I Coughed

"I had a most stubborn cough
for many years. It deprived me
of sleep and I grew very thin. I
then tried Ayer's Cherry Pectoral,
and was quickly cured."
R. N. Mann, Fall Mills, Tenn.

Sixty years of cures
and such testimony as the
above have taught us what
Ayer's Cherry Pectoral
will do.

We know it's the great-
est cough remedy ever
made. And you will say
so, too, after you try it.
There's cure in every drop.

Three sizes: 25c, 50c, \$1. All druggists

Consult your doctor. If he says take it,
then do as he says. If he tells you not
to take it, then don't take it. He knows.
Leave it with him. We are willing.

Sleeping Volcanoes

A thin, vapory smoke, lazily ascending
from its crater may be the only visible sign
of life in the sleeping volcano, but within
is a raging sea of fire, molten rock and sul-
phurous gases. Those who make their
homes in the peaceful valleys below know
the danger and, though frequently warned
by the rumblings and quakings, these
signs of impending eruption go unheeded.
They are living in fancied security when the
giant awakes with deafening
roars and they are lost beneath a downpour of
heated rock and scalding ashes.

Thousands of blood poison sufferers are
living upon a sleeping volcano and are taking
desperate chances, for under the Mercury and
Potash treatment the disease disappears, and
the deluded victim is happy in the belief of a
complete cure, but the fires of contagion
have only been smothered in the system, and
as soon as these minerals are left off will blaze
up again.

Occasional sores break out in the
mouth, a red rash appears on the body, and
these warning symptoms, if not
heeded, are soon followed by fearful
eruptions, sores, copper colored
spotches, swollen glands, loss of hair
and other sickening symptoms.

Mercury and Potash not only fail
to cure blood poison, but cause Mer-
curial Rheumatism, necrosis of the
bones, offensive ulcers and inflamma-
tion of the Stomach and Bowels.

The use of S. S. S. is never followed by
any bad results. It cures
without the slightest injury to the system. We
offer \$1,000.00 for proof
that it contains a mineral of any de-
scription. S. S. S. is an antidote for
contagious blood poison, and the only
radical and permanent cure known. It
destroys every atom of the virus and puri-
fies and strengthens the blood and builds
up the general health.

VULGARITY OF THE ULTRA-RICH

Severely Condemned by United States
Senator Henry Cabot Lodge.

"When wealth expends in a single
evening, upon a vulgar, brainless en-
tertainment an amount of money the
income of which would mean affluence
to thousands of families; when it is
used to promote corners in the neces-
saries of life or for desperate gambling
on the stock markets; when it is en-
gaged in an effort to debauch elections
or control Legislatures; when it con-
siders that everything is for sale—
Legislatures and courts, public officers,
the honesty of men and the honor of
women—it is hard to overestimate the
peril which it portends."

In these words does United State
Senator Henry Cabot Lodge inveigh
against the evils of affluence. Were the
words uttered by a demagogue, they
would carry no weight, but coming
from so conservative a source as the
brilliant junior Senator of Massachu-
setts they have attracted considerable
attention and have been widely com-
mented on. Leslie's Weekly is prompt-
ed to say:

"It were well if the warning note
were sounded until it should penetrate
even to the brains of the dullest and
most vapid of the creatures who are
dawdling away their lives in the midst

of luxuries and extravagances pur-
chased with inherited wealth. It is
these living sponges, the shallow,
heartless, aimless men and women in
marble palaces who constitute the
greatest menace to our existing social
order, and whose ways of life are the
deepest reproach that lies against Chris-
tian civilization. Worthy of more re-
spect is a Zulu savage than a rich de-
generate who finds no better use for
his money than the indulgence of his
vices and vanities."

Severe, indeed, are these arraig-
ments of the idle rich who worship at
pleasure's shrine and who contribute
nothing for the good of the commu-
nities in which they live. Their fathers
and grandfathers, mayhap, were pio-
neers of industry, men of genius and
perseverance, who did something for
the good of mankind. But the wealth
which they accumulated and left be-
hind has passed into the hands of ig-
norant and unworthy scions, spend-
thrifts and, in some cases, moral mon-
sters. The lives of how many of these
gilded young men and women are filled
with shameful debauchery which it
takes something like the Mollineux case
to bring to light.

The Senator who has poken in such
plain and undiplomatic language con-
cerning the ultra-rich is one of the
foremost scholars of America, a man of
polish and the intimate friend of Pres-
ident Roosevelt. He lives at Nahant,
is a lawyer by profession, but prefers
to follow literary pursuits for a liv-
elihood. He was a member of the House
of Representatives for four terms before
becoming a Senator.

Invincible Kansas.

We don't hear any more about the
devastation of Kansas by grasshop-
pers. The insects still flourish out
there, but are no longer regarded as
pests. They are actually encouraged
to multiply. The farmers have dis-
covered that turkeys will thrive and grow
fat on a diet of grasshoppers. To-day
thousands of turkeys are owned in the
western part of Kansas. The fowls
live almost exclusively on a diet of
grasshoppers, and each bird is said to
be able to consume between a pint and
a quart of the insects every day.—

New Steering Device.

A British engineer's new device for
steering twin-screw steamships con-
sists of a special throttle valve at-
tached to each set of engines, the
valves being connected to a tiller by
bell cranks and link work. When the
tiller is moved either way from its
central position one throttle valve re-
duces the steam of its set of engines,
diminishing the speed of its screw to
a degree varying with that of the turn-
ing of the tiller.

SISTERS OF CHARITY

Use Pe-ru-na for Coughs, Colds, Grip and Ca-
tarrh—A Congressman's Letter.

In every country of the civilized
world Sisters of Charity are known.
Not only do they minister to the spir-
itual and intellectual needs of the
charges committed to their care, but
they also minister to their bodily
needs.

With so many children to take care
of and to protect from climate and dis-
ease, these wise and prudent Sisters
have found Peruna a never failing
safeguard.

Dr. Hartman receives many letters
from Catholic Sisters from all over the
United States. A recommend recently
received from a Catholic institution in
Detroit, Mich., reads as follows:

Dr. S. B. Hartman, Columbus, Ohio:
Dear Sir:—The young girl who used
the Peruna was suffering from laryngi-
tis, and loss of voice. The result of
the treatment was most satisfactory.
She found great relief, and after
further use of the medicine we hope
to be able to say she is entirely cured."
—Sisters of Charity.

The young girl was under the care of
the Sister of Charity and used Peruna
for catarrh of the throat with good re-
sults, as the above letter testifies.

The following letter is from Con-
gressman Meekison, of Napoleon, Ohio:
The Peruna Medicine Co., Columbus,
Ohio:

Gentlemen: "I
have used several
bottles of Peruna
and feel greatly
benefitted thereby
from my catarrh
of the head, and feel
encouraged to be-
lieve that its con-
tinued use will ful-
ly eradicate a disease of thirty years'
standing."—David Meekison.

Dr. Hartman, one of the best known
physicians and surgeons in the United
States, was the first man to formulate
Peruna. It was through his genius
and perseverance that it was intro-
duced to the medical profession of this
country.

If you do not derive prompt and sat-
isfactory results from the use of Peru-
na, write at once to Dr. Hartman, giv-
ing a full statement of your case, and
he will be pleased to give you his val-
uable advice gratis.

The Kind of Seeds That Yield.

Like everything else, there are good
seeds and bad seeds. Seeds that grow
and seeds that don't grow; seeds that
yield and seeds that don't yield, and
a little thought given now to the se-
lection of the seed you'll need, will be
found time well spent, though realized
much better at the harvest if you select
the world-famed Ferry's Seeds—the
kind that always yield. For nearly
half a century Ferry's Seeds have been
known and sown wherever good crops
are grown, until farmer and gardener
alike have learned to depend upon their
wonderful reliable growing and yield-
ing qualities, year after year, to the
exclusion of all others.

Unfortunately the seed business
seems to afford a means for many un-
scrupulous people, who aim to blind
the unwary to quality, through little-
ness of price and boastful claims; who
in reality have nothing to substantiate
their claims, no reputation at stake,
no past record as proof. It is better to
pay a little more for the seed and be
assured of a great deal more at the
harvest by sowing Ferry's Seeds. The
1903 Seed Annual, which is sent free,
postpaid, will be found unusually in-
teresting and instructive. Write for it
today. Address D. M. Ferry & Co.,
Detroit, Mich.
