mess, the sturdy freeoters of Scoula or the copper hued enizens of the American plains. The Texans of course resented to the ntmost this conduct of the redskins, and many a brave paid the death penalty for trying to get away with horses or cows that did not belong to him.

"Many a poor settler, too, in trying to save his little homestead, fell a victim to the barbarous foe. Some unusually cruel raids, in which a number of white women and little children were butchered, about the year 1859, in Williamson county, not far from the state capital, caused the resentment of the people to rise to a boiling pitch, and vengeance was sworn against the whole tribe of marauding red demons. The affair was so ruthless in its atrocity that it came very near being the cause of a whole sale slaughter of the Indians, which

could have scarcely been justified. "The proposition came from one of the noted frontiersmen and Indian fighters of that day, who has long since crossed over the river, General Henderson. The old man advanced it coolly and could with difficulty be persuaded to abandon it. It was to invite, under the guise of pretended friendship and reconciliation, all the Comanches that could be assembled in a great scope of surrounding country to a big barbecue, where there was to be eating and drinking galore and a general smoking of the pipe of peace. It was to be a grand feast, especially in the roast beef part of the menu, said beef to be artistically dressed with poison enough to kill every son of a gun of an Indian that partook of it. Well, they wouldn't let the old general carry out his scheme, and he got very hot over it and to the day of his death cursed the sentimental fools that interfered with his plans for reducing the Comanche census.

THE BUSINESS MAN'S LUNCH.

## Har, work and Indigestion go Hand in Hand.

Concentrated thought, continued in, robs the stomach of necessary blood, and this is also true of hard physical labor.

also true of hard physical labor. When a five horse-pewer engine is made to do ten horse-power work something is going to break. Very often the hard-worked man coming from the field or the office will "bolt" his food in a few min-utes which will take hours to digest. Then too, many foods are about as useful in the stomach as a keg of nails would be in a fire under a boiler. The ill-used stomach refuses to do its work without the proper stimulus which it gets from the blood and nerves. The nerves are weak and "ready nerves. The nerves are weak and "ready to break," because they do not get the nourishment they require from the blood, finally the ill-used brain is morbidly wide awake when the overworked man at-tempts to find rest in bed. The application of common sense in the treatment of the stomach and the whole

system brings to the busy man the full en-joyment of life and healthy digestion when he takes Dr. Pierce's Fleasant Pellets to relieve a billious stomach or after a too hearty meal, and Dr. Pierce's Golden Medical Discovery to purify, enrich and vitalize the blood. The "Pellets" are tiny sugar-coated pills made of highly concensugar-coated pills made of highly concen-trated vegetable ingredients which relieve the stomach of all offending matters easily and thoroughly. They need only be taken for a short time to cure the biliousness, constipation and slothfulness, or torpor, of the liver; then the "Medical Discovery" should be taken in teaspoonful doses to in-crease the blood and enrich it. It has a combine affect upon the living membrane The Royal Leads All. Royal Leads All. Royal Leads All. The Royal Baking Powder is the pur-strengthening them for all time. ## Good Deed of a College Senior Class.

The senior class of the Bowdoin college at a class meeting held Monday afternoon did a very philanthropic act. Mr. Hinkley, in an address to the students Sunday, urged the outgoing classes to were footsteps behind him. His repressed raise a fund for the purpose of aiding fears controlled his tongue, upon which some poor but ambitious boy to get a cola proposal of marriage hung suspended, although Mary pressed closer to his side legiate education. The class of 1893, acting upon his suggestion, have voted to of the rope were found to be deliberately raise the sum of \$150 annually for four cut in two places, and it was stated that years for this purpose.
