

Cottage Grove Echo-Leader.

PUBLISHED EVERY SATURDAY.
E. P. THORP, - - EDITOR.
SATURDAY, MAY 18, - - 1895.

Nearly one thousand people were in evidence at the closing session of the convention on Sunday night—Statesman.

The gift for music seems to be inherited in an Endeavor. They all sing and sing well. The convention music was good first and last—Statesman.

Of the 504 delegates present in convention, 423 appear in the Statesman's roster, the balance having failed to put themselves on record officially in the convention register.—Statesman.

The Newburg Graphic states that breeders of Shorthorn cattle in the Willamette valley say that they have had more calls for breeding purposes in the past few months than for three years before. This is a most encouraging symptom.

Rural Northwest: As a general rule the most successful farmers in Oregon raise a good many potatoes every year. They do not expect to be able to sell at a profitable price every year, but when it does not pay to sell they feed them.

In 1861 the cold was so severe in eastern Europe that packs of starving wolves entered Vienna, and all the canals of Venice were frozen and the principal mouth of the Nile was blocked with floating ice for a week.

The precision, methods, rules, and general conduct of affairs, as administered by the Y. P. S. C. E. in convention, are recommended as an example of expeditious and successful business management, to other and more pretentious organic societies.—Salem Statesman.

We are only just beginning in the building of electric roads; and yet there are now said to be 850 railroads of this kind in operation in the United States, with a total of 9,000 miles of track, 23,000 cars and a capitalization of over \$400,000,000. Eight years ago only thirteen of these roads were in operation with about 100 cars.

It is said the weather is so warm in Arizona that publishers of newspapers are compelled to print on asbestos paper. This may be so, but it's our private opinion, says an exchange, that the originator of the above will eventually "fetch up" where asbestos clothing is an everyday wearing apparel.

Mr. Hobbs, the horticultural commissioner, reports progress in running down infected fruit trees. He will go to Union where there is reported to be 5000 diseased trees. It is his intention to make the work thorough and complete. A force of men was engaged yesterday in burning 30,000 Canby prune trees which were "healed in" in the northern part of town.

A Scotch dairyman is credited with a test of the value of a warm barn for his cows. They were losing him \$10 a week, and he tried by a more liberal feeding to get them on a paying basis, but failed. Finally it occurred to him that the barn might be too cold, and he closed the large open loft over the cows and tightened it up to a temperature of nearly 60 degrees, when his loss was changed to \$10 a week gain. It cost him \$20 worth of feed per week to warm that hay loft.

More bloomer rhapsodies! The Dalles Chronicle: We predict the bloomer has come to stay, and if so the bicycle has accomplished a miracle, in compelling women to dress not only beautifully, but sensibly. The bloomer is a "fifurcated dream in art! An iambic poem in dress goods! A symphony in tout ensemble! An embossed perfume! A distracting combination! A style chaste as Diana! Beautiful as Hebe! Fit garment for the Dryads, or for the Vestals, and it goes with leggings too. The blooms of the orchards are sweet, and the blooms of the rose a delight, but bloom as they may the new style is far bloomer.

Rural Northwest: A resident of Portland, who has been carefully reading the advice given by the one hundred eminent citizens on the subject of diversified farming, had occasion to take a trip up the Willamette valley a few days ago during which he visited many farms. He was surprised to find that farming is already diversified to a great extent, and that the farmers are exceedingly anxious to branch off in any new line of production which offers a reasonable assurance of paying returns. The conclusion he arrived at is that the farmers are ahead rather than behind the demands of our markets in all lines unless it be dairy products. A reasonable market for diversified farming.

The boys of the 3d B. B. 9 will give a strawberry festival at Davis' hall Saturday May 25, and want everybody to go.

Rev. T. L. Jones and family will move from Grants Pass to their farm near Roseburg this week.

The number of new school houses built in Lane county last year was ten.

There were 4,252 legal voters for school purposes reported in Lane county the past year was \$54,665-94.

Walker Young has a sample of clover raised on his farm across the river that is ahead of anything brought in for this year. The bunch measured over two feet in length.—Eugene Register.

The Endeavors of Eugene have been fortunate enough to secure for one evening only, Wednesday, May 22nd, the Rev. Dr. Francis E. Clark, or as he is better known "Father Endeavorer" Clark. Admission will be free. It is hoped that all members of the Y. P. S. C. E. of Cottage Grove and vicinity will make an effort to hear him, as it will be the opportunity of a lifetime.

You can come down on the evening freight and return on the next morning's freight. Upon arrival at Eugene you can easily ascertain where the meeting will be held. Mrs. ROBERT McMURPHY.

A Social Reunion.
A social reunion of the classes of '93 and '94 was held at the residence of Mr. and Mrs. J. P. Currin, Saturday night May 11.

The large elegantly furnished parlors of their residence were opened wide, and all were made to feel welcome the moment they stepped within the doors.

Among the invited guests present from a distance, were J. P. Holland, for two years principal of the Cottage Grove public school, and Miss Etta Preston, both of Eugene. The evening was spent in a sociable way; Miss Preston favored the company with some well executed pieces of music. Just at the proper time, and just the proper thing in the way of refreshments, ice cream and cake were served.

Before departing for their homes the classes organized themselves into an Alumni. Miss Celia Lurch was elected president, and Miss Lulu Currin, secretary, both of class '94. Mrs. Elsie Lea, Ida Lincoln and Lottie Knox, were appointed a committee on by-laws, and Misses Effie Younger, Lulu Currin and Celia Lurch, a committee on literary exercises for the next regular meeting which will be at the close of school next year.

At a late hour all departed for their homes, having spent a pleasant evening, one that all will look back upon with pleasure.

MILTON FRUIT FIRST.—Portland Sun: Mr. E. J. Davis, manager of the local fruit union at Milton, Or., shipped the first strawberries of the year to the Oregon fruitmen's branch at Denver on May 10. This opens the green-fruit shipments of the year for Oregon. The strawberry crop of Milton is estimated at 15,000 crates, which will be marketed in the next 30 days. The are only three other points that ship in such quantities—Hood River, Walla Walla and Fayette, Idaho. Inasmuch as the bulk of the fruit will be marketed through co-operative effort the shippers are looking for a more equal distribution of their fruit, which heretofore has often glutted some markets while others had none. If the Oregon Fruit Union makes a success of fruit marketing it will greatly stimulate the better care and more planting of orchards.

SCHOOL TEACHER CONVICTED.—A young man named Herman, who has been teaching a school near Alameda, Whitman county, Wash., was tried Monday, for whipping a 13-year-old boy, Alva West, too hard, even striking him over the head with a stick. The whole neighborhood turned out and while the 12 good men and true were weighing the evidence in the court room, 12 equally good and true were getting inebriated and enjoying a rough-and-tumble fight outside. The teacher was convicted and fined, and the cause of good order was vindicated.

A Brand New Thing.
In the upper country they are killing squirrels now with lice. They have tried to give them the small pox and other contagious diseases, but it failed. Finally they imported a few lousy squirrels, and now where there used to be twenty there is but one. The lice seem to eat them up alive. It seems to be a sure cure, and the time will come when they will sell squirrel lice over the counter in drug stores as they now sell bird seed.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.

HORTICULTURAL QUARANTINE REGULATIONS.

At a special meeting of the Oregon State Board of Horticulture, held in Portland, April 2, 1895, all members present, the following regulations were adopted, in accordance with the laws regulating such matters, and are, therefore, binding upon all persons. The regulations are to take effect and be in force from and after May 4, 1895:

Rule 1—All consignees, agents or other persons, shall, within 24 hours, notify the quarantine officer of the State Board of Horticulture, or a duly commissioned quarantine guardian, of the arrival of any trees, plants, buds or cions at the quarantine station, in the district of final destination.

Rule 2—All trees, plants, cuttings, grafts, buds or cions, imported or brought into the state from any foreign country, or from any of the United States or territories, are hereby required to be inspected upon arrival at the quarantine station in the district of final destination, and if any such nursery stock; trees, plants, cuttings, grafts, buds or cions are found to be free of insect pests and fungous diseases, the said quarantine officer or duly commissioned quarantine guardian shall issue a certificate of that effect. And furthermore, if any of said trees, plants, cuttings, grafts, buds or cions are found infested with insect pests, fungi, blight or other diseases injurious to fruit trees, or other trees or plants, they shall be disinfected and remain in quarantine until the quarantine officers of the State Board of Horticulture or the duly commissioned quarantine guardian can determine whether the said trees, plants, cuttings, grafts, buds or cions are free from live injurious insect pests or their eggs, larvae or pupae, or fungous diseases before they can be offered for sale, gift, distribution or transportation. All persons or companies are hereby prohibited from carrying any trees, plants, cuttings, grafts, buds or cions from without the state to any point within the state beyond the nearest point on its line or course to the quarantine station in the district of ultimate destination; or from any point within the state to any other point therein, until such trees, plants, cuttings, grafts, buds or cions, seeds or pits arriving from any foreign country found infested with insect pests or their eggs, larvae or pupae, or with fungi, or other diseases hitherto unknown in this state, are hereby prohibited from landing.

Rule 3—All peach, nectarine, apricot, plum or almond trees, and all other trees budded or grafted upon peach stock or roots, all peach, or other pits, and all peach, nectarine, apricot, plum or almond cuttings, buds or cions, raised or grown in a district where the "peach yellows" or the "peach rosette" are known to exist, are hereby prohibited from being imported into or planted or offered for sale, gift or distribution within the state of Oregon.

Rule 4—All trees, plants, cuttings, grafts, buds or cions have been duly inspected, and if required disinfected, as heretofore provided, and all such shipments must be accompanied by the proper certificate of the inspecting officer. Provided, however, that after such persons or company have given the proper officer four days notice, he or they shall not be required to hold such shipments further, without directions from such officer.

Rule 5—Fruit of any kind grown in any foreign country, or in any of the United States or territories, found infested with any fungi, blight, or other disease or diseases injurious to fruit trees, or other trees or plants, is hereby prohibited from being offered for sale, gift or distribution within the state.

Rule 6—Any boxes, packages, packing material and the like infested by any insects, or their eggs, larvae or pupae, or by any fungi, blight, or other disease or diseases known to be injurious to fruit or to fruit trees, or to other trees or plants, and liable to spread contagion, are hereby prohibited from being offered for sale, gift, distribution, or transportation until said material has been disinfected by dipping it in boiling water and allowing it to remain in said boiling water not less than two minutes; such boiling water used as such disinfectant to contain in solution one pound of concentrated potash to each and every ten gallons of water.

Rule 7—Animals known as flying fox, Australian or English wild rabbit, or other animals or birds detrimental to fruit trees, plants, etc., are prohibited from being brought or landed in this state, and if landed shall be destroyed.

Rule 12—Quarantine stations: For the Second district, comprising the counties of Marion, Polk, Benton, Linn, Lincoln and Lane, shall be Salem. John Minto quarantine officer, or any member of the board, or the secretary thereof.

Rule 13—Importers or owners of nursery stock, trees, or cuttings, grafts, buds or cions, desiring to have such nursery stock, trees, plants, cuttings, grafts, buds or cions inspected at points other than regular quarantine stations may have such inspection done where required, provided, however, that such importers shall pay all charges of inspection. Such charges and expenses to be paid before a certificate is granted.

Transportation companies, or persons and consignees or agents shall deliver and cause to be detained all nursery stock, trees, plants, and fruit at one or other of the quarantine stations, for inspection, as provided by the rules and regulations of the board.

Details as to quarantine stations, officers' fees of inspection, receipts for disinfection may be obtained on application to the secretary or any member of the board or by reference to the pamphlets circulated.

By order of the board.

J. R. CARDWELL, President.
GEORGE I. SARGENT, Secretary.

B. H. Bowman: Pub. Enquirer; of Breman, Ind., writes: Last week our little girl baby the only one we have was taken sick with croup. After two Doctors failed to give relief and life was hanging on a mere thread we tried One Minute Cough Cure and its life was saved. For sale by J. P. Currin.

The Californians Beat Us.
Mr. C. W. Anderson, of the Alameda News Era, came up from California last Saturday and spent several days in town, visiting with his brother Ross, of the Lakeview House.

Clarence was one of the composers in the state printer's office during the legislative session at Sacramento last winter. In his reminiscences of the assembly he told us about a man who got a job as a compositor in the state printing office, and when they set him to work at the case he wanted some one to show him where the letters were. But he put in his time, all right.

We informed him that Oregon could beat that. That during the last legislature at Salem a Portland girl got a clerkship, and was sworn in on the first day of the session. She then returned home and stayed away until the last day, when she came back and drew her salary.

"O, California can beat that," he said. "Last winter two San Francisco ladies got a clerkship at Sacramento, drew pay for full session, and did not go to the trouble of coming to Sacramento to get their wages."

There is no use of talking, the Californians can beat us. The Web-footers are slow.—Lakeview Examiner.

The Examiner received a package from the east last Saturday, on which the charges were \$4.60, while the first cost was only \$1.50.—Lakeview Examiner.

There ought to be no uncertainty in regard to pig values again this year. In 1892 we had 52,598,000 head of hogs in this country, while the Department report of this year puts the shrinkage in numbers at over 8,000,000 head. The increasing resumption of business and the general industries is likely now to go on improving and so with normal consumption restored we ought to have good prices this season. At present hogs are on the rise in the great market centers.—Indiana Farmer.

A correspondent yesterday interviewed the committee of Willamette students who have in charge the arrangements for the intercollegiate field day of Oregon to be held June 8, at the state fair grounds. It will be a meeting of the eight schools of higher education in a purely athletic contest, under the sanction of the Pacific Northwest association of the American athletic union, and the wheel events under the L. A. W. A. handson cup will go to the college scoring the largest number of points, so that the individual remuneration will be lost sight of in the glory of the college.

This is the first occasion of the kind which has ever been on the Pacific coast and a large crowd is expected. An excursion will be run from Corvallis taking in Albany, Independence, Monmouth and intermediate points, and a railroad excursion from Portland is under advisement, besides rates to those who attend from other points. On Friday June 7, in the afternoon, the tennis preliminaries will be played on Wilson avenue, Salem, and at the same time delegates from the different colleges will be in session at the university athletic association of Oregon, under which the games will be played hereafter. We speak the most hearty co-operation of the people.

A HARD LICK.—Salem Post: "The office of attorney general is a farce. It is \$3,000 a year thrown away for nothing. In the soldiers' home muddle business the secretary of the state had to go to Tilmon Ford for advice, while our well paid incumbent draws his pay. The secretary however will have the satisfaction of knowing that he employed a man that is a man."

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

MAY NEWS.

Weinstock, Lubin & Co.
400 to 412 K St.,
Sacramento, Cal.
Largest General Retail House on Coast.

Wearing Apparel of all kinds for men, women, and children; Dry Goods, shoes, hats, millinery, valises, furniture, carpets, crockery, notions, stationery, silverware, toys, household supplies, etc.

WHISKERS BEATEN.

Eugene Guard: The much talked of foot race between Trine (Whiskers) of Henderson and Whitney of Cottage Grove took place at the Harris track west of town Saturday afternoon. A large crowd, mostly sporting people of this city and Cottage Grove, was present and excitement ran high. Betting was indulged in quite freely and large sums of money changed hands over the result.

As was previously stated a horse race was also run. The race was between Red Bird, owned by McKinney of Cottage Grove and Bay Dick, owned by Gilleress of Creswell. It was a 600-yard dash and the later won the race. The purse was a horse.

Considerable time was lost in preparing for the foot race and it was not run until about half past four o'clock. The excitement was intense when the sprinters appeared on the track and when the result was known the cheering became terrific. Whitney won in a 100-yards run by about a foot and a half, and it was the Cottage Groveites who were making most of the noise. The result was a complete surprise to the Eugeneites, as they were confident "Whiskers" would win the race and had done some heavy betting on him.

STUCK IT RICH.—A report from Union says: "Last Thursday night a large cave took place on Sturgill bar, where captain Robiatt was in charge of the nozzle, and an examination showed nuggets of all shapes and sizes. The workmen quickly picked up \$14,500 in gold, in dinner pails, and many thousands of dollars more are actually in sight. Everybody in this section is now looking for high bars and coarse gold channels on Snake river, and the most intense excitement prevails among the prospectors."—Oregonist.

Times: Last Wednesday was hog day in Corvallis. About a dozen teams drove in town, all laden with fat hogs, chiefly from the farms of William Driscoll, Miles Star and Casper Zielf. There were over 90 of the swine and they were taken by James Lewis to Portland. The price paid by Lewis was three cents per pound live weight.

Valley wool is being marketed. About 8 cents per pound is the price paid.

De Witt's Witch Hazel Salve cures scalds, burns, indolent sores and never fails to cure piles. For sale by J. P. Currin.

Oregon Mist: Perhaps the greatest cause of diversified farming has to contend with is the same old cry against various minor crops that they "will not pay," "there is nothing in them." The trouble is the same that has impeded agricultural industry in Oregon from the earliest years—an earnest desire to raise something without much exertion which will bring handsome profits. There is today very little margin in any business, and less in almost any line of industry than in farming. Potatoes may not be high in price, but with careful cultivation, manuring where manure is needed, and judicious marketing, a yield of 200 bushels or so to the acre, which is not unusual, will give a profit well worth while. And so with other crops in the state.

MONEY LOANED.

First Mortgages On Improved Farm Property Negotiated.

We are prepared to negotiate first mortgages upon improved farms in Oregon, with eastern parties at a rate of interest not to exceed 9 per cent, per annum.

Mortgages renewed that have been taken by other companies.

Address with stamp, MERVIN SWARTZ, Baker City, Oregon.

Notice of Final Settlement.

Notice is hereby given that B. W. Emerson, Executor of the estate of Biran Lee, Senior, has filed his account for final settlement of said estate, and Monday the first day of July, 1895, has been set by order of the County Court for hearing of petition to the same.

B. W. EMERSON, Executor.
Geo. B. Dorris, atty for estate.

NOTICE TO CREDITORS.

Estate of Phineas Massey, Deceased.

Notice is hereby given that the undersigned, Executors of the estate of Phineas Massey, deceased, and the creditors of, and all persons having claims against, said deceased, to present them with the necessary vouchers, within six months after the first publication of this notice, to said executors at Wallace, in the county of Lane, State of Oregon.

WILLIAM G. MASSEY, MARY F. MASSEY, Executors.
Dated April 30, 1895.
John M. Williams, Attorney for Executors.

NOTICE FOR PUBLICATION.

UNITED STATES LAND OFFICE, Roseburg, Oregon, May 1, 1895.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before A. C. Jennings, County Clerk of Lane county Oregon, at Eugene, Lane county Oregon, on June 22, 1895, viz: Francis F. E. Reiser on homestead entry No. 612 for the sw. 1/4, Sec. 10, Tp. 20 S. R. 1 W. 1/2. He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: David C. Matthews, Archie H. Matthews, John Pollock, Ernest A. Lawrence, all of Deist, Lane county, Oregon.

May 1.
B. M. Veach, Register.

Trespass Notice.
Notice is hereby given that I, the undersigned, have posted trespass notices on my respective premises and all persons trespassing thereon, after this date will be prosecuted to the full extent of the law.
