Local editors will agree with the following from the quill of one of them. "Newspaper men are blamed with a lot of things they can't help; such as using partiality in mentioning visitors, giving news about some folks and leaving out others, etc. He simply prints the news he can find. Some people will inform him about such things and others do not. An editor should not be expected to know the name and address of all your uncles, aunts and cousins; even if he should see them get off and on the train. Tell us about it. It will cut off a limb two inches through as easy as you could cut a piece of cloth with a pair of scissors."

If any of our public school teachers should ask the question, "When did the war for the Union close?" there would be a general raising of hands and the answer would undoubtedly be, "In the spring of 1865." No answer more definite could be given. It is safe to say that none of them would postpone the termination until next summer. The supreme court of the United States rendered a decision 1877, which is binding upon the entire government in all official matters and that fixes August 20th, 1866, as the legal termination of the war. It was on that day that Andrew Johnson, President of the United States, issued a formal proclamation declaring the war over. This is strictly official date of the close of the war.

Tit for Tat. A New York girl who is only seven years old one day last week gave tit for tat in a very neat way. She was trudging to school, carrying her luncheon in a covered basket, when a schoolmate, a boy of nine, overtook her. He must have been in rather a bad humor, for his very first remark was: "Say, I wouldn't carry my lunch in a fish basket, anyway." The little miss turned and looked at him. He had his sandwiches and cake in a tin box under his arm. "Well," she said, "I wouldn't carry mine in a bait box." And the boy had nothing to say.

Prosperity in Sight. Prosperity really seems to be emerging in this state from the total eclipse that it suffered in 1893, says the Portland Oregonian. The best evidence of this is the uniformly good crops, the favorable weather of the harvest season, the tendency, though slight, toward upward prices for staple farm products, and the general spirit of cheerfulness that prevails among farmers. This last element is no mean factor in the general result. It is a well-known fact that the man who takes kindly to his lot and considers himself reasonably well off is in reality prosperous; while on the other hand, he who is "down on his luck," so to speak, is always in bad financial shape, without regard to his personal assets. Farmers in general have for several years been in the latter class.—East Oregonian.

Flit Hartwell in her last syndicate article says: "I don't recommend any special brand of tea for afternoon four o'clocks. We raise dogs and buy hogs. We grow weeds and buy vegetables and brooms. We catch five cent fish with a \$1 rod. We build school houses and send our children off to be educated. And lastly we send our boys out with a \$10 gun and a \$10 dog to hunt 10 cent birds."

A SOUTHERN OREGON PIONEER. Grants Pass, Or., Aug. 17.—Charles Walker, one of the oldest residents of Southern Oregon, died suddenly last night of heart failure at the Thornton house, in this city. Judge Walker, as he was commonly known, came to Oregon in 1852, and was associated with this part of Oregon ever since. He was for a number of years engaged in legal work in Montana and Idaho, and practiced law here in early days. Later, he engaged in mining enterprises and followed the gold excitement through its heat. The Judge was 74 years of age, and leaves an estate of several thousand dollars in Jackson and Josephine counties and at Cottage Grove, where he built a hotel some years ago. He has a son at Saux Center, Minn., and other children in various parts of the East.—Ashland Tidings.

A Lane County Boy. We clip the following concerning Prof. J. L. Tait, formerly of Creswell, and a son of the well known farmer John Tait, from the Mt. Sterling, Kentucky, Gazette, of August 7th:

"Prof. J. L. Tait, of the Mt. Sterling Female Seminary, has finally secured Miss Anna Miller, of Anderson, Ind., as teacher of English, Elocution and Delsarte. Miss Miller is a lady of wide reputation as a teacher, having been for some years principal of the High school of Ablesse, Kansas. This position she resigned two years ago to accept the chair of English Literature in the high school at Anderson, Ind. last spring a severe attack of influenza made it doubtful whether she could resume her work another year, and she was not an applicant for re-election. A strong constitution, aided by a summer in the country, has fully restored the lady's health, and she is now in better condition than ever."

"We congratulate Prof. Tait and the people of Mt. Sterling on this acquisition. With Miss Dixon as teacher of French and Music, and Miss Miller for English, Elocution and Delsarte, the Mt. Sterling Female Seminary certainly shows a strong faculty. Miss Miller combines the study of English Literature with that of Elocution—certainly a happy combination and one scientifically correct. Prof. Tait has shown himself to be a man worthy of confidence, and one thoroughly understanding the science of school and college work; but in nothing has he proven this more clearly than in his selection of teachers. We believe in patronizing a man who understands his work. See Prof. Tait before placing your daughter in school for the year."

There are a great many unfortunate in this world, greater in number than those who are blessed with good digestion. To some people the greatest misfortune is not to be able to eat everything set before them. "I suffered for years with Dyspepsia, and everything I ate disagreed with me. I was induced to try Simmons' Liver Regulator and was cured. I now eat everything."—M. Bright, Maddison Parish, La.
