An Oregon University Bulletin on Road Laws.

"Tendencies in Recent American Road Legislation" is the title of the new bulletin prepared by the Department of Economics and Sociology of the State University. The author shows that satisfactory progress in the building and maintenance of good roads requires first of all an appreciation of what good roads mean for the welfare of the people and then the development of such an organization of their resources as will furnish road improvement money and brains. People must realize what they have at stake in the difference between good roads and bad roads and then get such a system of laws as will induce the largest measure of effective effort in building good roads.

The bulletin is made up of two parts. In the first Professor Young points out the conditions that led to the most remarkable awakening of the people of this country during the last fifteen years to the interests they have at stake in their public roads. A great national movement has been organized. The support of the general government in its office of Public Road Inquiries has been enlisted. This agency under Hon. Martin Lodge is rapidly extending its work. It is disseminating most helpful literature on road construction and road laws. It is testing free of charge road material and has built sample object lesson roads in nearly every state. The very efficient National Good Roads Association is supported by about half a dozen kindred national organizations. Every state probably and many sections and counties are organized to promote the cause of good roads.

It is clear that laws that emanate from a movement of such spirit and earnestness have significance and are valuable as models.

Having shown that the basis of our good roads movement lies in the far-reaching importance to a people of their roads and pointed out the fact that in the long run good roads are not a whit harder on the pocket book of the farmer than are bad roads. Prof. Young goes carefully into the laws that have been the outcome of this movement. He gives tabular digests showing the provisions in the laws of the different states and territories bearing upon characteristics features as they were in 1899; secondly, the changes made by 1905; thirdly, those made between that date and the end of 1904. The tendencies clearly revealed in this new road legislation are summarized.

Since the meeting of the first cost of permanent roads in the crucial part of the road problem that system of road laws is best which secures the most equitable distribution of the burden of road improvement. State aid with state supervision has been adopted by nearly one-third of the states as the solution of the problem of cost. Through this state aid very satisfactory results have been attained. New Jersey, Massachusetts, Connecticut and New York have given this policy thorough tests and are rapidly increasing their state appropriations. Among the other new features in road laws that the bulletin notes are more serviceable classifications of roads; provision for skilled superintendence in the location, construction and continuous repair of roads; substitution of the money tax for the labor tax and the rapid increase of the rates of taxation for road purposes; work done under contracts publicly let; recourse to bond issues; utilization of convict labor in constructing roads and preparing road material; protection of roads through favoring use of wide tires; conversion of

old roads into public roads. The phenomenal rapid development of the sentiment in favor of national aid for road improvement is noted and the "building up" effect on state systems that such national aid would undoubtedly have. The leader acknowledges the receipt of a copy.

Resolution of Condolence.
WHEREAS, It hath pleased Divine Providence to lay the afflicted hand of bereavement on our worthy and esteemed brother, J. D. Petrie in the loss of his loving, affectionate and revered companion in life, who for so many years was so devoted to him through the trials, heartaches and misadventure of life as well as on the mountain top of sunshine, bliss and prosperity. And may her influence and example never die among those who knew her, whether among those who met her in her home life or those who now and then came in contact with her. Brother Petrie we know it is hard to appraise the anguish of a brother who has been separated from a life long bosom companion, but when he is conscious that she has answered the summons and is now awaiting his entrance and that many, many friends feelingly sympathize with him in his bereavement, it affords a comfort that raises him from the scenes of despondency into a higher and purer atmosphere. May God comfort the dear brother who will miss her loved presence so much at his home. But how sweet will be that blessed memory that for so many years she was spared and at last fell asleep so peacefully after a noble life of useful acts and devoted love and esteem by all who knew her. Therefore, be it

Resolved, that we, the members of Shiloh Church No. 54, F. of H. tender our sincere sympathy and condolence to brother Petrie in his hour of sad bereavement, and be it further

Resolved, that our chapter be draped in mourning for 60 days, and be it further

Resolved, that a copy of this condolence be spread on the minutes of the Grange and a copy sent to the county papers for publication and a copy be furnished the bereaved family.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, putting it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kaulin, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."

Kodol Digests What You Eat and relieves the stomach of all nervous strain and the heart of all pressure. Bottles only \$1.00. See bottle and read the full story which sells for 5c.

Hints on Etiquette.
At a church wedding there should always be at least two ushers.

A gentleman, if seated, always rises when introduced to either a lady or gentleman.

A man leaves his hat, overcoat, gloves and cane in the hall when making a call. None of these are brought into the parlor.

Wedding gifts are not presented personally, but sent with one's card, usually from the place where they are bought.

A young girl should always have a chaperon when attending any evening entertainment.

When walking with two or more ladies the gentleman usually takes the outside of the walk.

When rising from the table at a dinner, luncheon, etc., it is not necessary to replace one's chair.

A bride always acknowledges all gifts. If sent by a married couple, the note of thanks is addressed to the wife.

On receiving a letter of introduction the one addressed should call on the stranger and, if possible, extend some hospitality.

Emerson says: "Courtesy, politeness, beautiful behavior, is the finest of fine arts." The most perfect courtesy and true politeness come from unselfishness, a ready sympathy, and the desire to please and put all others at ease.

Personal affairs, your friends, or the personal affairs of friends should never be made the topic of conversation at a public place, when such conversation is indulged in it is a sure indication of poor breeding and poorer manners.

The prettiest way to serve wedding cake is to have it placed in small white boxes daintily tied with white satin ribbon. Place the boxes on a table where each guest may take one, or have them passed on a silver tray by a servant.

Bright's Disease and Diabetes.

We desire to place in the hands of those afflicted with Bright's Disease and Diabetes a new remedy that is saving human lives. It is not an ordinary purgative, such as is commonly used to advertise medicines, but is principally made up of reports of scientifically conducted tests in a large variety of cases, showing 87 per cent of recoveries in these hitherto incurable diseases.

(The speaker employed in these tests are known as the Fulton Compounds and the results obtained prove conclusively that these dreaded diseases so long fatal (the deaths from Bright's Disease alone are appalling, over 100,000 a year, starting as kidney troubles, have at last yielded to medical science. The pamphlet is free. Write to the John J. Fulton Co., 409 Washington Street, San Francisco, Cal.)

Wishes to suggest Bright's Disease—Puffy ankles or hands, weakness without apparent cause, kidney trouble after third month, frequent urination, may show sediment or cloudy on standing; failing vision, day drowsiness, one or more of these.

A DESTRUCTIVE FIRE.

To draw out the fire of a burn, or heal a cut without leaving a scar, use DeWitt's Witch Hazel Salve. A specific for piles. Get the genuine. J. L. Tucker, editor of the Harmonian, Tucker, Ala., writes: "I have used DeWitt's Witch Hazel Salve in my family for piles, cuts and burns. It is the best salve on the market. Every family should keep it on hand." Sold by The Modern Pharmacy.

McBain's Carbolic Compound, sold by the Wynne Hardware company is the stuff to spray your trees and vines with. There is no boiling or cooking necessary. You simply take from 25 to 40 gallons of water, according to strength desired, mix with one gallon of compound and apply with a spray pump. The compound costs 70c per gallon. It is certain in its work of pest killing and is a fine tonic for trees.
