

SUFFERED SEVEN YEARS.

WITH CATARRHAL DERANGEMENTS OF THE PELVIC ORGANS.

HUNDREDS OF DOLLARS SPENT IN VAIN — PERUNA CURED.

Miss Kate Brown, recording secretary of the L. C. B. Association of Kansas, in a letter from 605 N. Seventh St., Kansas City, Kan., says:

"For seven years I have not known what it was to spend a well day. I caught a severe cold, which I neglected. It was at the time of menstruation and inflammation set in and prostrated me. Catarrh of the Kidneys and bladder followed, my digestive organs gave way, in fact the cold disarranged my whole system.

"I spent hundreds of dollars with doctors and medicine, but derived but little benefit until I began treatment with Peruna. I kept taking it for nearly nine months before I was completely cured, but I kept growing better, gradually, so that I felt encouraged to continue taking Peruna until my health was restored. I send my thanks and blessings to you for Peruna."—Miss Kate Brown.

MALARIA An Invisible Enemy to Health

Means bad air, and whether it comes from the low lands and marshes of the country, or the filthy sewers and drain pipes of the cities and towns, its effect upon the human system is the same.

These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and biliousness are frequently due to that invisible foe, Malaria. Noxious gases and unhealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various eruptions of an indolent character appear, depleting the system, and threatening life itself.

The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it thin and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S. S. possesses not only purifying but tonic properties, and the general health improves, and the appetite increases almost from the first dose. There is no Mercury, Potash, Arsenic or other mineral in S. S. S. It is strictly and entirely a vegetable remedy.

Write us about your case, and our physicians will gladly help you by their advice to regain your health. Book on blood and skin diseases sent free.

MONUMENT TO HUMBERT.

Occupying a conspicuous position on Mount Superba, near Turin, there has just been erected in honor of the late King Humbert, of Italy, a monument which is described by those who have seen it as one of the most impressive works of art of its kind that has ever been constructed.

The monument is the work of Signor Pozzi. At the foot of the monument is the figure of a warrior and at the top has been sculptured a wounded eagle. The tall column is of marble and may be seen for a great distance, the place in which the column has been erected commanding a view of many miles.

It is said that Queen Margherita, the widow of King Humbert, is especially pleased with this work, considering it the most striking memorial of her late husband which has yet been erected in Italy.

MISS BAKER'S BEAUTY WAS MRS. MCKINLEY'S IDEAL.

By driving a coach and six from Tuxedo to Sterling Forest and return, thirty-two miles, Miss Estelle Baker, of New York City, has won acclaim among the horse-lovers of the smart set of the East. She is a tall brunette, with a rich, deep contralto voice that has attracted favorable comment at

musicales. She came out only last year. The wife of the late President McKinley greatly admired her beauty, and said of her: "She is a perfect orchid of a girl. She has the rare combination of the grace of an Oriental and the stateliness of the English gentlewoman."

The Cause of Lightning.

Where does the superabundant electric energy of a thunderstorm come from? In the annual report of the United States Weather Bureau, condensation is credited with a large share in its production. When small, feebly charged particles of mist are welded together, as it were, into raindrops, since the potential increases as the square of the mass, a high tension may easily be developed. Ten drops, each charged to one thousand volts, will thus produce one drop charged to one hundred thousand volts. As soon as drops begin to form at the beginning of a storm, the relatively small tension of the atmosphere charges soon becomes enormously multiplied, and disruptive lightning discharges are the result.

World's Biggest Orchard.

The biggest orchard in the world is near Santa Barbara, in California. It covers 1,700 acres, and contains 10,000 olive trees, 3,000 walnuts, 10,000 almonds, and nearly 9,000 other fruit and nut trees.

Lands of Thunderstorms.

Java has thunderstorms on at least ninety-seven days in the year, and in Jamaica there are often such storms on 150 days.

My Lungs

"An attack of la grippe left me with a bad cough. My friends said I had consumption. I then tried Ayer's Cherry Pectoral and it cured me promptly."
A. K. Randles, Nokomis, Ill.

You forgot to buy a bottle of Ayer's Cherry Pectoral when your cold first came on, so you let it run along. Even now, with all your hard coughing, it will not disappoint you. There's a record of sixty years to fall back on.

Three sizes: 25c., enough for an ordinary cold; 50c., just right for bronchitis, hoarseness, hard colds, etc.; \$1., most economical for chronic cases and to keep on hand.

What was the Reading?

Too much reading is given as the cause of the downfall of a New England young man who became a burglar. Until a list of the culprit's favorite authors is published Sir Conan Doyle and Mr. Hornung will be under suspicion.

As He Called It.

"But why," asked the man who always wants to know—"why do you call that little jump you made from a tower into the water a 'leap for life'?" They tell me it is not at all dangerous.

"Well," replied the artist, "don't I make a livin' by it?"

Should Keep Out of the Draft.

Second South American—Yes, I've been predicting one for several days. My rheumatism always bothers me just before such changes.

Undisputed Points.

Attorney for the Defense—You are a blackguard and a bluff, sir!

Attorney for the Prosecution—And you, sir, are a shyster and a rogue!

The Court—Come, gentlemen, let us get down to the disputed points of this case.

Unpleasant for Both.

An Irishman whose face was so plain that his friends used to tell him it was an offense to the landscape happened also to be as poor as he was homely. One day a neighbor met him and asked:

"How are you, Pat?"
"Mighty bad! Sure, 'tis starvation that's starin' me in the face."

"Begorra," exclaimed his neighbor, sympathetically, "it can't be pleasant for either of yez!"

His Friends.

Jinks—I tell you what it is, there is nothing like having lots of friends.

Winks—I presume not.

Jinks—No sirree. As soon as I lose a job my friends go all around hunting a new place for me so as to save me the trouble of borrowing money from them.

Made His Mark.

"Hivens, Molke, th' eye av ye! Phat's the matter?"

"I sthruck a man ye-terday an' he gave me a receipt for it."

His Favorite Remedy.

"Mamma" said Tommy, "does sugar ever cure anybody of anything?"

"Why do you ask, my boy?"

"I thought I'd like to catch it," said Tommy.

Mitchell Wagon.

Best on Earth—

Because it is made of the best material possible to buy. The manufacturers absolutely pay 25 to 35 per cent above the market price of logs grades of wagon timber for the privilege of cutting over and skimming off the cream of the wagon stock, which is carried for 2 to 3 years before making up, which means an investment in wood stock of nearly one million dollars. MITCHELL Wagons are unsurpassed for quality, proportion, finish, strength and light running. Why—take chances on any other? Why—not get the best?—A. MITCHELL. Mitchell, Lewis & Staver Co.
