better class of private homes convenient to car lines.
