ARE
YOU
DEAF?

ANY
HEAD
NOISES?

ALL CASES OF
DEAFNESS OR HARD HEARING
ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.
About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.
I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain
Very truly yours,
F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.
Examination and advice free. **YOU CAN CURE YOURSELF AT HOME** at a nominal cost.

THOMAS NAST, THE FATHER OF AMERICAN CARICATURE.

Yellow fever claimed Thomas Nast, the famous cartoonist, who died at Guayaquil, in Ecuador, whither he had gone as United States consul last summer. Before going he made a prophetic cartoon in which he pictured himself as being greeted upon his arrival in South America by "Yellow Jack," with a volcano in eruption, alligators and a boa constrictor as accompaniments. He was ill but three days when death claimed him Sunday.

Nast was the father of American caricature. He was born in Landau, Germany, in 1840, and was 6 years old when his parents brought him to this country. At 14 he began drawing for illustrated papers. He was with Garibaldi in his Italian campaign and during our Civil War was at the front, making pictures which brought him prominently before the public. Later he made himself famous and contributed to Tweed's downfall by his celebrated cartoons. It was often said that Nast's pictures were the only things which Tweed feared. Once the old politician cried:

"Can't you stop those pictures? I don't care what they write about me, but those infernal pictures hurt."
Nast's life was threatened, but he

THOMAS B. NAST.

worked on and was rewarded by seeing Tweed's overthrow. In many political campaigns he made his work felt. He created the elephant as symbolical of the Republican party. He made the dollar mark on William M. Tweed's face famous. The blazing diamond pin, representing vulgar, showy wealth, was his creation. He made the United States Army a skeleton, invented the canvas bag in the Blaine campaign, originated the fire-eating Southerner, made John Kelly a wild (Tammany) Indian, drew Tilden as a sphinx and a mummy, labeled the Tilden campaign the "barrel campaign," and represented capital and labor as the Siamese twins.

At one time Mr. Nast was a member of the Seventh Regiment of New York. For about a quarter of a century his home had been at Morristown, N. J.

PROPELLER FOR SMALL BOATS.

It is but natural that the owner of a rowboat should at times desire a motor launch, especially when on a long-distance pull on a warm day; and yet the expense of a new boat, with engine and machinery, places it beyond the reach of the majority of rowboat owners. In our illustration we show an apparatus which may answer the purpose fully as well as a new boat, and at far less cost. It is nothing less than a gasoline motor, so arranged that it can be secured to the rear end of a

MOTOR ATTACHED TO STERN.

small boat, with the fuel and electric batteries stored in a casing which answers as a seat for the person controlling the motor and steering the boat. The motor casing is cut away in the picture to show the method of mounting the propeller shaft and connecting the motor. Of course, this boat is not intended to compete with the high-speed and higher-priced craft which the modern boat-builder is now able to produce, but it will afford no small amount of pleasure to its owner on a leisurely cruise or fishing trip about the rivers and lakes of the country. To place the mechanism in position on a boat it is only necessary to store away the batteries and gasoline reservoir beneath the seat and suspend the motor casing over the stern by the hooks and clamps provided for the purpose. The inventor is Irwin R. Miller, of St. Paul, Minn.

THE BLOOD.

The blood is life. We derive from the blood life, power, beauty, and reason, as the doctors have been saying from time immemorial. A healthy body, a fresh appearance, and generally all the abilities we possess depend on that source of life. It is therefore the duty of every sensible man to keep the blood as pure and normal as possible. Nature, in its infinite wisdom, has given us a thermometer indicating the state of the blood, which appeals to our reason by giving notice of its impurity. Small eruptions of the skin, to which we scarcely pay any attention, headache, ringing noises in the ears, lassitude, sleeplessness, are generally a sign that the blood is not in its normal state, but is filled with noxious substances. These symptoms deserve our full attention. If more attention were paid to those symptoms, and steps taken to remove them, then many illnesses from which we suffer would become unknown, and the human body would become stronger and healthier. Attention therefore should be paid to those warning signs, and the blood can be purified and poisonous substances removed from it by the use of Dr. August Koenig's Hamburg Drops, discovered more than 60 years ago.

How Awkward of Them.

A small girl of three suddenly burst out crying at the dinner table one day. "Why, Ethel, what is the matter?" asked her mother. "Oh," cried Ethel, "my teeth stepped on my tongue."—Little Chronicle.

"Oh, Alfred! Isn't it too bad! Just as we had everything so nicely arranged for our elopement, father has gone and sanctioned the match."

Mocha and Java.

Not very much pure Mocha and Java coffee is brought to this coast. In fact we don't believe there is another brand in the market, besides Monopole, which is all pure Mocha and Java. But we know Monopole. As a matter of fact not every lady likes pure Mocha and Java, but if you do and are willing, like your Eastern friends, to pay a little extra for the pure unadulterated article, you'll find it in Monopole. Your dealer handles it or knows where to get it for you. Wadhams & Kerr Bros., coffee roasters, Portland, Oregon.

Growth of Electrical Work.

In 20 years, the number of establishments in the United States making electrical machinery and supplies has increased from 26 to 580. The annual output has increased from \$2,600,000 to \$91,300,000. The capital invested in the business is \$83,000,000.—Success.
