There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. A Remarkable Cure of Rheumatism. WESTMINSTER, Cal., March 21, 1894.—Some time ago, on awakening one morning I found I had rheumatism in my knee so badly that, as I remarked to my wife, it would be impossible for me to attend to business that day. Henry Applegate, of Weiser, Idaho, is visiting his uncle, A. Todd, of Cottage Grove. He was here some time ago buying cattle, and will start with them for Idaho, June 18th over the old military road.

E. P. Thorp, the live editor of the Cottage Grove **ECHO-LEADER**, gave us a pleasant call this morning. He publishes the best local newspaper in Oregon, considering the size of the town.—Daily Eugene Guard.

With this issue the **ECHO-LEADER** commences the 7th year of its publication. Six years ago, when the present publisher founded the **ECHO-LEADER**, the lots where the building in which the **ECHO-LEADER** is now printed and published, was part of a grainfield. Almost three and a half years since, we moved the **ECHO** here and consolidated it with the **LEADER**.

The time has slipped by so rapidly that we hardly realize it. The constant, hard, tread-mill labor that we have performed has taken most of the sweetness out of our life. The last two years have been a holy terror to the country newspaper publisher. Had we known half that we have endured in the last three and a half years, we most likely would never have come here. But, though it is slow coming, we think there is a great future in this part of Oregon. The darkest hour is said to exist just before the light of day. We hope this will be true here and that this section is just on the eve of a general awakening, and if the country wants to "boom," we shall not try to stop it though it makes "Rome fairly howl."

A Sharp Practice you call it when reading an interesting article and find at its close that you've read an advertisement. Don't condemn the advertiser. You won't read the ordinary advertisement. All advertisers feel in common with the writer who takes this means of telling you that Simmons Liver Regulator is the best medicine for Melaria, impure blood and a poisoned system. Equally as good for indigestion and Biliousness.

Never before has the prospects for bountiful crops of all kinds been so flattering. Surely better times are in store for our people even if prices do remain low.

Atudy's Pile Suppository is guaranteed to cure Piles and constipation, or money refunded. 50 cents per box. Send two stamps for circular and Free Samples to MARY T. RUDY, Registered Pharmacist, Lane Co. Pa. No POSTAGE ANSWERED. For sale by all first class druggists everywhere and in Eugene Oregon by Osborn and Delano.

Almost every week newspaper publishers with-hold interesting news items simply because they know by printing, the character of those implicated will be injured, yet it very frequently happens that the very persons who have thus been accommodated are ever afterwards open enemies of the publishers.

What Shall I Take? Why Simmons Liver Regulator, of course. It can't be beat in any attack of Indigestion, Biliousness, Sick Headache, or Constipation. It gives quick relief, and if continued for a while will completely cure these ailments. The Regulator comes in liquid and powder form. The powder is wonderfully convenient for the vest pocket. A pinch of this powder and a swallow of water leaves no taste and works effectually.

A GREAT FUTURE FOR EUGENE.

We were in Eugene first of the week. It is one of the prettiest and best towns in Oregon. To sustain two as neatly gotten up, live and progressive daily papers as the daily evening **Guard** and the morning daily **Register**, it must be a good town. The business men of the city evidently appreciate both papers from the appearance of their advertisements in those papers. We are glad of this, for the papers have a great work before them. Eugene is most emphatically the coming city of the great Willamette valley. Its situation is superb and the magnificent fertile valleys and foot hills for a long distance are to be wonderful factors in sustaining and building one of the most substantial and prosperous cities in Oregon. The great financial depression has been felt by the citizens of Eugene, as well as all over this great state of immense resources and grand opportunities. But behind the dark cloud we see the near approach of glorious sunshine and prosperity which will enable the people of Eugene to utilize the colossal resources of the tributary country. The great Willamette valley is one of the locations on the Pacific coast which has not been caught in the "boom period." With the return of general prosperity, which is evidently and steadily approaching, the Willamette valley possesses too many natural advantages, too many golden opportunities to escape the live, enterprising capitalist who is watching for magnificent localities susceptible of phenomenal development. With the restoration of "good times" will come capital, enterprise and people who will make all tributary country to Eugene, a veritable paradise overflowing with the great substantial products of the soil as well as fruits and flowers that are sweet and charming, to those who fondly admire the beautiful and the precious gifts that generous nature extends with such a free and willing hand, in this wonderful Pacific coast state.

Capital and enterprise will use the immense waterpower at Springfield to create an electric power to run the machinery of great manufacturing, build electric railways along the water streams tributary to Eugene, and lines to Corvallis and other important localities.

Capital, enterprise and science will so control the water power at Springfield that a great leading, prosperous and enterprising city of many thousand people at Eugene, will be one of the brilliant results, while the entire tributary country will have become a grand network of electric railway systems, far beyond the brightest conceptions of the most sanguine citizens of the capital city of Lane county.

The most pleasant little pills for regulating the bowels, are De Witt's Little Early Risers. Cure sick headache and constipation. Small pill, small dose. J. P. Currin.

The Portland Rural Northwest: "Editor Thorp, of the Cottage Grove **ECHO-LEADER**, has bought a nice place adjoining Cottage Grove and will proceed to raise winter apples, small fruits, thoroughbred poultry and swine, etc. He has followed the business of fruit growing with success for a number of years and knows what he is about."

Travelers find a safe companion in De Witt's Colic and Cholera Cure. A change in drinking water and in diet, often causes severe and dangerous complaints. This medicine always cures them. J. P. Currin.

The Daily Eugene Register says: The 3000 young fruit trees recently planted by Geo. M. Miller are making fine growth. They consist of 1000 Baldwin apples, 1000 cherries and 1000 prunes of the Italian variety. The rolling hills seem to be favorably adapted to these varieties of fruit.

We recommend De Witt's Colic and Cholera Cure because we believe it a safe and reliable remedy. It's good effects are shown at once in cases of Cholera Morbus and similar complaints. J. P. Currin.

The Daily Eugene Register gives following items from Irving: Irving has the banner Sunday School of the county. The average attendance is over one hundred.

The funeral services of Frankie Bristow, the infant son of Mr. and Mrs. Albert Bristow, were held in the U. B. church on Sunday last by the Rev. Snyder. His text was chosen from Luke 8: 45: "She is not dead but sleepeth." The church was filled with loving friends. The remains were buried in the Luper cemetery.

There is one medicine that will cure immediately. We refer to De Witt's Colic and Cholera Cure for all Summer Complaints. No delay, no disappointment, no failure. J. P. Currin.

The charge brought against one of our citizens, of larceny of flour, here last week, and not tried because it was not a case, is about a fair sample of what is going on in every county in Oregon. Persons get angry at some one and for revenge, endeavor to drag them in to court without any cause, and a large bill of costs, for the county to pay, and the tax payers are the real sufferers. This outrageous farce should have been squelched long ago. It has been permitted to grow until it has become an incubus disastrous to justice and the best interests of the people. It was expected that the last legislature should pass a law compelling one to pay or guarantee the costs in all petty suits brought for spite work, but the senatorial farce took up so much time that many laws which would have saved the people many thousand dollars annually, failed to be passed.

"Whiskers" came out winner in the 1st race at Eugene Wednesday, and Robin H. came out easy winner in the horse race.

Lost (?) The editor of the **LEADER** was missing Friday morning, and the "dev" it was in such a state of bewilderment, we trust our readers will say nothing about errors until his return.
