## McKinley Growing Better

The Physicians in Attendance Pronounce him out of Danger

The Wounds were made with a 32-Caliber Revolver.

BUFFALO, N. Y., Sept 6.—President McKinley, the third Magistrate of the United States to have his life attempted, to-day was shot two times by a Pole, supposed to be an anarchist and giving his name as Leon F Czolgosz, and the gravest fears are entertained that one of the wounds may prove fatal although the physicians believe that recovery is probable.

The wounds were inflicted by a 32-caliber revolver. One ball entered Mr McKinley's breast and glanced off, inflicting only a flesh wound. It was extracted. The other entered the abdomen and perforated the walls of the stomach. The surgeons cut for this bullet and stitched the openings in the walls of the stomach but failed to locate the bullet. President McKinley rallied nicely from the operation. His condition late to-night was highly satisfactory to his physicians.

BUFFALO Sept 7.—President McKinley lies at death's door. The attending physicians are as yet unable to state that the president is out of danger. Czolgotz has been secreted by the police who fear mob violence. He puts on a bold face and admits his intention was to murder the president.

BUFFALO, Sept 8.—The following bulletin was issued at 9 A M by the President's physicians;

"The President passed a good and his condition this morning is quite encouraging. His mind is clear and he is resting well; wound dressed at 8:30 and found in a very satisfactory condition. There no indication of peritonitis. Pulse 132; temperature, 102.8; respiration, 24.

BUFFALO, Sept 9.—Another bulletin issued by the physicians this morning says; 'The improvement in the President's condition has continued since last bulletin. Pulse 128 temperature, 101 degrees; respiration, 27.

BUFFALO, Sept 10, 1:45 p.m.—Last night, which in similar gunshot wounds to that received by the President, is usually the crisis night when they result fatally, passed favorably. All the President's symptoms were favorable.

The physicians do not contemplate a second operation or inside dressing of the wound.

BUFFALO, Sept 9.—At 10:30 p m physicians report the President's condition encouraging. They say critical period will be over in 36 hours; that if the President passes this period safely he will recover.

BUFFALO, Sept 11, 11:30 a.m.—Dr Mynter is of the opinion that President McKinley should not be moved for at least six weeks.

Czolgotz made a partial confession today. He stated that there was a conspiracy among many anarchists to assassinate President McKinley.

He refused to name any participant than Emma Goldman, the woman anarchist, already under arrest on charge of being an accomplice to the assault on the President.

## Consumption Threatened.

G Unger, 212 Maple St, Champaign, Ill, writes I was troubled with a hacking Cough for a year and I thought I had consumption. I tried a great many remedies and was under the care of physicians for several months. I used one bottle of FOLEY'S HONEY AND TAR. It cured me, and I have not been troubled since." New Era Drug Store.

BUFFALO, Sept 11.—The condition of the President continues favorable throughout the day, and nothing occurred to shake the faith of the attending surgeons and physicians that he will recover. The danger from two sources was pronounced practically over today. The holes in the stomach proper, caused by the perforation of the bullet are now considered healed by Dr McBurney and his associates, and the eminent surgeon pointed to the fact that the beef juice fed to the patient last night was readily digested, as proof of this. Sufficient time has also elapsed to warrant the doctors in asserting that the danger of inflammation where the bullet lodged had disappeared. It is believed that the ball has now become encysted in the muscles of the back, and unless it should prove troublesome later, there will never be any necessity for removing it.

I had a running sore on my leg for several years, writes Mrs Jas Forest of Chippewa Falls Wis., and spent hundreds of dollars in trying to get it healed. Two boxes of BANNER SALVE entirely cured it. Beware of substitutes. New Era Drug Store.

The largest passenger steamer afloat is the new White Star liner, Celtic. The boat is 700 feet long, has a beam of 75 feet and a depth of 49 feet. Her tonnage is 20,000 and her displacement 38,300 tons. There is room on her for all the inhabitants of Cottage Grove to live comfortably and still have room for a few unused parlors to hold receptions, dances and parties in.

According to the census of 1899 there were 60,711 Cuban farms, 38,550 containing less than 8 acres, 11,650 between 8 and 15 acres, and only 7,300 had more than 150 acres. Just wait until the syndicates get a chance at Cuba's agricultural lands and then you'll see bigger farms there than that.
