WOMAN AND HOME.

THE IMPORTANCE OF PROPERLY TRAINING CHILDREN.

A Tactful Empress-British Complications of Rank-The "Betweenities"-Susan B. Anthony and Her Silks and Laces.

The Power of Aprons. "Oh, dear, I am completely discouraged about that child! He really is getting quite beyond my control," said a nervous and foolish mother of a 3-year-old boy. And it was not at all difficult from the way in which she said it and the expression on her face to conclude that she rather thought the speech an extremely bright one and the situation a sort of serio comic bit of domestic byplay. To be sure, the child paid no attention to what she aid and followed his own sweet will, kickng and screaming whenever he wanted anything that was denied him and mak-ing the neighborhood hideous until, by

hook or crook, he got it.

There is not the least bit of smartness in a speech of that kind. It simply shows a conspicuous lack of capacity on the part of the parent who makes it. A child under the age of 15 years who refuses to obey the ommands of its parents is in need of most wholesome discipline, and it might be said in the same connection that the parents are quite as badly in need of training as the child. People who bring up their children in this way have a very grave responsibility at their doors.

The children under 15 years of age who cannot be made to mind belong to the class from which paupers and criminals are recruited. One of the most necessary parts of education is to learn to recognize fixed laws. Failing to do this in infancy, the child continues to grow more and more intractable and less likely to yield to dis-cipline of any sort. Such children develop very restive natures, never satisfied with what they have and continually straining after the unattainable. With no habits of industry they lay no foundation for material prosperity, and as a consequence are more than likely to come to want. They have nothing and are in want of everything. Therefore those who possess the good things of life are to them objects of hatred and envy and all uncharitableness.
From the time a child begins to notice objects of any sort whatever a decided course of education should begin. First of all things, it should learn to respect auall things, it should learn to respect au-thority and obey orders promptly. To per reading is a great waste of time and a teach this lesson there is not the least ne-great detriment to the mind, making a teach this lesson there is not the least necessity to indulge in any cruelty of any sort whatever. The properly trained child never knows that there is such a thing as

It is held as a fact by many persons that if the training of children were begun in The poet's description of some of the eason such a thing as punish brings to the morgue is likewise diverting would be entirely unnecessary, and all of the scenes and struggles now so common in families might be avoided. To do this, who come there to meet idlers of the op-posite sex who visit the ghastly place to kill time. Another character almost too however, requires a great deal of firmness and a steadfastness of purpose rarely found, especially in young mothers.

It is so nice to let the little one do all who enters during the neonday hour sorts of cute and smart things, and it seems so dreadful to hurt it by any punslabs while munching his bread and ishment. Misdirected affection is responishment. Misafrected affection is responsible for nine-tenths of the bad children in this world. It is, to be sure, very pretty to watch the pranks and mischief of a baby, and it is a source of endless amusement to note the development of its intelligence in various ways; but, like a great many other things in this life, the consequences are only likely to be disastrous. lads is founded on fact and relates how from some sweet peas found in a drowned which one may still see in a window of quences are quite likely to be disastrous. a great many other of the good gifts of this world, is not a bad teacher. Certainly has sat breathless with admiration. esses should lay stress on such a matter among themselves.—London Letter. The "Betweenities."

One of the leading clubs for women in London is the Pioneer, the members of which are supposed to take an active interest in any of the "woman" movement.

In the day that isn't marked off into fixed hours of work. It was once upon a time advised a girl who did not suppose she had any superfluous hours at her disposal that she should try to secure a few moments, at any rate, each day for solid reading. She was not deeply intellectual, but she happened to be fond of Macauley's sonorous sentences, and she had his "complete works" on her bookshelves, into which she had searcely looked as yet. So she took in the day that isn't marked off into fixed one volume down to the basement dining room and left it on the shelf there, at hand when she should have a few moments of leisure in waiting for the family to assemble for the meals, which it was her place to prepare. They were not more dilatory than many people, but it was sur-

Susan B. Anthony's Silks and Laces. If Susan B. Anthony has a weakness, it s black silk with point lace. The memory of this generation runs not as far back as the time when this famous lady took to wearing these costly, elegant textures. Although a very busy woman, she is quiet and restful. Her clothes never wear out, and as she scorns to follow the fashion her dresses and ruffles and lace capes and scarfs last forever. None of her gowns is trimmed, the expense for that item being put in the material. As a result, some of the straight, round skirts are made of satin and silk thick enough and stiff enough to stand alone. She wears nothing but black. When she wishes to change the character of her toilet, she changes the lace at her wrists and throat and the little shawl that drapes her shoulders. Miss Anthony reads no newspapers but the marked copies sent her by friends. She alleges that newspasieve of the memory and perverting the lit erary taste. She depends on gossip for the news and upon her friends for the advancement of thought. She is in the eventide of life, and her time is passed in the company of books and friends about which and to whom she writes a great many letters. -New York World.

"Out damned spot," was what troubled That Tired Feeling Mrs. Macbeth; but it was something intangible that she saw. In the active season of spring and summer sports—there are spots that are not visionary, but which bring with them pa'n and greet discomfort. Bruises, black and blue, are the accompaniments of every active sport. They often cripple and are always a sore trouble. Come from what source they may, the thing to do on the spot is to use St. Jacobs Oil freely and promptly. There is nothing a surer and it wipes out the pain as we would wipe off a slate. In like manner sudden attacks of rheumatism, to which people are liable at this season, can be promptly cured by applying St. Jacobs O.1 to the pain spot.

It is remarkable how many people there are who have That Tired Feeling and seem to think it is of no importance or that nothing need be done for it. They would not be so careless if they realized how really serious the malady is. But they think or say "It will go off after a while."

We do not mean the legitimate weariness which all experience after a hard day's work, but that all-gone, worn-out feeling which is especially down—no strength or appetite. I began to tangible that she saw. In the active sea-

they have no room to keep it and cannot sell it. Near Liria, in Valencia, a vineyard proprietor put out on the highroad a little cart, with a barrel of wine on the top of it, bearing the inscription, "Wan-
