

Crop Bulletin.

The cool spell which overspread Oregon June 1 continued almost unintermittently until the afternoon of the 14th, when a welcome change to warmer occurred, and the following Saturday, Sunday, Monday and Tuesday were bright, warm, sunshiny days, that proved very beneficial in ripening grain and advancing the growth of hops, corn, potatoes and gardens.

Light frosts occurred in some of the most elevated districts and the damage done by them was confined to small spots here and there and was not extensive. The fore part of the week was showery in the northern portion of the State, and, except in portions of southern Oregon there is now ample moisture in the soil to carry the grain crop through to maturity.

The condition of fall grain is not as promising as it was last week. In the Willamette valley it is becoming spotted, and complaints of fields turning yellow are more numerous than heretofore. The grain aphid has again made its appearance in the upper portion of the valley, but it has not as yet done much damage. In Umatilla, Baker and Union counties fall wheat in low places and hollows was killed by the frosts of June 4 and 5, and some has been cut for hay or else plowed under.

The crop, as a whole however, continues promising and with favorable weather from now on will yet prove an average one.

Haying has begun, with yields above the average, both as to quantity and quality. Gardens are backward and frosts Wednesday morning in southern Oregon injured considerable garden truck in Josephine and Jackson counties and also hurt corn and alfalfa. The first cutting of alfalfa has also been injured by frosts in eastern Oregon, but the stalk is vigorous and there is no reason why the second cutting should not be up to the usual average. Hops continue doing nicely and the yards are generally free of lice, reports regarding fruit vary widely. In some sections the trees have all they can carry while there are many orchards that will not produce sufficient fruit to pay for its being gathered. Cherries have been injured by the rains and strawberries are slow in ripening. In the Powder River valley all fruit suffered severely, and throughout eastern Oregon there will be a general shortage over last year's yields of prunes and apples.

Mrs Michael Curtin, Plainfield, Ill makes the statement, that she had been treated for a month by her physician, but grew worse. Her doctor told her that no medicine could cure her. Her druggist suggested Dr King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first use. She continued its use and after taking six bottles, found herself sound and well; now does her own housework and is as well as she ever was.—From a bottle of this Great Discovery by Bend-Drug Co. Only 50 cts and \$1.00, every bottle guaranteed.

Ex-Governor Pingree Dead.

LONDON, JUNE 18.—Ex Governor Hazen S. Pingree, of Michigan, died here tonight at 11:35. His son was the only one present at the time. The attending doctors left Mr Pingree's bedside at about 11:15, promising to return shortly. H S Pingree, Jr, who had been watching at his father's side for four days and who has not removed his clothes during the time, noticed a sudden change in his father's condition. He had hardly reached the patient's bedside when his father died peacefully without warning and without speaking one word.

E WALL & WHIPPLE.

Mr C L Smith, an expert Dairyman and farmer from Minnesota, and whose services have been secured by the Southern Pacific Co, was advertised to speak upon Diversified Farming at Martin Hall Tuesday afternoon. However but few of our people saw fit to attend which is to be seriously regretted. The dairymen of Minnesota realize ten million dollars a year from that profitable industry. Oregon could do as well and Cottage Grove could easily get her share if our people could once wake up to this opportunity. The e is no reason why thousands of dollars could not be earned by our people in this and kindred industries, where they now earn hundreds at old fashioned farming. Other places succeeded and why cannot this community?

The human body is said to be shorter in the evening than in the morning, due to the fact that during the day the cartilages between the joints are compressed. The average man is three-quarters of an inch taller in the morning than he is in the evening.

A great many women are subject to spells of dizziness, spots before the eyes, and a ringing noise in the head. These symptoms are commonly associated with liver "trouble" as the result of a diseased condition of the stomach and other organs of digestion and nutrition.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and the allied organs of digestion and nutrition. It cures through the stomach diseases seemingly remote from that organ, but which have their origin in a diseased condition of the stomach and digestive and nutritive system. Hence, cures of heart, lungs, liver, kidneys, and other organs are constantly effected by the use of Dr. Pierce's Golden Medical Discovery.

There is no alcohol in the "Discovery" and it is free from opium, cocaine, and all other narcotics.

Some dealers may offer a substitute as "just as good" as Dr. Pierce's Golden Medical Discovery. There's more profit in substitutes for the dealer. There's more health in the "Discovery" for you. Don't be imposed on.

It is with the greatest pleasure I write you the benefit my mother has received from your "Golden Medical Discovery." says Miss Carrie Johnson, of Lowesville, Amherst Co, Virginia. She suffered untold misery with uterine disease and nervousness, and had a constant roaring and ringing noise in her head. After taking six bottles of Dr. Pierce's Golden Medical Discovery she was entirely cured.

When a laxative is required use Dr. Pierce's Pleasant Pellets.

United States official Report MADE TO

commissioner of the United States, General Land Office, Washington D C.

by a Geologist and Mining Expert of world-wide reputation, Professor Benjamin Silliman who spent several months there then being connected with the United States Surveying Corps. In his official report says:

"HERE ARE COUNTLESS MILLIONS OF TONS OF HIGH GOLD QUARTZ produced by the great forces of nature to a condition ready for the application of the hydraulic process which is a sluice on the bars of which the gold gravels from the wearing away of the gravel banks has been accumulating for countless ages and is now ready for extraction by the most approved methods of river mining. THE THICKNESS OF THE RIO GRANDE GOLD GRAVEL EXCEEDS IN MANY PLACES 600 FEET OR NEARLY THREE TIMES THAT OF THE LIKE IN CALIFORNIA WHILE THE AVERAGE VALUE PER CUBIC YARD IS BELIEVED TO BE GREATER IN THE NEW MEXICO BEDS THAN IN ANY OTHER SUCH ACCUMULATIONS YET DISCOVERED."

I have made a reconnaissance of the whole of this gravel along the Rio Grande and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. NOTHING I AM PERSUADED SINCE THE DISCOVERY OF CALIFORNIA AND AUSTRALIA, IS COMPARABLE FOR ITS MEASURABLE RESOURCES OF GOLD AVAILABLE by the hydraulic process to the deep placers of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this company the richest and most extensive known.

A Tension Device is a simple thing, and yet good sewing is impossible without a correct tension. You know this from experience.

We Claim that our Tension is without a peer. It pinches the thread just enough to produce a smooth, elastic stitch.

Our Tension Indicator shows the state of tension at all times. A tension can be changed or duplicated at any instant. Every machine user will appreciate this device.

Our Tension Releaser (on reverse side of face plate) operating with lifter bar, instantly removes all tension from thread.
