The chances are two to one that it will cost Oregon just \$500,000 to elect a U S Senator. Great Scott! he comes high.

And now the Governor can't call the Legislature together in session for fear they might elect him (?) Senator.

Oregonian.—"Stand pat this time Governor."

Geer.—"O I'm Pat alright Harvey, but what are you going to do?"

And now Mr Geer says he can't control the session when once convened. Well that is just because he has not been connected with the machine long enough. He should not try to run it until he gets used to it.

Editor Hofer charges Governor Geer with flopping on the extra session question. Well Colonel did you ever hear of a hide bound republican that would not do so if the occasion required. He loomed up like a light house in a fog when the bosses turned him down. He won the favor and esteem of the people then, but the Governor has found out that the people don't elect the U S Senator, the bosses do that. Being a rock ribbed republican he could not help but flop. Don't blame the Governor, Colonel.

As was to be expected the \$500,000 appropriation talk has probably knocked the special session of the legislature in the head. And the people will have to put up another four years with exorbitant salaries and probably a log rolling session in which Senatorial and Fair appropriations schemes will get in a general mix up, and the regular session become another disgrace to the state.

Apologists for the trusts have said that the combinations represent only the economies of organized production.

Morgan's operations give an unmistakable example of something else. In the harvester combination he bought a Milwaukee plant for \$1,500,000 and put it into the trusts at a valuation of \$5,000,000. What is this but water, on which purchasers of farm machinery are asked to provide dividends?

If the other concerns were put in at three times their actual value the Trust is demanding profits on stock which is two thirds water.

Trust apologists cannot persuade farmers that these industrial monopolies are blessings when such facts as these appear, not in stump speeches, but in the columns of sober financial papers.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E W Grove's signature is on each box. 25.

A merchant can get along without advertising and a wagon can get along without grease but it runs hard.

Natural Anxiety.

Mothers regard approaching winter with uneasiness. children take cold so easily. No disease cost more little lives than croup. It's attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquifies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, all throat and lung troubles. F S McHanhon, Hampton, Ga: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal."

Some advertising solicitors make themselves more of a nuisance than a smoking stove to a tired house wife.

A Library dating back before the age of Abraham has been unearthed in Babylonia by Professor Hilprecht and presented by him to the University of Pennsylvania, of whose faculty he is a member. It consists of a large number of clay tablets, in excellent preservation, from the temple of Bel. A partial examination of the tablets leads to the hope that they may throw some new light on the first eleven chapters of Genesis.

It is too true that one part of the world seldom appreciates the sufferings and death with which other portions are afflicted. Japan, Egypt and China have suffered terribly with the plague for a year or more, yet we hardly think of it. The Manila Marine Hospital service gives an estimate of 75,000 cases in the Philippines since March 20th with—terrible to think of—about 60,000 deaths. In Egypt for the week ending September 15th there were 9,367 cases, with 8,278 deaths. Surely a harvest for the grim reaper!

The two pine needle factories at Grants Pass are turning out about 600 pounds of pine needle fibre each, and consume about a ton of pine needles each day. The two factories are the only ones of the kind in America.

I have had occasion to use your Black-Draught Stock and Poultry Medicine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recommend it to all owners of stock.
J. B. BELSHER, St. Louis, Mo.

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cured by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it be possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.

Advertising is a combination of good judgement and enterprise.

His Life in Peril.

"I just seemed to have gone all to pieces," writes Alfred Bee, of Welfare, Tex., "biliousness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, care not anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run-down people. Try them. Only 50c at J P Curran's drug store.
