A Fine Showing.
A report from reliable sources has come from the LeRoy mines at Eobenda that one of the finest bodies of rich galena ore has been uncovered in the lower level of that mine ever discovered in Bohemia. It is said that nothing like it has ever been uncovered in Bohemia. This will be good news to the stockholders in the LeRoy Company. For they have been to a heavy expense in the development of this property and have had unbounded faith in its value. And the new discovery will still further encourage the owners to renewed exertions. The LeRoy property is today one of the most promising mines in Oregon and every one is glad to hear of its success.

Good Year for Weddings.
