Representative Hofer of Marion county has introduced a bill for an act to license public corporations doing business in this state, and to prohibit the same from employing other than American citizens. We believe in Americans having the preference in all things. America for Americans.
The Echo-Leader has its own ideas of the causes which lead up to financial panic, but it believes that business men and the people as a rule realize that nothing is to be gained in a continued political wrangle over the matter, and the most practical way of aiding business to get better is to stop complaining or whining and go on with business without excuses or complaint.

We do not hear so much about hard times as we did, so we conclude times are getting better.
A lot of supplies for Nebraska have been brought into Walker, next station north of Cottage Grove, for Nebraska.
Mr. Frank Veatch who lives above Latham, drove sixty hogs to this city Wednesday, to be shipped to Portland. He said they would weigh from 300 to 330 pounds dressed. Marion Veatch went with them.
We learn that a large amount of potatoes, dried fruit and other substantial supplies for Nebraska has been brought into Creswell by the generous citizens surrounding that town.
Headache is the direct result of indigestion and stomach disorders. Remedy these by using De Witt's Early Risers, and your headache disappears. The Favorite little pills everywhere. For sale by J. P. Curran.
The Western Nebraska farmers are starving and freezing by the hundreds. The summer drought killed all their crops; and many now have scurvy, as a result of poor and insufficient food.
The net receipts of the San Francisco Examiner, published by the ladies of that city on Christmas were \$12,120.28, which amount was turned over to the Children's Hospital Home for incurable, which goes to show how the people patronize the newspapers in big cities.
The committees appointed to solicit supplies for the suffering people of Nebraska, met in this city Wednesday. Mr. John Tait appointed to superintend the gathering up of supplies, met the committees, who reported quite a liberal response. A vote of thanks was given Ella Jones for her phenomenal success in obtaining the most generous donations. Mr. Tait and others told us that if all those on the committees had met with her complete success in the good work, there would have been two cars of supplies to ship from this locality. A shipment is expected to be made February 7. We are pleased to announce the generous response of the citizens in this section. No one is wealthy but when it comes to dividing with suffering humanity—their hearts expand like unto the mountains of Bohemia.
A stock company has been organized in West Cottage Grove to put in water works there. The company comprises some of the leading citizens as follows: H. Orchard, D. G. McFarland President, J. P. Curran Sec., G. W. Gowdy Treasurer. Mr. Orchard expects to commence work February 6. The water will be pure mountain spring water brought from J. H. McFarland's land, where the fall will be about 225 feet to its destination. The Echo-Leader is pleased to see this evidence of enterprise and push in the right direction. It is a valuable improvement beneficial to health and the advancement of property values.
It is very evident to close observers that the prosperity and growth of this section is very closely connected with the prosperity and development of the fruit interest. The comparative and actual exemption from the hard times and stringency, which has been felt in sections of Oregon, during the past few years attributable to the wealth production of the fruit interests, in addition to the other products of general farming. This is an indication of the increased prosperity to this section which will, if proper attention is paid to fruit culture, follow a return of better times. Business men should sufficiently appreciate their own interests in this connection to give encouragement to the development of the industry.
There is a common delusion that a town can only be prosperous by the aid of manufacturing industries and that trading does not materially aid to the general wealth. The development of good mining in Bohemia the past three years, has been the means of bringing thousands of dollars into circulation here. The successful development of the Bohemia gold mines will stimulate diversified farming to a large extent here. These mines will annually increase the amount of money to be distributed in this part of the country, and this will furnish a cash market for all kinds of produce, encourage the development of producing land, which must ultimately add to the wealth and comforts of the community.

In the senate Tuesday the first scheme yet proposed for the employment of Oregon's convicts made its appearance in the form of Senator Denny's bill proposing to employ the state prisoners in the growing of sugar beets and their manufacture into sugar. The bill proposes the entering of the state into a contract with the Oregon Sugar Beet Company for such employment for a period of ten years of the state's prisoners.

ANNOUNCEMENT.
There is to be given at Davis' hall on the night of February 14, 1895, a grand ball under the auspices of the East Cottage Grove Hose Company, No. 1, for the purpose of raising funds to assist in procuring uniforms for its members. The music for this ball will consist of four pieces (violin, piano, cornet and double bass) performed by capable musicians. The floor will be managed by H. H. Petrie and W. F. Hemenway. The committee on introduction will consist of W. P. Lockwood and Warren McFarland. Committee on reception, Erwin Lea and D. H. Hemenway. Door keeper, U. S. Walker. Excellent music and a good time guaranteed and everybody invited. Tickets, including supper, one dollar. Spectators, twenty-five cents.
There will also be given in connection with the ball, a supper given under the management of the hose company, to be served in the Thompson's hall in East Cottage Grove, the proceeds of which are to go into the same fund. Supper will be served to those who wish to contribute, at any time after six o'clock p. m., and until 12 o'clock, any one who wishes to contribute in this way, will be served a good meal by attentive and obliging waiters for the sum of twenty-five cents.
Now, in connection with the above announcement, I wish to call the attention of the citizens of this city to this fact—that there has been organized a hose-team consisting of twenty members, and as is stated above, we are making an effort to get uniforms so that we may appear in proper style when we wish to do so. We are a volunteer company, and have signed or subscribed to very strict laws, or rulings which bind us strictly to our duty as firemen and, which we must obey or suffer the imposition of a fine—or more, we are paid no salary and we must act, and promptly too, whenever there is a call for our services. At any hour of the night or day, no matter how important is the business which occupies our time, we must drop it and go to the duty and dangerous work that falls to the lot of a fireman. It matters not whether we are dressed in our best, or our working clothes, sleep or awake, or enjoying the company of our best girl, or making a trade that would result in money in our pockets. Whenever there is a call for our services we must go, and are not allowed even time to make a change in our clothing; we must go as we are, at the time duty calls us, and no delay, to a work which is not only disagreeable but dangerous to health and life, to say nothing of the spoiling of wearing apparel &c. And, do our utmost to save life and property from loss by fire. We are sworn to do all this to the best of our ability by the laws of our department. And, for this, we ask no compensation—we have volunteered our services to the city which will undoubtedly show us due appreciation and take pride in assisting us in our effort to raise the necessary money with which to buy uniforms, so that when we wish to practice or appear on parade we will present a noticeable and respectful appearance which becomes the pride and thriving city of ours. It is the duty of every citizen who has property at stake to take a lively interest and pride in the fire department of this city, and I believe you will all assist with alacrity and open purse, without further urging. Nevertheless, you will all have an opportunity to soon. Those who wish to trip the light fantastic toe will be assured a delightful dance and good supper for the small sum of one dollar. Those who do not wish to participate in the dance can come in and enjoy the music and look on the dance, by paying the special fee of twenty-five cents. And those whose principles are in opposition to dancing or attending dances, can at least spend a quarter of a dollar and get a good supper in return. All can contribute in one way or the other, and all contributions will be thankfully received.
Very respectfully,
H. H. PETRIE,
On Committee of arrangements.
We wish to state to our patrons that One Minute Cough Cure is a safe and reliable remedy for children troubled with croup, colds, hoarseness and lung troubles. It is pleasant to take and quickly cures. For sale by J. P. Curran.

R. Wells, a citizen of Milton, Oregon, has been visiting his old home, Floris Iowa, and writes back to the Milton Eagle as follows:
"The weather has been as fine as one could wish for until last Friday, when there was a blizzard and the mercury went down in 24 hours about 75 degrees, and it has been pretty cold ever since and is snowing this evening. I do hope that I may never experience another such a storm.
"The people in this country don't appear to complain of the hard times, for almost every family is selling milk to the creamery. The price of milk is 60 to 75 cents per hundred pounds. The farmers all have a few hogs to sell and a few head of cattle. The farmers all wish for cheap wheat to feed to hogs and cattle, for they don't mind feeding 45-cent corn to hogs that are selling for four cents per pound gross. I think I can see the remedy for Oregon. It must be more hogs and beef and less selling of cheap wheat.
I shall remain in California about two months and will then start for home, stopping at Cottage Grove on my way, and will reach Milton some time in April."
