Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F. J. Ye editor of the Echo-Leader has a way of doing about as he pleases, "one no doubt got their spinal columns up, but what's the difference? Life is too short for ye editor to smile at the "simple Simon's" antics of male or female cranks. There are people possessed of enough common horse sense to more than make up for cranky idiots and "pouting stupid". Don't be afraid of enjoying too highly the sweets offered on this mundane sphere. Hip hurrah!

Capt. Ben D. Boswell had made elaborate preparations at Boswell Springs, for a big time for everybody on the Fourth. The Yoncalla and Drain bands discoursed excellent music. The crowd assembled was immense—estimated by many at over 2000. 50 wagons as close as they could get were counted in one place. Everybody came intent on having a jolly time, and, though the steady downpour of rain prevented any part of the program from being carried out, all were in the happiest spirits all the time. Every available inch of hotel Boswell, barns, sheds, etc., were packed with people like sardines.

Supposed to Be Brady. Redding, July 8.—The Redding Alturas stage was robbed early this morning two miles above Moxley's station, 24 miles from Redding. Supervisor Bass and a lady passenger were not molested. The highwayman took the Wells-Fargo box and registered mail, securing perhaps \$400. The robber is described as 5 feet and six inches tall, and many believe it to be Brady, as the officers claim that he took that direction.

The appeal papers in the case of the state vs. X. N. Steeves have been filed in the supreme court. Accompanying the transcript were 1474 type-written pages of testimony, which is more evidence than has come up to the supreme court for years.

To let this man Steeves practice in the court that sentenced him to fifteen years in the pen, is not much credit to Oregon justice, to say the least. Some men appear to succeed in doing just what they please.

Nineteen train loads of tea which arrived on the steamer Strathvie July 8, from China, went East on the N. P. R. R., 20 cars to the train, and you can imagine there was some tea there. Among the numerous persons who have been cured of rheumatism by Chamberlain's Pain Balm, mention should be made of Mrs. Emily Thorne, of Toledo, Wash., who says: "I have never been able to procure any medicine that would relieve me of rheumatism like Chamberlain's Pain Balm. Should Read Up.—A piece has been going the rounds through the papers in different forms referring to Ezekiel 13-18, about sewing pillows in armbolts, etc. Now the truth of the matter is there is no such book as Ezekiel in the Bible and it is strange that Bible students like Brother Thorp, of the Echo-Leader should not have found it out before this. Perhaps Ezekiel is the book meant.—Eugene Register.

Such errors will sometimes creep in an article, but in this instance the editor of the Echo-Leader really feels thankful that this little error has set the editor of the Register to reading his Bible. The editor of the Echo-Leader is quite generous and always willing to help his fellow man do good for himself. Ezekiel 13:18, "Woe to the women that sew pillows to all armbolts."

Portland Sun: The Oswego iron works have now been in operation since the first of the month, and although the furnaces are not yet running in full blast a force of some 40 men are given employment. The recent advance in the price of pig iron is gratifying to local manufacturers, the price per ton now being nearly \$3 over quotations ruling but a few weeks ago. Even with this rise in value, Oregon manufacturers are still at a disadvantage. Owing to cheap labor and easy mining, pig iron can still be shipped from Alabama to Portland cheaper than the cost of production here. Should the advance continue until a further increase of \$5 per ton is noted, then the works at Oswego can hum. The furnaces will be blown and fully 400 men given employment at wages far in excess of the labor employed in the Birmingham and other iron camps of Alabama.

The iron and steel market of the East is exceedingly active, with a strong tendency to higher prices, and, while there is no present indication of an advance sufficient to meet the requirements of local profit, the higher prices have stimulated the hopes that many a figure may be reached to justify their expectations.

A correspondent from Wilbur to the Roseburg Review thus speaks of the marriage of two of Douglas county's most popular young people: MARRIED.—Our little village, so long slumbering in the dust of its ancestors, for the want of sufficient energy on the part of its youths, was at last awakened by the ringing of wedding bells, and the announcement that Ex-Representative Omar C. Brown and Miss Ella L. Hill, two of Douglas county's most amiable and popular young school teachers, were, at the home of the bride's parents, Mr. and Mrs. Wm. Hill, and by Rev. M. O. Brink, united in marriage June 30th, 1895. The house was handsomely decorated, and after the impressive ceremony, all the guests sat down to a bountiful wedding repast. Soon after the young couple, with the benediction of all upon them, took their departure for Roseburg where they will reside. The names of donors and presents received are as follows: Mr. and Mrs. W. G. Hill, bedroom set; Mrs. D. Hill, set of panel pictures; Mr. and Mrs. N. LaRant, icecream set; Mr. and Mrs. D. P. "We had an epidemic of dysentery in this vicinity last summer," says Samuel S. Pollock, of Briceand, Cal. Before one-half of the bottle had been used I was well. I recommended it to my friends and their experience was the same. We all unite in saying it is the best." For sale by J. A. ILLINOIS COAL STRIKE. Portland Sun: The pecuniary loss to workmen by strikes; lock-outs and other labor disturbances is aptly illustrated by the advance reports of the strike among the coal-miners of Illinois a year ago. The report of this labor disturbance is and appendix to the report of the Illinois Bureau of Labor Statistics, and covers the state by districts. The strike was an extensive one in all respects, involving 25,207 men and 276 mines. Each of the mines sustained an average loss in operation of sixty-one days.

The wage loss to the 35,207 men was something appalling. The total number of days lost by them was 846,955, an average of 72 days for each man. The loss in wages was \$1,693,910, an average of \$67.20. Not the slightest gain resulted to the workmen from the strike. Over 23,000 of the 25,000 more strikers returned to work at the wages they received prior to the trouble, or consented to a slight reduction in order to be re-employed. Only 3170, or 12 1/2 per cent of the men affected were re-employed at higher wages.

These Illinois figures tell their own story. They are a terrible arraignment of the strike system, and a long argument against its continuance. Arbitration is the only way to settle labor troubles.
