

Lies on the Witness-Stand.

"It is amazing how many persons have not the least regard for the sanctity of an oath," said Judge Allison, in charging a jury. "They will come on a witness-stand, and swear to the most flagrant falsehoods. They do not seem to have the least appreciation of the enormity of the offence which they commit. We had an illustration of that to-day. A defendant was alleged to be the owner of a valise in which had been found a number of burglar's tools. He went on the witness-stand, and solemnly swore that he knew nothing whatever about the valise. Witnesses for the Commonwealth were emphatic, however, in their declaration that the article belonged to him. After the defendant had been convicted, and when the fact of his ownership could no longer injure him, he had the impudence to claim the valise as his property. A jury must use their judgment in determining whether or not a witness is to be believed."

"The Judge has only expressed a fact that is as clear as the day to every practitioner in the courts," said an old criminal lawyer who had heard the charge. "The amount of untruth unconsciously told or of downright perjury committed on the witness-stand is frightful. A lawyer, as a rule, in the criminal courts particularly, proceeds on the assumption that every witness against him is withholding something, unwittingly telling what is untrue, or is wilfully lying. No one is surprised or moved any more by seeing a witness tangled in a lie. Perhaps three-fourths of the persons tried in the criminal courts commit unblushing perjury when they take the stand in their own defence. The bench and bar, I am afraid, rather look for that as the ordinary thing. The man who swore that he had never seen the valise, and afterwards claimed it as his property, is only a type. Many people who would not steal or cheat don't hesitate to twist the truth when under oath. I don't speak now of those who are so agitated by their feelings or regard for their interests that they perhaps unconsciously prevaricate. They make up another class. Perhaps if more care were taken to impress witnesses with the importance of telling the exact truth, and if court officers would administer oaths in a befitting manner, and not run them off

like an auctioneer knocking down an old stove, we should have less falsehood on the witness-stand. Most of all, clear cases of perjury ought to be visited with swift and severe punishment."—*N. Y. Observer.*

Perfect light is one of the symbols of divine majesty. But the white sunlight displays in the rainbow all its constituent tints. And the many colored arch, which every primary blue involves, implies the certainty and consistency of every shade and type of our God. The divine character, with every constituent grace, shall be exhibited according to God's promise.—*Rev. H. C. Stanton.*

Get the Original.

Dr. Pierce's "Pellets"—the original "Little Liver Pills" (sugar-coated) cure sick and bilious headache, sour stomach, and bilious attacks. By druggists.

MARRIED.

At the Christian church, Portland, on the evening of July 22, 1883, by Bruce Wolverton, Miss Emma Knox,

Portland, Or., to Chas. H. Ross, Puyallup, W. T. Bro. and Sister Ross started Monday morning for their home in W. T. Be theirs a peaceful, tranquil voyage upon the sea of life, and, beyond, the conquerer's crown.

Answer This.

Is there a person living who ever saw a case of ague, biliousness, nervousness or neuralgia, or any disease of the stomach, liver or kidneys that Hop Bitters will not cure?

My mother says Hop Bitters is the only thing that will keep her from severe attacks of paralysis and headache. *Ed. Oswego Sun.*

My little sickly, puny baby, was changed into a great bouncing boy, and I was raised from a sick bed by using Hop Bitters a short time. *A YOUNG MOTHER.*

No use to worry about any Liver, Kidney or Urinary Trouble, especially Bright's Disease or Diabetes as Hop Bitters never fails of a cure where a cure is possible.

I had severe attacks of gravel and Kidney trouble; was unable to get any medicine or doctor to cure me until I used Hop Bitters. They cured me in a short time. *T. R. ATTY.*

Unhealthy or inactive kidneys cause gravel, Bright's disease, rheumatism, and a horde of other serious and fatal diseases which can be prevented with Hop Bitters if taken in time.

Ludington, Mich., Feb. 2, 1879. I have sold Hop Bitters for four years, and there is no medicine that surpasses them for bilious attacks, kidney complaints and all diseases incident to this malarial climate. *H. T. ALEXANDER.*

Monroe, Mich., Sept. 25, 1875. SIRS—I have been taking Hop Bitters for inflammation of kidneys and bladder, it has done for me what four doctors failed to do—cured me. The effect of the Bitters seemed like magic to me. *W. L. CARTER.*

GENTS—Your Hop Bitters have been of great value to me. I was laid up with typhoid for over two months, and could get no relief until I tried your Hop Bitters. To those suffering from debility or any one in feeble health, I cordially recommend them. *J. C. STORTZEL, 633 Fulton st., Chicago, Ill.*

CHRISTIAN COLLEGE,

Monmouth, Oregon.

FACULTY:

D. T. STANLEY, A. M., PRESIDENT,
Professor Mental and Moral Sciences, English and Biblical Literature.

W. E. YATES, A. M.,
Professor Greek, Latin and German Languages.

J. M. POWELL, A. M.,
Professor Mathematics and Physical Sciences.

MRS. M. B. STANLEY,
Principal Primary Department.

MISS RETTA RASH,
Teacher of Instrumental Music.

MISS E. MCFADDEN,
Teacher of Painting and Drawing.

W. E. YATES, A. M.,
Secretary of the Faculty.

Such Assistants as are needed will be engaged as the session advances.

LOCATION.

Monmouth, the seat of Christian College, is a village of about 400 inhabitants, noted for their morality and devotion to the cause of education. The Oregonian Railway passes through the middle of the town, giving daily connection with Portland, and affording the means for easy travel and rapid freights. In addition to a passenger depot in the middle of town, the O. & C. R. R. passes through Independence, two miles away, and the steamers plying the Willamette land there also; making Monmouth one of the most easy towns of access in the State. Parents who desire to place their children under good educational advantages, where they shall be free from the intemperance and immorality prevalent in the larger towns, will find in Monmouth just what they desire in these respects. It is a school town, built up for this purpose, and all other interests center in this one. Hence its superiority for educational purposes.

ADVANTAGES.

The Faculty is the most important element to the successful working of any institution of learning. The Board of Trustees have sought to put in the various chairs of Christian College men of marked ability, of established success in their respective departments, and who are just in the maturity of life. At the hands of these men they expect to see Christian College among the most honored institutions of the land.

BUILDING.—Only one wing of the new brick College building has been completed, and this is being remodeled and greatly improved this year. It contains three working stories of large, airy and well lighted rooms, used for study and recitation. The old College building adjoining has been thoroughly overhauled and converted into a pleasant and commodious chapel. Apparatus sufficient for ordinary purposes of illustration, is now provided, and additions will be made from time to time. The Library contains a few volumes of interest, and new volumes of value will be added as fast as the means at our command will allow.

DISTINCTIVE FEATURES.

The features of Christian College to which we especially invite attention, as distinctive of our work are as follows:

CHRISTIAN MORALITY.—The Bible is read every day and lectures calculated to impress its morality are given, and with the Bible as a basis, the effort to impress the highest Christian morality as the guiding principle in the lives of our students. Dogmatism and Sectarianism are carefully avoided. We ignore all religious or political divisions, and encourage great freedom of thought, and aim to stand on that high plane where Protestant or Catholic, Democrat or Republican, can meet on one common level.

PRACTICAL EDUCATION.—The great demand of the time is for men of action. An institution of learning to meet the needs of the people, should not only impart instruction, but along with the knowledge gained, give students the power to use it to advantage for themselves and others.

The idea of Christian College is, that the finest mental culture and the greatest benefit may be obtained by the study of those things that will fit young men and women to at once enter some pursuit or business, and carry it forward successfully. Instead of those branches that are simply ornamental, we prefer those that are useful, and we invite comparison and criticism on our work. Our aim is to graduate young men and women so that they may at once enter upon the pursuits of life.

DEPARTMENTS.

MATHEMATICS.—The Course of Study in this department is very full. The various branches are taught from a practical standpoint, with a view to the application of each principal to such affairs as people meet with in life and desire to understand.

ENGLISH LANGUAGE AND LITERATURE.—A ready command of our own tongue, with an accurate knowledge of its history and authors, is one of the most important acquisitions. No other accomplishment can supply the want of this. It can only be acquired by a thorough study of English. In Christian College the course of English extends through four years and we consider this one of our most valuable features.

SCIENCES.—The rapid advance made in the various departments of Science and the rapid succession of discoveries of new principles and applications, constitute one of the wonders of the age. No man can claim to be educated who is not conversant with the present advanced stage of Science. Very thorough work is made of all these, assisted by the use of the apparatus at our command. Sufficient time is allowed for a comprehensive understanding of the great principles of each science.

ANCIENT LANGUAGES.—By pursuing the best methods, the progress in acquiring a knowledge of the Greek and Latin languages, is rapid. We have dropped several authors that are frequently read in Colleges, with a view to doing better work in those that are read, and to give more time for the pursuit of the course in English and the Sciences. Experience has demonstrated that both better linguists and scientists result from this course.

BIBLICAL LITERATURE AND EXEGESIS.—This department was organized in Christian College for the first time with the opening of the present session. The object is to study the Sacred Scriptures analytically and critically, with contemporaneous profane history, and evidences of Christianity. Methods of sermonizing, pulpit oratory, methods in revival meetings and the care of churches, are all carefully investigated. It is this department that the Christian brotherhood, as a body, are particularly interested in. The interest of the church is carefully considered in this, while all other departments are wholly free from any religious discussions, except the uniformly recognized principles of Christian morality.

COMMERCIAL DEPARTMENT.

Every facility is here afforded for fitting young persons to successfully carry on any kind of business. The best authors are studied on the various subjects, and such practical tests are made as will insure thoroughness on the part of the student.
