NO MAN IS STRONGER THAN HIS STOMACH.

The stomach is the vital center of the body. It is the organ from which all other organs are fed. A weak stomach means a weak man. There never was a strong man with a weak stomach. What is called "weak stomach "is in general a discased condition of the stomach and other organs of digestion and autirition, which prevents the proper digestion of the food which is taken into the stomach, and so reduces the nutrition of the ach, and so reduces the nutrition of the body. When all food is taken away the starves. When the food eaten is digested and assimilated in part it only nourishes the body in part, and so the body is partly starved. And this starvation is felt in every organ of the body dependent on the blood which is made from food.

The great variety of the cures per-formed by Dr. Pierce's Golden Medical
