CHURCH IMPROVEMENTS—Messrs Jenkins & Lawson are busy this week hanging paper at the C P church. When the new improvements on the church are completed it will present a very handsome appearance.

TIMBER LOCATORS—H G McLasky and Peter Nelson, of Minnesota accompanied by A A Aaby and M Hawkinson of Eugene were in Cottage Grove, Tuesday on their way to the mountains on a timber crusing expedition. Oregon timber is being sought for far and near.

TOE AMPUTATED—R W Veatch had his toe amputated this week. Dr Anderson performed the surgery. The toe is on exhibition in a bottle of alcohol in the New Era Drug store window. A card explaining the matter reads as follows "This toe helped Bob Veatch in and out of many scrapes but of late it has bothered him getting out of trouble so he had it taken off by Dr Anderson and Dr Thos Medley."

THE C M A BAND—Since the organization of the new band in town one can hear the sound of a horn at most any time of day or night. The boys are taking a great interest in the band and the majority of them are getting along nicely. We understand that arrangements have almost been completed where- by Mr Charles Cochran the noted cornetist and musical director will take charge of the band. If the present plans are successfully put into operation Cottage Grove will soon have a band that she may be proud of. There is at present 18 members. We may look forward to a number of band concerts during the summer evenings.

BOARD OF TRADE NEEDED—This summer will witness a general rush of people from the east to this state. These people will want homes and they will want to locate in the sections that they think most likely to advance where there are progressive people and where a market for home products can be had. No other section of the state offers better inducements to settlers than Cottage Grove and vicinity. In no other section will the number of natural resources be found as is tributary to this section. Cottage Grove in 5 years from now, if her citizens will go to work in the right way, will be the largest town in Lane county. When the railroad is built to Bohemia there will be opened up one of the greatest mining districts in the world, and our timber will supply a number of large mills for years and years to come. These mines and lumbering camps will afford a home market for everything that this section can produce, but how are we to let people know of our boundless resources and the future prospects of this place? Our plan would be a Board of trade, or a Commercial club or some organization of the kind, to take charge of the matter of advertising the country. Our citizens have the future destiny of the town in their hands and they can make it the leading town of this part of the state or they can sit idly by and see Eugene or some other place carry off the pie, which justly belongs to us.

Why not call a meeting and discuss the matter let them express themselves and the Leader will only too glad to call the meeting through its columns next week.
