FRIDAY, - - - Nov. 15 1901.

Earl Li Hung Chang, China's great statesman is dead. In his death China has lost a great man. His wealth is estimated at \$50,000,000.

The body of Czolgosz was buried in quicklime. Republican attempts to make political capital out of the sad chapter of assassination should be buried in the same material.

It is a good thing for the republic that the men who founded it did not act on the "let well enough alone" theory. That theory, if put into practice, would result in the world standing still.

As a matter of fact Schley couldn't have won the battle of Santiago without disobeying Sampson's order of battle. That fact, however doesn't seem to give much satisfaction to the Navy Department.

The people who rush to the Philippines on the strength of the reports of rich gold mines there may confirm American dominion by their presence but they are much more likely to fertilize Philippine soil by their bones.

The McKinley Memorial is to cost a million and a half and to be erected at Washington, where it will form one of the many attractions of our Capital. The American people are proud of Washington and want it to be the finest city in the world.

The Bubonic Plague is at Liverpool, the city of all the world with which our trade is largest and most constant. This calls for extra vigilance on the part of our quarantine officers. If once the Plague gets a foothold in the south, the chances are that it will settle the negro problem for all time. Black and brown men suffer far more from it than do the whites.

The Republicans contend that the tariff should not be removed from the manufacturers of the Steel Trust because to do so (as they allege) will be to damage the small iron men, who are not in the trust. It will be interesting to see what new excuse they will find when the new Steel Trust, which is to have \$2,000,000,000 capital, now being formed, is finally organized with nearly all the small concerns as members.

Why is it that the United States which makes everything else in the world quite as cheaply as any other nation, cannot build ships in competition with those others? Admitting, for the sake of argument, that we cannot build them, the reason why we cannot is plain. It is because the Steel Trust, favored by the tariff, sells iron and steel for shipbuilding purposes to the foreign builder some 40 per cent cheaper than he sells the very same goods to the home builder. Is it wonderful that this should handicap the latter?

STOPS PAIN

Athens, Tenn., Jan. 27, 1901.
Ever since the first appearance of my menses they were very irregular and I suffered with great pain in my hips, back, stomach and legs, with terrible bearing down pains in the abdomen. During the past month I have been taking Wine of Cardui and Thedford's Black-Draught, and I passed the monthly period without pain for the first time in years.
NANNIE DAVIS.

What is life worth to a woman suffering like Nannie Davis suffered? Yet there are women in thousands of homes to-day who are bearing those terrible menstrual pains in silence. If you are one of these we want to say that this same

WINE OF CARDUI

will bring you permanent relief. Consult yourself with the knowledge that 1,000,000 women have been completely cured by Wine of Cardui. These women suffered from leucorrhoea, irregular menses, headache, backache, and bearing down pains. Wine of Cardui will stop all these aches and pains for you. Purchase a \$1.00 bottle of Wine of Cardui to-day and take it in the privacy of your home.

Doings at the Capitol.

By Our Regular Washington Correspondent.

Recent advices from the Philippines report the adoption of the most drastic laws in regard to treason and some vigorous protests from our Philippine subjects who denounce the laws as more severe than those with which they had to contend under the Spanish regime. Of course provision for the severe punishment of treason, rewards to informers and violations of individual liberty are inseparable from the colonial policy and must be accepted as inevitable.

The election returns are the chief topic of interest in Washington today and everyone is discussing the effect of Tuesday's results on the more important elections of the next two years. The fact that, with all the Republicans, a large number of Democrats and the usual disgruntled element against him, Mr Edward M Shepard received over 5,000 more votes than did Van Wyck in the last election, has resulted in considerable discussion of Mr Shepard as a likely Democratic candidate for the governorship next year and a potential candidate for the presidential nomination in 1904.

Mr Shepard has back of him a remarkably clean record and the most careful scrutiny of his opponents in the campaign just ended failed to reveal the most trivial action which could be made the ground for criticism. The fusionists confined themselves to pointing out what they held to be inconsistency on Mr Shepard's part in accepting the nomination from Tammany and Mr Shepard replied that he proposed, as mayor, to give the city an honest, clean government and that he considered that the importance of victory to his party far outweighed the narrower view which held that the party ought to be sacrificed in order to obtain fancied improvements in the municipal administration from the hands of men who had never been put to any test. At this writing Mr Shepard, after having withstood the heat and fire of a most bitter campaign stands stronger with his friends and with his enemies than when he entered the fight and there is little doubt but that he could, in a campaign where Democratic and Republican lines were clearly drawn, carry Greater New York by a very handsome majority.

Much satisfaction is felt in democratic quarters at the results in Maryland which insure the return of Arthur P Gorman to the senate. He is an able and experienced man and one who has the interests of his party at heart. He will prove a valuable addition to the Democratic side of the Senate and to the leaders of his party which will respect his advice on all important

issues. The returns from Pennsylvania show greatly reduced Republican majorities but the Republican machine, with Matt Quay at its head, proved too strong to be overthrown by the advocates of honest government. However the results of this year's fight should be regarded as encouraging and a continuance of the ring in power will insure a still greater repudiation the next time the anti-corruptionists array themselves against it.
