

TO PREVENT DECAY

Wood Preserver Used by Uncle Sam's on Yamhill River Work.

Merits of Avenarius Carbolinum Recognized by National, State and Municipal Governments.

The fame of Avenarius Carbolinum has steadily extended as the only bona fide preserver of wood, since its discovery in Germany thirty years ago. It has stood all tests of climate soil and water and has steadily lived down all pretended rivals. To day it is not only employed in all countries for the preservation of wood used for household articles articles such as houses, barns, fences etc, but the national government, both of Europe and America, have recognized its value in saving public constructions from decay. Following their example cities and counties have also adopted Avenarius carbolinum for bridges pavements etc and the leading ship builders and railroad companies have shown their faith in its merits by treating ship timbers, cars, telegraph poles and ties with the same never failing preventative against climatic decay and repacious wood boring vermin both of land and water.

Great bodies move slowly and, act after mature deliberation. It may therefore be safely stated that governments and corporations did not employ Avenarius carbolinum until fully convinced of its money saving as well as wood preserving qualities. Private individuals desirous of lengthening the life of wood work and at the same time curtailing expense, need not fear to follow the precedents established.

With such examples before them it would appear that the individual is foolish and the official almost culpable who does not protect his own or the taxpayer's pockets by using this compound thus saving from decay, and lengthening the life of all frame structures for which he is individually or officially responsible.

Fisher Thorsen & Co of Portland Or, are sole Pacific coast agents for Avenarius carbolinum, and it can be found at J P Curran's, Cottage Grove, who will gladly supply information regarding its accomplishments.

For Over Fifty Years.

AN OLD AND WELL-TRIED REMEDY.—Mrs Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It is pleasant to the taste, sold by Druggists in every part of the World. Twenty five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

The Oregon State Fair at Salem, September 23rd to 29th, 1901, inclusive, promises to be the best this year that has yet been held. New features for amusement and instruction have been added, and particular attention will be given to the Stock Exhibit, owing to the great and constantly increasing interest in dairying through the state. For this occasion the Southern Pacific Company will make a rate of one fare for the round trip from all its stations in Oregon to Salem and return, and it is to be hoped that every one who can do so will show their appreciation by taking advantage of this opportunity to pass a few days pleasantly and profitably at our State Capitol.

Be sure and call at Taylor's Photo Studio and see their new work.

Doings at the Capitol.

By Our Regular Washington Correspondent

Washington would be peaceful at present were it not for Sampson-Schley controversy, but both sides are so busy in considering what they will do to each other that there is a semi-sulphurous suggestion of war. The adherents of Admiral Sampson have thus far been kept occupied in explaining as much of their chief's erratic conduct as they can without giving their case away beforehand. Some of the explanations do not explain.

The latest development in the case is in the discovery of the fact that the Cuban, General Garcia, knew, or surmised, that Cervera was coming out of the harbor of Santiago on the morning of July 3. His information came from the refugee French Consul at Santiago, and was presumably, wigwagged to Sampson as there was a code of signals arranged between Cervera and Sampson for that precise emergency. It would appear therefore, that Sampson not only thought that Cervera might come out at that time, and, as he has already claimed, made all arrangements to stop him should this happen, but that he actually knew that the sortie of the Spanish fleet was about to take place, and knowing, deliberately absented himself with one of the best ships of the squadron, and was hulled down behind the horizon, seven miles away, when the time came for him to make his overleaving reputation. On ascertaining this, Admiral Schley's friends took immense delight in arising and asking with one voice, "WHY?" It really seems, sometimes, as if the the Schley press of the country, which means most of the newspapers were one big interrogation point addressed to the unlucky Sampson.

That Schley is the hero of the enlisted men there is no doubt. The "jackies" on his ship swear by him, and so do the gunners and sailors on other ships, not including of course, the New York. Schley was the only one of the three prominent admirals (Dewey, Schley and Sampson) who attended the banquet at the Waldorf-Astoria given for the enlisted men during the New York celebration. Schley made a speech which took the sailors by storm. It has been suggested that General Shafter should be called as a witness when the court of inquiry meets. It is not known just what Sampson's supporters in the Navy Department think of this suggestion, and for obvious reasons it is not likely to be known. They cannot endorse it with good grace, and they cannot regard it with open disfavor without hurting themselves. That Shafter's testimony, if taken, would be one of the most interesting chapters in the record cannot be doubted. The big General is not good at fabrications or evasions, and he was in a position to know Sampson very well. He would have to relate, under oath the story of the Santiago campaign as he saw it from the rear.

Little can be learned at present, from any authoritative source, of the actual facts in the controversy. The reason is that Secretary Long has ordered every man connected with the Navy Department or with the service to keep his mouth shut. In this the Secretary has again shown the fact which has always been one of his prominent qualifications for statesmanship. It will really do no good to have the whole matter thrashed over on the statement of every little officer who knows, or thinks he knows, something about it and the battle of Santiago was an affair in which a great many officers, big and little, took part, and on which practically every one in the service has an opinion. There are people, however, who note the fact that Captain Chadwick, of the New York, one of Sampson's devoted adherents, said a number of things about forbidden subjects a few days after the order was given, and was not punished, while Captain Forsyth, who came out in a Schley interview, is said to be in danger of a serious reprimand. They are asking "Why?" again and again, in connection. It is probable that that little word was never more loudly overworked in Washington than it has been during the preliminary proceeding of the Sampson-Schley investigation.

"Played Out"

Is one of the curious expressions used for worked out. Many a woman drops into a chair, in utter weariness "all played out," and wonders why she feels so weak. She has not yet realized that the general health is so intimately related to the local health of the womanly organism, that weakness must follow womanly diseases.

Restoration of the general health invariably follows the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries weakening drains, heals the inflammation and ulceration, and cures female weakness. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep. There is no substitute for "Favorite Prescription," for there is nothing "just as good" for womanly ills.

"I wish to advise the suffering women of this great land, of the good I have received from Dr. Pierce's Favorite Prescription and Golden Medical Discovery," writes Mrs. Mary Shappell, of Columbus Grove, Putnam Co., Ohio. "For four years I had been a sufferer from female troubles, and at times was unable to do even the housework for three in the family. I had such pains that I suffered almost death dozens of times, but after taking five bottles of your medicines I can confidently say that my health was greatly improved. I have a good appetite and am gaining in flesh right along. This spring is the first time in five years that I have done my house cleaning all by myself and without the least fatigue whatever. I hope all suffering women may find relief as I have done."

"My gain in weight has been just ten pounds, and I am still gaining." Dr. Pierce's Common Sense Medical Adviser, 1008 large pages, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or for cloth-bound book, send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

United States official Report

MADE TO

commissioner of the United States,

General Land Office, Washington D C.

by a Geologist and Mining Expert of world-wide reputation, Professor Benjamin Silliman who spent several months there then being connected with the United States Surveying Corps and in his official report says:

"THERE ARE COUNTLESS MILLIONS OF TONS OF RICH GOLD QUARTZ reduced by the great forces of nature to a condition ready to the application of the hydraulic process while the entire bed of the Rio Grande for 10 miles is a sluice on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages and now lies ready for extraction by the most approved methods of river mining. THE THICKNESS OF THE RIO GRANDE GOLD GRAVEL EXCEEDS IN MANY PLACES 600 FEET OR NEARLY THREE TIMES THAT OF THE LIKE BEDS IN CALIFORNIA WHILE THE AVERAGE VALUE PER CUBIC YARD IS BELIEVED TO BE GREATER IN THE NEW MEXICO BEDS THAN IN ANY OTHER SUCH ACCUMULATIONS YET DISCOVERED. I have made a reconnaissance of the whole of this gravel along the Rio Grande and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. NOTHING I AM PERSUADED SINCE THE DISCOVERY OF CALIFORNIA AND AUSTRALIA, IS COMPARABLE FOR ITS MEASURABLE RESOURCES OF GOLD AVAILABLE by the hydraulic process to the deep placers of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this Company the richest and most extensive known.
