The Utah Editorial Association is on a tour of the Pacific coast. The party arrived in Portland June 12, where they remained two days. They will passed through here on the night of June 19.

The rainfall during the past week was light and consisted of small showers along the coast, and over widely scattered areas in the Willamette valley and in the extreme eastern portion of the State. The first of the week was unseasonably cool, especially during the daytime, but the last few days were moderately mild and very favorable for the growing crops.

Light frosts the early part of the week, slightly injured tender vegetation in many sections, but the staple crop escaped unharmed. All kinds of grain continue very promising. Fall wheat is heading nicely with every indication of making good, plump kernels. The reseeded areas have not yet begun to head, but there has been plenty of moisture and plant is healthy and promising. A few complaints of rust and of the wheat stalks falling are made by correspondents in Linn county. Spring grain is growing rapidly; it is well rooted and has an excellent color. Early oats, barley and rye are also heading nicely.

Coinsderable alfalfa has been cut during the week in southern Oregon, and the yields appear to be about the same as last year. Range grass in the eastern section is the best in years, but in southern Oregon it is not as good, and some few reports are to the effect that feed on the summer ranges is still short. The weather has been too wet and cold for timothy and this crop is not as promising as it was a few weeks ago. Clover is doing splendidly. Sheep-shearing is nearly completed and the clip is an average one. It has been the best week of the season for gardens, corn, potatoes, sugar beets and hops, and they are all making rapid advancement.

The fruit outlook in southern and eastern Oregon is very paomising, but in the Willamette valley the conditions are so uneven that it is impossible to arrive at any definite conclusion as to the probable results, except in the case of italian prunes and cherries, both of which have been damaged to such an extent as to cause the yields to be considerably less than last year.

If You Could Look into the future and see the condition to which your cough, if neglected, will bring you, you would seek relief at once—and that naturally would be through

HOUSEWORK

Too much housework wrecks women's nerves. And the constant care of children, day and night, is often too trying for even a strong woman. A haggard face tells the story of the overworked housewife and mother. Deranged menses, leucorrhœa and falling of the womb result from overwork. Every housewife needs a remedy to regulate her menses and to keep her sensitive female organs in perfect condition.

WINE OF CARDUI is doing this for thousands of American women to-day. It cured Mrs. Jones and that is why she writes this frank letter:

Glendeane, Ky., Feb. 10, 1901.
I am so glad that your Wine of Cardui is helping me. I am feeling better than I have felt for years. I am doing my own work without any help, and I washed last week and was not one bit tired. That shows that the Wine is doing me good. I am getting fleshier than I ever was before, and sleep good and eat hearty. Before I began taking Wine of Cardui, I used to have to lay down five or six times every day, but now I do not think of lying down through the day. Mrs. Richard Jones.

Baltimore, Md., March
Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will s a full history of my case, to be used at your discretion.
About five years ago my right ear began to sing, and this kept on getting worse my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, cons ber of physicians, among others, the most eminent ear specialist of this city, who only an operation could help me, and even that only temporarily, that the head then cease, but the hearing in the affected ear would be lost forever.
I then saw your advertisement accidentally in a New York paper, and ordered ment. After I had used it only a few days according to your directions, the noises to-day, after five weeks, my hearing in the diseased ear has been entirely restored. heartily and beg to remain Very truly yours,
