Dave Houston, a popular passenger conductor of the Southern Pacific railroad, was made the victim of a practical joke the other day much to his annoyance. Some one had announced in advance in Roseburg, that Hon Mark Hanna was on the South bound train and would stop off at Roseburg. So when the train pulled in Houston was pointed out as the illustrious individual from Ohio, and his friends introduced his as such to unsuspecting individuals, some of whom knew Dave well but who were befogged by the close personal resemblence of the two prominent gentlemen. It took considerable time for the joke to run its length, during which period Houston suffered an age of intense agony. The conductor is looking for the man who started the josh, and when he gets hold of him he will punch him with care.—Portland Sunday Mercury.

A Thousand Dollars Thrown Away.

Mr W W Baker, of Plainview, Neb, writes "My wife had lund trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy it saved her life. She is stronger and enjoys better healt than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it. New Era Drug Store.

WATCHED JEFFERSON'S SMOKE

Sunday morning a wonderful phenomenon was observed by a number of our citizens. It was nothing more or less than eruption Mount Jefferson. When first seen from the Journal office spouts of smoke were coming out of the top at more or less regular intervals, which would float off to the north and after a few seconds rest it would spout forth again, often rising vertically from the top of the mountian to the hight of perhaps two or three thousand feet. A number of glasses were brought to bear on the mountain and all those looking through them unhesitatingly proclaimed it smoke. The smoking was observed for about two hours after which the mountain became enveloped in a haze that shut out the view. At first the jets of smoke would come at intervals of one or two minutes and continue for the same length of time, but at the end of the observation they were about fifteen minutes apart.—Prineville Journal.

A Night Aarlrm

Worse than an alarm of fire at night is the brassy cough or croup, which sounds like the children's deat knell and it means death unless something is done quickly. Foleys Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs P L Cordier, of Mannington, Ky., writes "My three year old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. The New Era Drug Store,

THE SUN IS SELDOM ON TIME

The sun does not keep good time. It is almost always too fast or too slow. Once about the middle of April he is just on time, then not again until the middle of June. At the beginning of September he joins the clock a third time, and lastly once more late in December. Now it would seem as if he were startled at the way he had neglected us. In February he fell back until he was fifteen minutes late. By the beginning of March he had made up five minutes of his loss, and before the month is over he will have caught up within five minutes of the schedule. Meanwhile the days have been growing longer very rapidly. We begin March with our nights longer than our days. We end it with our days longer than our nights. In the one month we have added to the length of our day an hour and twent minutes, a bigger gain than any other month can show. —Prof S C Schmucker, in the March Ladies' Home Journal.

HOW TO ECONOMIZE WITH EGGS

Left-over yolks of eggs if put at once into a tumbler of cold water will keep fresh and soft for several days. If dropped into a cup and covered the yolk would be unfit for use the second day. The left-over whites of eggs may be made into macaroons, kisses, or used for meringues. The whites of two eggs with a quarter of a pound of sugar and the same quantity of almond paste will make two dozen macaroons. Where hard-boiled yolks are wanted it is much better to break the eggs, seperate carefully the yolks from the whites and drop the yolks into water that is boiling hot; cook slowly for twenty minutes. in this way you save the whites for another purpose.—Mrs S T Rorer, in the March Ladies' Home Journal.

A Worthy Successor.

"Something New Under The Sun"

All Doctors have tried to cure CATTARAH by the use of powder, acid gases, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot rech the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATTARAH, has at last perfected a treatment which when faithfully used not only relieves a once, but permanently cures CATTARAH by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the affleted parts.
