They are Here

The Bohemia Railroad Surveyors To Select Route from Cottage Grove to Bohemia Mines.

The much expected railroad surveyors, who are to locate permanently the route of the Cottage Grove-Bohemia Railroad, arrived on yesterday afternoon local, fully equipped and ready for the field. The party under the management of Mr P J Jennings will make their headquarters at Cottage Grove and push their work as rapidly as possible towards completion before bad weather becomes the rule. It is not anticipated any material opposition will be met with in granting rights of way as all along the route farmers realize the importance of a railroad from Cottage Grove to Bohemia and the immense advantages accruing from its building. The damage resulting from running through their farms will be more than compensated for by the increased value of their adjoining land. This is proved by history. There has been rumors afloat that the road would be built to Saginaw or Eugene but we believe there is nothing in the move more than talk. However if such fear should deter any from giving a right of way Mr Jennings no doubt is in a position to satisfy all such persons as to there being any thing in the rumor. Of course there are some people who doubt the building of the road. To such, time alone, in all probability will prove to them

speaks louder than words and a well organized surveying party actively in the field means considerable expense. Surveying parties are not luxuries to which moneyed men are addicted by habit, and the people behind Mr Jennings in this move evidently mean business. They have expended a large amount of money in Bohemia which is a proof of their faith in the camp, and it is not in reason to suppose they will continue to do so just for the sake of blowing it in.

We are going to have a railroad, let us make up our minds to that fact and let our business men and all others put their shoulders to the wheel and make a unanimous pull, an intelligent pull and a hearty pull and if it fails the blame cannot rest upon the shoulders of Cottage Grove people.

"I had long suffered from indigestion," writes G A LeDels, Cedar City, Mo. "Like others I tried many preparations but never found any thing that did me good until I took Kodol Dyspepsia Cure. One bottle cured me. A friend who had suffered similarly I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. Before using Kodol Dyspepsia Cure indigestion had made him a total wreck. Benson Drug Co.

Up-to-date Job Work At this Office.

Here and There.

President P J Jennings, of the Helena and the Musick Mining & Milling Companies, of the Bohemia district, announces that arrangements have been completed for building a railroad from Cottage Grove, southeasterly, a distance of 35 miles through a region of heavy timber to the Bohemia mines. It is expected that construction work will be commenced this fall and that about half the track will be laid before spring. Connected with this, though not yet arranged for, is the project of building a smelter either at Portland or in the Bohemia mining district. The smelter enterprise is expected to follow the completion of the railroad and it is deemed probable that both will be in operation in less than a year from date.

"We have gone so far" said Mr Jennings yesterday, "that the rest of the work is easy. We have \$500,000 assured for the railroad, largely on the basis of the mineral richness of the district as shown by development already made. Capital is eager to build an adequate smelter, but there would be no use for the smelter without the railroad, so the road is to go first. This is the natural order. I have not a doubt that the smelter will be provided when we are ready for it. The field is too important to be neglected and the problem of ore, fuel and fluxes practically solves itself here."

The money for the railroad enterprise will be supplied by Eastern capitalists.

Russell Kimball, of Red Lodge, Mont, one of the two engineers who will have charge of the work, and Wood, of Tacoma, the other partner in the survey, will arrive in Portland Wednesday. They will start for Cottage Grove with a crew Thursday morning, and will immediately take the field.—Sunday's Oregonian.

Dr Roberts Explains.

Apparently Perfect Vision is Not Always a Proof That the Eye is Perfect.

The science of optics and refraction have developed and proven it a fact that a perfect eye never fails in its vision for distance. Even though a person may have perfect distant vision they may be compelling it through an imperfect eye. The eye being controlled by the brain, means a constant brain strain if the eye is in the least imperfect. The brain in turn draws upon the nerve system to regain the strength necessarily used to get perfect vision; therefore, the brain or nerves are generally affected before the vision, which only grows bad because of loss of power to compel perfect vision through an imperfect eye. Now, as a perfect eye never fails for distant vision, it is the refractionist's business to make it perfect with glasses and then it should never fail. Why? Because it has been made perfect. If your glasses are not so ground that they absolutely correct every error—and there may be several—you will still have trouble and be compelled to change your glasses a time after time, and your eyes will be a constant source of annoyance and expense to you. This change and expense is absolutely unnecessary.

Dr A T Roberts has fitted glasses for distant vision for the last 15 years with distinct understanding that if at any time in the future the vision could be the least improved, the change should be made without extra cost.

If you have headache, or suffer from nervousness, it is almost absolute proof that your eyes are imperfect. When failure to obtain relief by the use of ordinary remedies demonstrates the fact that the trouble does not lie in ordinary causes, call on Dr Roberts and he will make a free examination and give you such an explanation of your eyes and their connection with the nervous system that you cannot help but see why the eyes may be the cause of your trouble. By Our Regular Washington Correspondent

How many representatives will go to Washington on the first of December with the knowledge that their future political life is dependent on their voting for a revision of the tariff it is impossible to predict but there is reason to believe that there will be enough to insure its being undertaken. But even if tariff revision is attempted it will never be accomplished along lines that will satisfy the people. By its tariff legislation the Republican party has built up the trusts and now the trusts control the party. The tariff revision of those schedules that favor the trusts and that is precisely what the trusts will not permit. The party managers appreciate this fact and will use every endeavor to divert public attention from the real issues but they "can't fool all of the people all of the time" and the democratic leaders whom one meets in Washington all express themselves as confident that the time is not far off when the Republican ship will shiver itself on the trust rock.

A few years ago the farmers were hurraining for a protective tariff that would protect them in the wool growing industry and would shut out the foreigner and advance the prices on this commodity. Now the price of wool of a grade that makes it unprofitable to the producer. After all that has been said about protection to the wool grower he is now at the mercy of a great wealthy corporation that is absorbing all the profits of that industry. The tariff protects the monopoly, but gives no protection to the wool grower. How many farmer there are in Iowa that will still favor such a protection as this remains to be seen.—Commoner.

"Something New Under The Sun"

All Doctors have tried to cure CATARRH by the use of powder, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have eaten away the same membranes that their pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used not only relieves a case, but permanently cures CATARRH by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES THE GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve RAY FEVER or COLD IN THE HEAD.

CATARRH when neglected often leads to consumption—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once and write full particulars as to your condition and you will receive special advice from the discoverer of this wonderful remedy—extending your case without cost to you beyond the regular price of "SNUFFLES" THE GUARANTEED CATARRH CURE.
