How To Call by Telephone.

At times there is considerable annoyance in delays and misunderstanding when calling over the telephone.

The central office folks state that much of this may be avoided by a little pains on the part of the one who is calling.

For instance: If the party who rings up would, instead of saying "Main, three hundred and forty one" would say, "Main, three, four, one," the number would be more readily caught at central as they are more used to this method.

The management of the phone company is desirous of giving good service and no delays or intentional neglect is allowed.

Mahara's Minstrels.

One of the big novelties in Minstrelsy this season and a leading feature with Mahara's Minstrels is the appearance in the first part of twelve handsomely costumed lady vocalists. This double sextette of ladies are graduates of the famous Dunayin Musical College, where all high-grade colored musicians are educated. It is an acknowledged fact that the singing features of this organization compares favorably with the finest operatic companies in existence and surpass in excellence of harmony all so-called Minstrel vocalists. It has always been the endeavor of Mahara Brothers to excel in singing features, and these ladies aided by twenty male voices in grand chorus certainly prove that the management has struck the keynote which pleases and also invigorates the life of minstrelsy.
