The second car load of mining machinery for the Champion mine arrived here Sunday and is being taken to the mines this week.

George Bates of Roseburg, the official agent managing excursions from Douglas county, is very enthusiastic and hopes to have at least half of the population of Douglas county on his excursion.

Those lovely ladies, those gay sweet ribbons and fresh new stock of millinery goods—all too superbly lovely for anything—oh dear—they will be all the rage now, and the ladies will just sit in like birds of the air, Saturday October 5, 1895, to see the grand opening display of Miss S. K. Hanson.

The products from Douglas county, which were exhibited at the Roseburg Fair have been allotted a very prominent place in the State and County Exhibits Department in the Exposition Building at Portland, and will attract a great deal of attention to this county and its resources.

The management of the Exposition of Portland are offering an exceedingly low rate of \$7.50 from Roseburg, Myrtle Creek, Riddle, Round Prairie, Dillard, Greens, Wilbur, Oakland, leaders, Rice Hill, Yoneda, Boswell Springs, Drains, Conestocks, Divide, Latham and Cottage Grove to Portland and return, including two coupons for the Exposition.

NOTICE OF COMMENCEMENT. To the citizens of Lemati, Cottage Grove and surrounding country, I wish to announce that I am now ready to begin my eighth term of musical instruction in your midst and would be pleased to have the patronage and support of all who require the services of a competent instructor. I now have 20 names enrolled for the present term which I think is sufficient evidence as to satisfaction being given in the past.

Having had 15 years practical experience in teaching, both instrumental and vocal music, I feel confident that I can please the most skeptical. Full one hour lessons given for 25c. Thanking you for your liberal patronage in the past and hoping to merit a continuance of the same.

I am musically yours, Mrs. HELEN WITTE.

The Oliver Plows are sold this year at the same low prices for the best plow made. Don't hesitate, take the best and it will give you all you expect of it. F. L. CHAMBERS.

The "can't do" and "picks emises" have discouraged people from adopting new methods and diversified farming in Oregon in many places until dry rot rules supreme. If a man comes in with a little money, nerve and pluck and talks about doing anything, instead of receiving a world of encouragement, he is surrounded with "can't do" and made to think if he locates his life will be a burden and he is driven to some other place. A great many people are like an Indiana clerk in a dry goods store in a town in that state. Having returned from dinner he was laying on the counter half asleep when a lady stepped in and asked if they kept shoes for sale there. The ambitious clerk raised up on his elbows and told the lady they had, but there was a store next door where she could probably get them cheaper and very much superior!

There is one medicine which every family should be provided with. We refer to Chamberlain's Pain Balm. When it is kept at hand the severe pain of a burn or scald may be promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third the time otherwise required. Cuts and bruises should receive immediate attention, before the parts become swollen, and when Chamberlain's Pain Balm is applied it will heal them without matter being formed, and without leaving a scar. A sore throat may be cured in one night. A piece of flannel dampened with this liniment and bound over the seat of pain, will cure lame neck or pain in the side or chest in twenty-four hours. It is the most valuable, however for rheumatism. Persons afflicted with this disease will be delighted with the prompt relief from pain which it affords, and it can be depended upon to effect a complete cure. For sale by J. A. Benson, Cottage Grove; Joe Lyons, Drains, Druggists.

The regular monthly business meeting of the Y. P. S. C. E. was held on Tuesday night at the residence of Mrs. Wynne, and Wm. L. Veatch was elected as their president, to fill the vacancy of the resignation of Mrs. Ella Jones.

If a laboring man is too poor to take the ENO-LEADER he need not mind giving it to him as long as we can raise the cash to buy paper, but we have no sympathy or kind words for property owners who are too stingy to take and pay for the ENO-LEADER. Such old skinned penurious scrubs of the earth need not look for their names to ever appear in the ENO-LEADER only from accident on the part of the editor. They are too insignificant to mention at the last day when Belshazzar takes 'em by the collar and dumps them into his domain.

Parke's Tea is a great blood purifier and cleanser. A pleasant herb drink which moves the bowels without pain, griping or discomfort. Sold by J. A. Benson.

How Does This Strike You?

For a long time we have been very lenient toward persons owing us for the ENO-LEADER. We have been hard pressed for money because many have not paid up. With the country full of good crops of everything, we now kindly ask every man owing us one dollar or less, for payment. Remember that the ENO-LEADER is doing a great work for the development of the great resources of South Lane county. If those interested in this section desire the good work to go on, they must increase their patronage, pay up old scores and pay promptly an increased patronage.

Afternoon Tea.

Flit Hartwell in her last syndicate article says: "I don't recommend any special brand of tea for afternoon tea. I do, however, know all about the best tea to take at night. Parke's Tea will certainly clear your complexion and purify your blood. You will be surprised to find how comfortable it takes a cup of Parke's Tea each night." For sale by J. A. Benson.

LONG CABLE FOR THE CHAMPION MINE.

We noticed a roll of wire cable weighing over 7000 pounds and one and three fourths miles in length, for the Champion Mine in Bohemia, Monday. It will be used at the mine in carrying buckets of ore from the mine to the mill which is located a long distance below the mine to secure a favorable locality, and water plentifully. The Champion mine machinery is heavy and strongly made, and no cheap, "rich-ticky" humbug to deceive the people or those employed in working in the mine. The mine is largely backed by wealthy capitalists and solid business men at New London Wisconsin, who have made their own fortunes by honest work, nerve and pluck. In placing \$200,000 in machinery and development in Bohemia on the Champion mine they are showing their faith by their work. All are careful business men, who expect to realize handsomely on their labor and capital invested as a business enterprise. The company must all demands promptly and in making a start in the right direction to the Bohemian gold field, and not a drawback and a black eye to the camp and tributary country which has been too much the case heretofore. Men who labor for the Champion mine are highly pleased with the general wholesome superintendence and business manager, George Spurr. The efficient and bold business strike of the Champion mining Co. is making the dried up livers of some of the old fossils quiver with surprise, and we hear it predicted by mining experts in the last few days that everything looks favorable for the investment of a half—possibly a million dollars in coin in machinery and enterprises which will turn Bohemia in the liveliest camp by this time in 1896, on the Pacific coast.

ON MY BACK.

A good many third men and women could get rid of that pain in their back if they would try Parke's Sure Cure for the Liver and Kidneys. The trouble usually there and Parke's Sure Cure really cures it. Sold by J. A. Benson.

WORK CONTINUED—Eugene Guard.

Dr. A. Sharples was in town today and informed us reporter that he had completed the work of drying his peach crop. He thinks he will have a little over 75,000 lbs, and has a drive besides this about 8,000 lbs for his neighbors. His dryer turned out about 6,000 lbs of fruit per day.

While down in the southwestern part of the state some time ago,

Mr. W. Chambers, editor of the Chico (Cal.) Enterprise, "I had an attack of dyspepsia. Having heard of Chamberlain's Cough, Cholera and Diarrhoea Remedy I bought a bottle. A couple of doses of it completely cured me. Now I am a champion of that remedy for all stomach and bowel complaints." For sale by J. A. Benson, Cottage Grove; Joe Lyons, Drains, Druggists.

Parade for Fruit and Dried-Fruit Farming.

W. McKibben stepped into the ENO-LEADER office Saturday and set before the editor a box, generously filled with peaches and grapes, which were a dainty feast and highly appreciated. Mr. McKibben has a homestead notice in this paper and from the peaches and grapes he raises, we advise him to stay with his 160 acres and make it a nice home. Five years ago he planted some peach tree seed and as usual, was told he was fooling away his time because he couldn't raise peaches. No you bet he couldn't. But he has raised them all the same. At four years old the trees produced a small crop and this the fifth year, they were too heavily loaded, causing the fruit to be small, but it has the flavor all O.K. and for canning is superior to many budding peaches. Mr. McKibben is told that he will never raise any more peaches on the trees—this is the last crop for sure, but he is used to the old "guy's"—can't do things in Oregon. No doubt many are honest in their opinion that certain things can't be done, or certain things can't be raised in Oregon. But you see all are not built just alike on the "can't do" things and have the nerve and pluck to try and generally succeed well. This "can't" business" is kept going in many a man's nose to the ground in Oregon and any one struck with the nonsense should shake it out and catch on to new, up-to-date ideas and do something for themselves and Oregon. Get in touch with the great wave of progress and make "Rome how!"

LETTERS FROM BOHEMIA.

Ed Jones was down Saturday. He is working at the Golden Star mine of Jennings Brothers, Martin creek, Bohemia. He says the Jennings are hustlers and expert miners of long experience. They are making everything ready for their new mill and as their location permits them to work all winter they will run out an immense amount of the yellow metal by next spring. The Jennings Brothers are not kid glove miners by a long shot. They have many thousand dollars of very rich ore ready for work just as soon as their mill is ready for work. Ed Jones says the boys will be feeling happy in receiving prompt pay for their labor. When a laborer receives the money for his work, he feels like he had something to live for—don't you see? We are right glad the new mills and new mining companies are up to tricks that the boys hearts palpitate in flutters of delight over prompt pay if they would try Parke's Sure Cure for the Liver and Kidneys. The trouble usually there and Parke's Sure Cure really cures it. Sold by J. A. Benson.

80 Acres R. R. Land.

9 Miles from Cottage Grove, finely adapted to growing alfalfa and clover. Can all be seeded this fall. Will make as fine stock ranch as any in Oregon; an excellent cattle range adjacent, good for several hundred head of stock; cheap improvements; land \$5.00 per acre; small payment down, balance on time. Bargain for some one as this place must be sold. Inquire at the ENO-LEADER office.

One of the richest strikes in quartz mines is reported to have been made on Soldier's creek, 18 miles down the Illinois river, from Kerley. W. H. Miller is the discoverer. A vein of quartz 75 feet across has been uncovered, which prospects as high as \$1 per pound. Cross cuts have been made across the lead in different places for a distance of over 100 feet. At this rate the mine is surely a bonanza, says the Grant's Pass Observer.

A. G. Bartley of Magie, Pa., writes:

I feel it a duty of mine to inform you and the public that DeWitt's Witch Hazel Salve cured me of a very bad case of eczema. It also cured my boy of a running sore on the leg. J. P. CURRIE.

Hardware for Oregon.

Portland, Sept. 23.—The Oregonian has figures prepared by various railroads showing that shipments of green and dried fruits from Oregon, Washington and Idaho for this season have been 661 carloads to date. It is estimated that by the end of the season the shipments will be 1,000 carloads. The shipments this season are double those of any previous year. Two-thirds of this amount of fruit was shipped from Oregon.

My Sweetheart.

Her cheeks are like the roses, Her brow is like the white; And well I know the reason, She takes Parke's Tea each night. She's strong and well and happy, too, Her face is clear and bright, And laughingly she tells the cause, "I take Parke's Tea each night." Sold by J. A. Benson.
