The Only Two Books of the Kind Published!

HISTORY OF MUSIC

AND ITS AMERICAN COMPOSERS,

Together With a Representative Piece of Music From Each Author.

HISTORY OF MUSIC AND ITS AMERICAN COMPOSERS is divided into three parts:

1st. *Its History*, giving many new and interesting things relative to its origin and progress. Though the art of music has reached a very high degree of perfection, yet how greatly has the historical part been neglected, and yet how essential and interesting is a knowledge of its history from the beginning to the present, noticing the progress made by the different people throughout the various ages of the past. Great pains have been taken, and many years spent in making this part of the work complete.

2nd. *American Composers*, giving the biographies of all composers of any note in America, from the first up to the present time, including excellent portraits of nearly three-fourths of them. We are confident this will be an interesting feature of the work, as here we can see the portraits and read the histories of those who have given us the benefits of their labors. Owing to the large number and exact likeness of these photographs contained in this work, it will be one cherished by all lovers of music.

3d. *Their Music*. In this department will be found a piece of music from the pen of each author whose biographies are herein contained. *One Piece of Music from every American Composer!* Think of it! Where can there be a work obtained that contains such a variety and collection of music? All classes, grades and styles, for any instrument, are found in this department; and this music being a sample of the work of many different authors, you may feel assured that great care has been taken in its preparation and selection. Let your taste be what it may, it can be supplied with this collection.

Great care has been taken in regard to its appearance, as it is intended for the music repository as well as the library.

THE TEN TRIBES

OF ISRAEL;

OR, THE TRUE HISTORY OF THE NORTH AMERICAN INDIANS.

3d. The work includes the most important discoveries made at Newark, O., authenticated by Rev. Matthew B. Miller and others. Also, large extracts from the works published in the early part of this century, by Elias Boudinot, with all the discoveries made in the last seventy years bearing upon this interesting question.

4th. In this connection we give lengthy articles from writings of William Penn, James S. Milligan, D.D., and James R. Wilson, D.D. In addition is also added the entire of Wendell Phillips' lecture on the Lost Arts.

The author has devoted a large amount of time for the past sixteen years in gathering up from various histories, facts connected with this question. So this volume is not the work of a day, a month, or a year, but of many years of earnest research.

The book contains about four hundred pages, beautifully bound in cloth and morocco, with title in gold. It is printed on an excellent quality of paper and in every respect is gotten out in the very best style.

Advice To Mothers.

MRS WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once: it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cts. a bottle. 13-20-1y

The best things are nearest: breath in your nostril, light in your eyes, flowers at your feet, duties at your hand, and the path of God just before you. Then do not grasp at the stars, but do life's plain, common work as it comes, certain that daily duties and daily bread are the sweetest things of life.—*Lutheran.*
