

Another Fake Show.
Warren & Day's, Uncle Tom's Cabin Company proved to be, as was expected, the worst fake of the season. Well its all over now and of course nobody went. They don't generally (?) go to fake shows.

Natron Saw Mill.
The quiet people of Natron are to have a saw mill, at least the Guard says so though the Register seems to doubt it. Perhaps the Register didn't get the news soon enough.

High Water Mark.
The number of inmates in the State Asylum reached the high water mark last Saturday when 1262 people were recorded on the inmate's roll.

A Ripple of Excitement.
Wednesday morning about 10 o'clock a section of scaffolding erected by the carpenters in putting the roof on the new sawmill gave way and fell upon the boiler breaking the elbow of the steam pipe. The explosion resulting from the bursting of the pipe was heard all over the city and for a few moments the streets were lively with running people as if a fire alarm had been turned in. For a few moments it was feared that some of the mill crew were either badly hurt or scalded by escaping steam but luckily no one was injured and but little damage was done. One of the boys however to escape the steam and hot water jumped from the mill floor to the ground a distance of 10 or 12 feet, which shook him up somewhat. A new joint of pipe was soon in the place of the old one and only a few hours were lost by the sawing crew on account of the accident. It is very fortunate that no one was hurt as the force of the explosion was so great that only a small piece of the pipe bursted was found and it was some distance from the mill.

What We Need.
A gentleman from Bangor, Maine, writes the LEADER that he is a holder of some Bohemia mining stock and believing the LEADER to be a conservative and reliable paper in the matter of Bohemia Mining news and not a "boom" sheet he asks that we send the paper to his address for a year. He doesn't desire to be stuffed but does want to be posted on reliable mining news. We speak of this because it is of value to mining men. If you have any genuine good mining news the LEADER will do all it can for you. If it's bumcomb we don't want it and what is more we won't publish it. The truth about Bohemia in all its plainness will do the camp more good than column after column of bosh and misrepresentation. Bohemia is all right, it will win a position well to the front of the great mines of the west. And it will do this upon its own merits and all the flaming headlines and fake write ups that are gotten up to boom the camp not only hinders its progress but does an absolute injury to the camp. Mining men know this and they do not invest their money as a rule without as thorough a knowledge of facts as it is possible to obtain. Facts is what we need and facts we want. If you have them you can do the camp good by letting the LEADER know them. Our columns are free to such news but when we know it advertising rates will not induce us to publish anything else.

The springs are among the best health resorts in the State and are said to be superior to any for kidney and liver troubles and diseases of the blood.

A Quick Trip.
L F Wooley made a flying trip to Bohemia Saturday night and Sunday after his parents, Rev C A Wooley and wife. Having received a telephone message that his grandmother was not expected to live he lost no time on the road and made the trip in twenty-one hours which is close to the record for the round trip.

ABOUT PIANOS.
Those who know the least about a piano are generally the ones who have the most to say, and the quality of the piano in their estimation depends mostly on the commission they received from the different dealers. If people would judge pianos a little more by the annual output of the factory, they would judge nearer right. For instance the Chickering piano company puts out 5,000 pianos annually. Steinway & Sons 4,000. Needham Piano Co 2,500 annually a good showing with all the high grade instruments. Jacob Doll 7,500. Schux 3,500, and the Trobridge Piano Co not incorporated puts out 800 annually. The Kimball pianos have more in dorsemments by the leading musicians of the world than any other piano manufactured. The above figures are taken from the piano purchasers guide, published by the music trades Co. N. Y.
