Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube be restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Some person who is owing for his Echo-Leader, if he has a good team can do a good turn and pay his subscription by doing some plowing for the publisher right away, soon.

The editor of the Echo-Leader was out on uncle Johnie Currin's ranch Saturday and Sunday. This is the prettiest and best ranch in all the country. Plenty of rich cultivatable and pasture land, always dry and just right for pasture or cultivation. Mr. Currin believes in diversified farming—believes in raising plenty for his own use and some to sell. Good cows and fat calves, fine hogs and nice pigs to eat the grass and grain raised on the ranch makes it look prosperous and homelike. Mr. Currin has put out a new winter apple orchard this spring and the trees are growing fast and look healthy.

The Echo-Leader job office turned out some very pretty cards for Long & Morse this week. The gentlemen are in the lively business up to their ears, and say they don't want to hide their light under a half bushel when there is a good newspaper in town.

W. C. Neas who has been afflicted a long time with a cancer, came up from Eugene Thursday with Dr. C. Billington of that city. The doctor had the cancer taken from Mr. Neas' face in a bottle, and it with a number of cancers taken from other persons, were horrible to look at. Mr. Neas would soon have been past being cured and feels quite fortunate over his recovery.

Monday the editor of the Echo-Leader had the pleasure of seeing at the residence of S. T. Nelson, near town, some of as pretty Poland China pigs as ever seen in the Eastern states. Mr. Nelson has two sows and a male—all Poland Chinas from registered stock, that he procured East about one year ago, at a heavy expense. The express charges on the pigs amounted to almost \$50. It costs something to start at the bottom for good hogs, but the pay is good for any one who will start right, and keep right along in that line. It costs more to make 100 pounds of pork out of a scrub than it does to make it out of a good thoroughbred, by about half. Thoroughbred pigs that can be butchered at eight and ten months old, give the owners some satisfaction in quick returns for labor and attention. When a man undertakes to make pork out of a hog so slim that he has to tie knots in its tail to keep it from sliding through the cracks of his neighbors fence far enough to capture the third row of corn growing in the field, you can be quite sure that man will never go into the banking business with the profits he makes raising hogs.

We are glad Mr. Nelson has the nerve and enterprise to invest in thoroughbred pigs that will pay him a large profit for his labor in raising them. It takes quite a long time to get a good start in raising good hogs and a man cannot undertake it unless he expects to stay with it. A first class thoroughbred sow is worth more to a man who cultivates the soil for a living, than a good horse or cow. But a man should have the best and see that he knows how to manage them.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 520 Boyle Heights Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in his house. For sale by J. A. Benson, Cottage Grove, or Geo. Lyons, Drain.

AN OLD VER.—Mr. James Gill, who was a trumpeter in Co. H., 3d United States regular infantry when a boy, is now in the city. Having served with Uncle Sam forty years, he is well posted in his history and narrates with much interest many remarkable epochs in the nation's life. He passed through Roseburg in 1850 under Gen. O. O. Howard. He was by the general's side when he received the wound that caused the loss of his arm. Mr. Gill is now 57 years old yet quite agile for one of his age. He is also an uncompromising republican.—Roseburg Plaindealer.
