Poetic Justice.

A Jerseyman who went out for a pleasure-drive with his sweetheart not long ago received a needed, though severe lesson on the necessity of being humane to animals in this day and generation. It was a very hot day and when the drive was about half over the horse became balky. The driver there upon lost his temper and gave the animal an unmerciful beating. Then the trouble began: A constable saw him and promptly arrested him for cruelty to animals. He was unable to pay the money and his companion settled the business for him. Then she went home and wrote him a note, and this is what it said:

"When a man will so brutally beat a horse and so easily lose his temper, a woman marrying him would take chances on the same treatment." And the rest of the note released him from the engagement.

Most people will be of the opinion that the young lady in question did exactly what was right, and was fortunate in discovering the disposition of her fiancé before, instead of after marriage. Insensibility to the pain of another is not a trait which is particularly desirable in either a husband or wife. While, of course, it is not to be inferred that every man who will beat his horse will also beat his wife, cruelty to animals so vitiates the moral nature that those perceptions upon which a sense of justice depends are blunted. The intimacy of marriage is so close that happiness can only exist where there is a certain sensitiveness to the feelings of others. The man who does not possess this sensitiveness may not be actually cruel to either wife or children, so far as physical maltreatment is concerned, but he will say and do things which are quite as brutal as a blow with a whip would be. There are a dozen considerations which are likely to restrain him from wife-beating—the opinion of his neighbors, custom, fear that his wife may invoke the law, fear of retaliation by her relatives, or merely the fact that it is not usual for American husbands to express their sentiments in that way. But if his nature is essentially cruel he will find ways to torture those dependent upon him which are worse than any physical pain. The true test of a man's character is not to be found in his actions when he is restrained by public sentiment or fear of consequences. He is his real self when he is free to act, to indulge in meanness or passion, or cruelty, toward some creature which cannot retaliate and has no means of defence. The Jerseyman who is the unenviable hero of the incident above recorded was subjected to this test and apparently he failed. He may have had an idea that by his lack of consideration for his horse he was showing a manly and stern strength of character which would impress the girl in the seat beside him. Some men have an idea that women rather admire those who are capable of cruelty. These men are trying to fit sixteenth century ideas into twentieth century civilization. It cannot be done. It is true that women admire a brave man, and often the man in question is a soldier or a hunter, but there is a very fine distinction between the brave man and the man who is ever ready to inflict pain. What the modern girl seems to admire in the soldier is not his willingness to shoot other men, but his readiness to be shot himself; not his murderous impulses, but his sacrifice of personal safety. The kind of woman who would like a man better after seeing him act cruelly toward a helpless animal is not fit for a civilized country.

"Pleasant Dreams"

Cries the young maid to her mother, as she retires to rest. The mother smiles, but sighs. She knows that the pains that rack her will not stop for darkness, and that if she sleeps her dreams will only be echoes of the sufferings of the day.

Why not sleep soundly and rise refreshed at morning, with strength and courage for the day's duties? Weak, nervous women, sufferers from backache, bearing-down pains, and other womanly ailments, have found a perfect cure in Dr. Pierce's Favorite Prescription. It heals the womanly diseases which cause the pains and nervousness. It makes weak women strong and sick women well.

"I deem it my duty to express my heartfelt gratitude for having been the means, under Providence, of restoring me to health," writes Mrs. B. H. Mann, of Springfield, Leon Co., Fla. "For nearly two years I suffered from female weakness so I could not stand on my feet any length of time; could scarcely walk at all. Appetite was much impaired; I had bearing-down sensations; can't express how badly I did feel. Had tried several kinds of medicine which did me little or no good. At last decided to try Dr. Pierce's Favorite Prescription. I had not taken all of two bottles before I saw it was benefiting me, so I continued to take it until I had taken seven bottles, when I felt entirely cured. Did not feel a touch of my old complaint. It has been over a year since I took your medicine, and I can truthfully say that my health has been better for the last year than it had been for four years previously."

"You may publish this as a testimonial."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

United States Official Report

MADE TO

commissioner of the United States, General Land Office, Washington D. C.

by a Geologist and Mining Expert of world-wide reputation, Professor Benjamin Silliman who spent several months there then being connected with the United States Surveying Corps and in his official report says:

"HERE ARE COUNTLESS MILLIONS OF TONS OF RICH GOLD QUARTZ reduced by the great forces of nature to a condition ready to the application of the hydraulic process while the entire bed of the Rio Grande for 14 miles is a sluice on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages and now lies ready for extraction by the most approved methods of river mining. THE THICKNESS OF THE RIO GRANDE GOLD GRAVEL EXCEEDS IN MANY PLACES 600 FEET OR NEARLY THREE TIMES THAT OF THE LIKE BEDS IN CALIFORNIA WHILE THE AVERAGE VALUE PER CUBIC YARD IS BELIEVED TO BE GREATER IN THE NEW MEXICO BEDS THAN IN ANY OTHER SUCH ACCUMULATIONS YET DISCOVERED."

I have made a reconnaissance of the whole of this gravel along the Rio Grande and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. NOTHING I AM PERSUADED SINCE THE DISCOVERY OF CALIFORNIA AND AUSTRALIA, IS COMPARABLE FOR ITS MEASURABLE RESOURCES OF GOLD AVAILABLE by the hydraulic process to the deep placers of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this Company the richest and most extensive known.
