## Mines and Mining.

GOING UP

The shares of the LeRoy Mining Co are constantly on the raise and always find a market. Last week 40,000 shares were sold at 3 1/2 cents. The first of this week they went to 5 cents.

The company is pushing development work along at a good rate during the winter months and the property is showing up some very rich rock. The ledge on the LeRoy has now widened to 50 inches of almost solid galena ore carrying big values in gold and copper with some silver. The LeRoy claim is also showing up nicely and bears the earmarks of becoming a wonderful ore producer. Recent assays from these claims show gold values to the amount \$95 per ton.

HIWATHA.

The Hiwatha Mining and Milling Company is making preparations to commence work shortly. This company was just recently organized and have placed stock on the market. Last week 50,000 shares were sold at 2 cents. This week there is ready sales for the stock at 5 cents per share. This company own a group of 3 claims located on the north west slope of Fairview mountain. They are on the same lead with the famous Visuvius. A stamp mill will be erected on the property in the spring when the company will be able to do some good development. The members of the company have great faith in their property and are putting forth their best efforts to secure funds for its development.

A BIG DEAL

Jennings Bros have purchased the stock in the Helena Consolidated Company, owning rich properties in the Bohemia district, which was previously held by Chas B Bruneau. The amount of money involved in the transfer was not made public, but it is known to have been a considerable sum. The Helena mine, which is one of the principal claims of consolidated company, was located in 1896 by C B Bruneau. In the following year P J Jennings acquired a two-thirds interest in the mine, with the understanding that he was to expend \$20,000 in development work. After two year's work a large body of high grade ore was discovered and the mine developed into the best paying properties in the Bohemia district.

From time to time other claims have been added to those held by the Helena Consolidated Company, and the stock rose steadily in value. P J Jennings has invested a large amount of money in the district, and recently took over the holdings of Messrs Cook, J I Jones, O E Brady and Jess, of Los Angeles, in the Musick mine, and also purchased the White Wing from G G Warner. Other claims acquired recently by Mr P J Jennings includes the Hughes and Hartley group and W E Ferguson's interest in the Star mine.

In disposing of his stock to Jennings Bros Mr Bruneau severs a partnership which has been in existence for over five years, and has been mutually agreeable and pleasant to all concerned. Mr Bruneau intends to begin active development of the Sarah claims, in the Bohemia district, which he controls.

## RICH STRIKE IN HELENA NO 2.

Superintendent Behne of the Helena Mining Co received a telephone message from the mines this week. Informing him of a rich strike of galena in the Helena No 2. The new strike was made in a tunnel at a depth of only 65 feet. There is about one foot of almost solid galena ore carrying big values in gold, silver and copper. The level in which the new strike was made will tap the apex of the mountain at a depth of about 1,800 feet. Mr Behne says that he will push the work on this level as rapidly as possible.

I L Campbell was down town again today. Through some unexplainable cause the shock that he experienced recently has left him in far better health than he has enjoyed for several year.—Monday's Guard.
