

THE NEW WOMAN.

Mrs. EMMA MITCHELL.

Mrs. Emma Mitchell, 520 Louisiana street, Indianapolis, Ind., writes:

"For the past five years I have rarely been without pain, but Peruna has changed all this, and in a very short time. I think I had taken only two bottles before I began to recuperate very quickly, and seven bottles made me well. I do not have headache or backache any more, and have some interest in life."—Emma Mitchell.

The coming of what is known as the "new woman" in our country is not greeted by everyone as if she were a great blessing. But there is another new woman whom everybody is glad to see. Every day some invalid woman is exclaiming, "I have been made a new woman by Dr. Hartman's home treatment." It is only necessary to send name, address, symptoms, duration of sickness and treatment already received to Dr. Hartman, Columbus, Ohio, and directions for one month's treatment will be promptly forwarded.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, O.

MISSOURI NOW LEADS.

Center of Apple Production Shifts Westward from Alleghanies.

The center of Uncle Sam's apple bin has been shifted west of the Alleghanies, and the state that leads in the growing of the national fruit is Missouri. This is the burden of a paper read by Professor W. A. Taylor, pomologist in charge of field investigation in the United States department of agriculture before the national convention of apple shippers at Rochester, N. Y. Professor Taylor completed his paper some time ago, but just before the time of reading it he received from the census department advance sheets of statistics bearing on the apple industry of the United States, compiled from statistics gathered for the Twelfth census, the matter being brought down to June, 1900.

According to these figures the total number of bearing trees in the United States is 210,000,000, an increase of 75,000,000, or more than 40 per cent over the apple area of 1890. The commercial area of 1900 yielded in 1890 somewhat more than 175,000,000 bushels of apples.

By districts, the north Atlantic apple section has 39,500,000 trees; the south Atlantic 25,500,000; the north central, 92,000,000 the south central, 37,000,000, and the Western district, including the Rocky mountain states and the Pacific slope, 13,000,000.

Out of the total number of trees in the country, the north and south central districts possess 23,205,000, or nearly three-fifths. These are divided among the leading states as follows: Missouri, 20,000,000; New York, 15,000,000; Illinois, 13,500,000; Kansas and Pennsylvania, a little less than 12,000,000 each.

Gray Hair

"I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too.

OPENS HOME FOR FRIENDLESS DOGS.

MRS. CHARLES A. WHITE.

A "HOME for friendless dogs has been opened in Chicago under the general tutelage protection of Mrs. Charles A. White, a noted canine lover of the Windy City. It is Mrs. White's belief that large numbers of persons would give a good, faithful canine a home, if such a dog could be supplied to them at small cost. Those having dogs to dispose of, it is believed, will now bring them to the home instead of turning them adrift, or killing them, and the persons who want a dog can have their wants supplied. In this way the home will be a sort of exchange. But in addition the home will be a boarding place for valuable and pedigreed canines, whose owners when traveling cannot take them along. Fancy stalls will be at the disposal of these dogs and medical treatment will always be available. The money paid for the board and care of these doggie aristocrats will go far toward maintaining their poorer and erstwhile "friendless" brethren, and the balance will be made up by private contributions by individuals and dog clubs.

And now that "friendless" canines are to be taken care of it is hoped that someone may have the additional charity to provide for friendless and homeless children. After all, if these dog lovers of Chicago come to think of it, children are not so very inferior to dogs. The Master said, "Suffer little children to come unto me, for of such is the kingdom of heaven." It is not believed that there will be much inquiry about dogs on the last day.

SOUTH-SEA ENGLISH RAJAH.

Disaster to Sarawak Army Recalls Romance of the Kingdom.

The overwhelming disaster that an unchecked spread of cholera has wrought in the army of the Rajah of Sarawak during

RAJAH BROOKE.

his recent expedition against the savage head-hunters, within and in the vicinity of his domains in North Borneo, again draws attention to this wild kingdom of the South Seas, the ruler of which is a highly cultivated English gentleman. The events that led to the establishing of an English monarch in Borneo were novel. In the early part of the nineteenth century, Sir James Brooke, an Englishman with a spirit of adventure, who had figured in many engagements of the Burmese war, set off on a roving tour among the islands of the Indian Archipelago. He visited Borneo and upon arrival there found the population, a mixture of pirates, Chinese and semi-savages, actively engaged in rebellion against the Sultan, Muda Hassim, who was making ineffectual attempts to subdue them. Mr. Brooke lent his assistance, and after a series of terrible conflicts succeeded in crushing the insurrection. For this service he was created a Rajah and presented with a large portion of the kingdom, with Sarawak as the center. Rajah Brooke set vigorously to work reforming the people, and although obliged to contend with much opposition on the part of his subjects, finally accomplished his object to a fair degree.

The present Rajah, Sir Charles Brooke, a nephew of Sir James, joined his uncle about 1867 and, upon the death of the latter, assumed the sovereignty of Sarawak. Sir Charles received a college education in England and is now in his 74th year. His kingdom equals in extent the whole of Scotland and Wales. He has his own flags, his own army, numbering 500 highly-trained men, and recruited from the various tribes of natives under his rule. He also possesses a small but wholly adequate navy. Besides these he has many thousands of irregulars who may be called upon in emergencies, as in the case of the recent unlucky expedition.

Precaution Is Necessary.

Men who go hunting and carry home game which they did not shoot should take warning from the fate of the man whose experience is related by the Philadelphia Press.

"There, my dear," said Mr. Walsingham, standing his gun in the corner and advancing with the easy air which the returned hunter assumes with his womankind, "there's one bird for you, anyway. Bagged him just as I was about to give up in disgust."

"O George," exclaimed Mrs. Walsingham, "how could you be so cruel? It's a dear little carrier pigeon, isn't it?"

"Carrier pigeon? Not much. It's a quail."

"But it has a tag tied to its leg, with some message on it. Let's see. It says, 'Bigelow & Arnold, Poultry and Game, Central Market.'"

Regard for Appearances.

"Haven't you read that lovely new novel?" asked the first summer girl.

"No," replied the other, "the only edition of it I've seen has a horrid yellow cover that doesn't accord with any of my gowns."—Philadelphia Press.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF

DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to ring, and this kept on getting worse, until I was hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement, accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and today, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,

F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.
