Why is it Mr. J. M. Medley moves about with such a dignified air in the past few weeks? Can it be the arrival of that new grandson has anything to do with it?

The United States produced the largest crop of apples and potatoes this year that have ever been recorded. That is a good sign of prosperity. Apple dumplings and baked potatoes are in the list of luxuries, and if they become universal all will be happy.

Cottage Grove seems to have taken quite a boom in the last three months as every lot in the Dave McFarland addition has been sold, and buildings are going up on nearly every piece that has been sold. How is that for Cottage Grove? When there so little building being done in any of the towns along the railroad at present, that Lemati have advantages that the other towns do not enjoy. This being the gateway to the rich Bohemia mines and surrounded by agricultural and lumber districts, gives us many advantages which will bear along on top of the wave of prosperity to future greatness.

We hear that another addition is soon to be surveyed and placed on the market.

QUITE A STORY.—A correspondent from Alsea writes as follows: Miss Mamie Oglesby, a successful young school marm, while spending her vacation at her home on Fall Creek, had quite an adventure with a deer a few days ago. A hound chased a spike buck into the creek near the Oglesby home. Her father being absent, Miss Mamie and her little sister Grace went forth to attack the buck bare handed. She seized him by the horn with one hand and by the nose with the other and held him until Grace could bring a rope with which she tied him to a tree until her father came and killed him. What chance has an unruly urchin with such a school mistress as this?

Deafness Cannot be Cured by local application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

EUGENE.

The entertainment given at the Baptist church Thursday night by Miss Catherine Cogswell and Lillian Maude Miller was fairly well attended, and the excellent program provided was well carried out and listened to with marked attention by an appreciative audience. Miss Cogswell is the possessor of a remarkably fine voice, highly cultivated and under perfect control. She will some day make her mark in the world, in tragic roles, if she adopts the stage as a profession. She appeared as Ophelia in the mad scene and as Portia in the famous court scene with pleasing effect. Mrs. Miller also received several difficult selections of the sweet order in a very acceptable manner, and little Mary Miller captured the hearts of the audience by her imitable recitations. The entertainment closed with the laughable sketch entitled "The New Woman," written by Mrs. Miller, in which were introduced several local characters, principally old bachelors.—Roseburg Plaindealer.

Parks' Tea is a great blood purifier and cleanser. A pleasant herb drink which moves the bowels without pain, griping or discomfort. Sold by J. A. Benson.

How Does This Strike You?

For a long time we have been very lenient toward persons owing us for the Echo-Leader. We have been hard pressed for money because many have not paid up. With the country full of good crops of everything, we now kindly ask every man owing us one dollar or less, for payment. Remember that the Echo-Leader is doing a great work for the development of the great resources of South Lane county. If those interested in this section desire the good work to go on, they must increase their patronage, pay up old scores and pay promptly an increased patronage.

Let's at once, never fails. One Minute Cough Cure. A remedy for asthma, and that feverish condition which accompanies a severe cold. The only harmless remedy that produces immediate results. J. P. Currin.

SEVERELY HURT.—E. P. Jennings, a mining expert of this city, while on his way Saturday, to Bohemia was thrown from his horse and badly hurt. It hurt his head quite severely and bruised him up considerably otherwise. He was brought to his home in Lemati Tuesday, by Mr. W. Hemenway, who informed us he had to drive very slowly it taking one day and a half to come 18 miles. Mr. Jennings is now rapidly recovering under the skillful treatment of Dr. Geo. Wall.

It is a truth that the smallest dose that performs a cure is the best. Dewitt's Little Early Risers are the smallest pills, will perform a cure, and are the best. J. P. Currin.

ONE MORE HURT.—Tuesday morning a brake-beam tourist slipped off the rods of the south bound overland train at Comstock, shortly after three o'clock, and received a dislocated shoulder. He was brought to town the same morning by Jas. Hawley and placed in care of Dr. Snapp, who set the shoulder of the unfortunate young man, and paid for his bed and breakfast at the hotel. Next day the gentleman proceeded on his journey. He claims to be about 17 years of age, and that he has a sister in Montana.

ATTENTION TEAS.

Pitt Hartwell in her last syndicate article says: "I don't recommend any special brand of tea for afternoon or evening. I do, however, know all about the best tea to take at night."

Chas. "Tea" will certainly clear your complexion and purify your blood. You will be surprised at the improvement if you take a cup of Parks' Tea each night." For sale by J. A. Benson.

FROM POVERTY TO AFFLUENCE.—An exchange, in speaking of Stratton, of whom Hamilton Smith tried to purchase some mining property in Colorado, says:

"Stratton was an ordinary carpenter who happened to stake off a piece of ground that was covered with a heavy deposit of the gold bearing sediment and the result is he has an income that is variously estimated at \$100,000 to \$120,000 a month. He is making money so fast he does not know what to do with it. He has filled all the banks of Cripple Creek and now he is loading up Chicago banks. He employs only 12 men, since all that is necessary is to shovel the dirt into a railroad car. He does not put on a larger force of men because he does not care to take gold out any faster. Stratton is a curiosity. He has not yet developed any particular tendency for spending his money. He seems to be embarrassed. There is no reliable prediction to be made as to how he will develop under pressure of such boundless wealth."

Mr. J. K. Fowler, secretary and treasurer of the Corinne Mill, Canal and Stock Co., of Corinne, Utah, in speaking of Chamberlain's Cough Remedy says: "I consider it the best in the market. I have used many kinds but find Chamberlain's the most prompt and effective in giving relief, and now keep no other in my home. When troubled with a cough or cold give this remedy a trial and we assure you that you will be more than pleased with the result. For sale by J. A. Benson, Cottage Grove; Joe Lyons, Drain, Druggists."

Sure Thing.

"What is the name of that new thing on your head?" asked Mr. Oldhusband, as his wife pranced before him with a new hat on.

"This, dearest, is named the 'Defender,' answered Mrs. Oldhusband, sweetly; "and it has its jibbotaills up, its balloon sails set, and is all ready to run in the teeth of any gale ever experienced."

"H'm! Perhaps, since you're so glib in the use of nautical phrases, you can tell me where I come in," pursued Mr. O.

"Well," said his wife, "when the bill comes in you'll be a wreck!"

As Good as a "swell's."

Boatman—Now, mister, I can't let you hev me boat just now. There's a heavy swell jest comin' up.

"Arry—Swell be blowed! Ain't my money as good as his'n?"

Josephine County's Copper Mine.

People here doubted the success of the Josephine county copper mines but they now realize that the promoters were in earnest. On the steamer Crescent City of last Friday there arrived a 30 horse-power boiler, engine and other material for the mines, which was hauled to Waldo and then to the mines. Other machinery will follow from Portland, Or., and be shipped through here. The company has incorporated in the sum of \$900,000 which will enable considerable work to be done.—Crescent City News.

"While down in the southwestern part of the state some time ago," says Mr. W. Chalmers, editor of the Chico (Cal.) Enterprise. "I had an attack of dysentery. Having heard of Chamberlain's Colic, Cholera and Diarrhoea Remedy I bought a bottle. A couple of doses of it completely cured me. Now I am a champion of that remedy for all stomach and bowel complaints." For sale by J. A. Benson, Cottage Grove; Joe Lyons, Drain, Druggists.

RANGES DRIED UP.—Pendleton East Oregonian: Robert Adams came in Tuesday evening from his sheep camps in the Blue mountains south of Pendleton. Mr. Adams brings a doleful tale of drought exceeding that of any season within his memory. He has been in this country for 17 years and remembers no time previous to the present, when there was such a scarcity of grass on the ranges outside the mountain districts. There is no grass and can be none unless rain comes soon. Sheep are doing well in the mountains though even there the dryness compels a sheep tender to drive his band from place to place seeking feed.

A. G. Bartley of Magic, Pa., writes: "I feel a duty to inform you and the public that Dewitt's Witch Hazel Salve cured me of a very bad case of eczema. It also cured my boy of a running sore on the leg. J. P. Currin."

On last Wednesday, Oct. 16, the wife of W. C. Latham of Elk Head, in the district of the quick silver mines, presented her husband with a pair of handsome twin girls. All are reported as doing finely except Mr. Latham, who appears to be in a somewhat excited condition. Of course congratulations are in order, however some will persist in offering condolence instead. May such calam
