

The Home Gold Cure.
An Ignominious Treatment By which Drunkards are Being Cured Daily in spite of Themselves.
No Noxious Diseases, No Weakness of the Nerves, A Pleasant Positive Cure for Liquor Habit.

It is not generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and of destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been prepared after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS!! CHILDREN CURE YOUR PARENTS!! This remedy is in no sense a nostrum but is a specifically devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy and as many more have cured and made temperate men by having the "HOME GOLD CURE" administered by loving friends and relatives without their knowledge in tea or coffee and believe today that they discontinued drinking of their own free will, do not wait. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effective than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E893 EDWIN B GILES & COMPANY, 2350 and 2332 Market Street, Philadelphia. All correspondence strictly confidential.

TO PREVENT DECAY
Wood Preserver Used by Uncle Sm's on Yamhill River Work.

Merits of Avenarius Carbolinum
Recognized by National, State and Municipal Governments.

The fame of Avenarius Carbolinum has steadily extended as the only bona fide preserver of wood, since its discovery in Germany thirty years ago. It has stood all tests of climate soil and water and steadily lived down all pretended rivals. To day it is not only employed in all countries for the preservation of wood used for household articles articles such as houses, barns, fences etc. but the national government, both of Europe and America, have recognized its value in saving public constructions from decay. Following their example cities and counties have also adopted avenarius carbolinum for bridges pavements etc and the leading ship builders and railroad companies have shown their faith in its merits by treating ship timbers, cars, telegraph poles and ties with the same never failing preventative against climatic decay and rapacious wood boring vermin both of land and water.

Great bodies move slowly and, not after mature deliberation. It may therefore be safely stated that governments and corporations did not employ avenarius carbolinum until fully convinced of its money saving as well as wood preserving qualities. Private individuals desirous of lengthening the life of wood work and at the same time curtailing expense, need not fear to follow the precedents established.

With such examples before them it would appear that the individual is foolish and the official almost culpable who does not protect his own or the taxpayer's pockets by using this compound thus saving from decay, and lengthening the life of all frame structures for which he is individually or officially responsible.

Fisher Thorsen & Co of Portland Or, are sole Pacific coast agents for avenarius carbolinum, and it can be found at J P Currier's, Cottage Grove, who will gladly supply information regarding its accomplishments.

How many mothers realize that when the baby's advent is expected they need strength for two instead of one. Women, weak, nervous, "just able to drag around," find themselves confronted with coming maternity. They have not strength enough for themselves, how can they have strength to give a child? We don't look for the birth of strong ideas from a weak mind. Why should we expect the birth of strong children from weak mothers?

The way to ensure health and strength to mother and child is to use Dr. Pierce's Favorite Prescription as a preparative for motherhood. It brings the mother's strength up to the requirements of nature, so that she has strength to give her child. It nourishes the nerves and so quiets them. It encourages a natural appetite and induces refreshing sleep. "Favorite Prescription" makes weak women strong and sick women well. There is no alcohol in "Favorite Prescription" and it is free from opium, cocaine and all other narcotics.

"I wish to let you know the great benefit my wife derived through taking your 'Favorite Prescription,'" writes Mrs. Robert Hadden, of Brandon, Manitoba, Box 235. "It was when her baby came. We had heard so much of your medicine that my wife decided to try it. I may say my wife's age was thirty-three and this was her first child. She commenced to take 'Favorite Prescription' five months before her child was born. We have a fine healthy girl, and we believe that this was mainly owing to the 'Favorite Prescription,' taken faithfully according to directions. We shall certainly recommend it wherever we can."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

BANNER SALVE
The most healing salve in the world

Very Dangerous—
There Should Be No Guess Work.

The fitting of spectacles or eyeglasses is purely a mechanical science requiring a thorough knowledge of refraction and the eye, the aim being to correct deformities of the eye, which are nearly always congenial. The real science of the work lies in the scientist's ability to measure to an exact nicety the errors of refraction existing on account of these deformities. To make these corrections we use commonly three kinds of lenses, viz: Spheres, cylinders and prisms. Using these lenses separately and in combination with each other there can be made more combinations—all of which are absolutely necessary—than are words in the English language. This should prove to the average thinker that there should be no such thing as guesswork, and that it cannot be done by the old-fashioned (cut and try) system of mechanics. Therefore, when your optician or oculist encourages you to buy from him by telling you if they don't fit he will "change them," you at least have cause to lose confidence in his ability as a refractician, for the scientific fitting of glasses is far from the "cut and try" system than any other known science, and if he cannot fit you the first time what advantage does he gain that he can ever do by his guesswork at ones that he is sure to fail.

Dr. A. T. Roberts has a thorough knowledge of everything pertaining to the eye, and has all the latest scientific instruments necessary for the most intricate examinations, and guarantees his corrections to be as perfect as can possibly be made through artificial refraction.

He particularly solicits a call from those who have tried in vain to get perfect work in this line. Examination free.
