W. C. T. U. Notice.

Mrs. M. C. Leavitt is now in California, and will visit Oregon when through with her engagements there. The *Rescue* speaks of her as the gifted eloquent apostle of the Christian Women of America, and says: "There is, of course, only one Miss Willard in the world, but those who expect to find Mrs. Leavitt one of the lesser lights, or that she is not one of the brightest and best of the most eloquent and able speakers of the day will be mistaken." We hope she will be invited to all the towns of our State, and that the cause of the W. C. T. U. as well as that of other temperance organizations may be greatly helped, and that the largest amount of good may be accomplished throughout the State by this visit.

MRS. H. K. HINES.

It is said that when Cyrus, king of Persia, was asked what was the first lesson he learned, he replied: "To tell the truth."

THE SWEETEST JOYS.—Very

many of the sweetest joys of Christian hearts are songs which have been learned in the bitterness of trial. It is said of a little bird that he will never learn to sing the song his master will have him sing while it is light in his cage. He learns a snatch of every song he hears, but will not learn a full separate melody of his own. And the master covers the cage and makes it dark all about the bird, and then he listens and learns the one song that is taught to him, until his heart is full of it. Then, ever after, he sings that song in the light. With many of us it is as with the bird. The Master has a song he wants to teach us, but we learn only a strain of it, a note here and there, while we catch up snatches of the world's song and sing them with it. Then he comes and makes it dark about us till we learn the sweet melody he would teach us. Many of the loveliest songs of peace and trust sung by God's children in this world, they have been taught in the darkened chamber of sorrow.—*Christian Weekly.*

Physicians Prescribe in Epilepsy.

"I prescribe it in my practice," is the expression used by Dr. J. A. Patmore, of Riley, Ind. He referred to *Samaritan Nervine*, and further along says: "It cures epileptic fits."

Mr. John Jacob Astor has deeded all his property to his only son, William Waldorf Astor, now U. S. Minister to Rome. The value of estate is estimated at from \$60,000,000 to \$70,000,000.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: **Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION,** and demand the use of a remedy that acts directly on the Liver. As a Liver medicine **TUTT'S PILLS** have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. **TUTT'S PILLS** cause no nausea or griping nor interfere with daily work and are a perfect

LOCATION.

Monmouth, the seat of Christian College, is a village of about 400 inhabitants, noted for their morality and devotion to the cause of education. The Oregonian Railway passes through the middle of the town, giving daily connection with Portland, and affording the means for easy travel and rapid freights. In addition to a passenger depot in the middle of town, the O. & C. R. R. passes through Independence, two miles away, and the steamers plying the Willamette land there also; making Monmouth one of the most easy towns of access in the State. Parents who desire to place their children under good educational advantages, where they shall be free from the intemperance and immorality prevalent in the larger towns, will find in Monmouth just what they desire in these respects. It is a school town, built up for this purpose, and all other interests center in this one. Hence, its superiority for educational purposes.

ADVANTAGES.

The Faculty is the most important element to the successful working of any institution of learning. The Board of Trustees have sought to put in the various chairs of Christian College men of marked ability, of established success in their respective departments, and who are just in the maturity of life. At the hands of these men they expect to see Christian College among the most honored institutions of the land.

BUILDING.—Only one wing of the new brick College building has been completed, and this is being remodeled and greatly improved this year. It contains three working stories of large, airy and well lighted rooms, used for study and recitation. The old College building adjoining has been thoroughly overhauled and converted into a pleasant and commodious chapel.

Apparatus sufficient for ordinary purposes of illustration, is now provided, and additions will be made from time to time. The Library contains a few volumes of interest, and new volumes of value will be added as fast as the means at our command will allow.

DISTINCTIVE FEATURES.

The features of Christian College to which we especially invite attention, as distinctive of our work are as follows:

CHRISTIAN MORALITY.—The Bible is read every day and lectures calculated to impress its morality are given, and with the Bible as a basis, the effort to impress the highest Christian morality as the guiding principle in the lives of our students. Dogmatism and sectarianism are carefully avoided. We ignore all religious or political divisions, and encourage great freedom of thought, and aim to stand on that high plane where Protestant or Catholic, Democrat or Republican, can meet on one common level.

PRACTICAL EDUCATION.—The great demand of the times is for men of action. An institution of learning to meet the needs of the people, should not only impart instruction, but along with the knowledge gained, give students the power to use it to advantage for themselves and others.

The idea of Christian College is, that the finest mental culture and the greatest benefit may be obtained by the study of those things that will fit young men and women to at once enter some pursuit or business, and carry it forward successfully. Instead of those branches that are simply ornamental, we prefer those that are useful, and we invite comparison and criticism on our work. Our aim is to graduate young men and women so that they may at once enter upon the pursuits of life.

DEPARTMENTS.

MATHEMATICS.—The Course of Study in this department is very full. The various branches are taught from a practical standpoint, with a view to the application of each principal to such affairs as people meet with in life and desire to understand.

ENGLISH LANGUAGE AND LITERATURE.—A ready command of our own tongue, with an accurate knowledge of its history and authors, is one of the most important acquisitions. No other accomplishment can supply the want of this. It can only be acquired by a thorough study of English. In Christian College the course of English extends through four years and we consider this one of our most valuable features.

SCIENCES.—The rapid advance made in the various departments of Science and the rapid succession of discoveries of new principles and applications, constitute one of the wonders of the age. No man can claim to be educated who is not conversant with the present advanced stage of Science. Very thorough work is made of all these, assisted by the use of the apparatus at our command. Sufficient time is allowed for a comprehensive understanding of the great principles of each science.

ANCIENT LANGUAGES.—By pursuing the best methods, the progress in acquiring a knowledge of the Greek and Latin languages, is rapid. We have dropped several authors that are frequently read in Colleges, with a view to doing better work in those that are read, and to give more time for the pursuit of the course in English and the sciences. Experience has demonstrated that both better linguists and scientists result from this course.

BIBLICAL LITERATURE AND EXEGESIS.—This department was organized in Christian College for the first time with the opening of the present session. The object is to study the Sacred Scriptures analytically and critically, with contemporaneous profane history, and evidences of Christianity. Methods of sermonizing, pulpit oratory, methods in revival meetings and the care of churches, are all carefully investigated. It is this department that the Christian brotherhood, as a body, are particularly interested in. The interest of the church is carefully considered in this, while all other departments are wholly free from any religious discussions, except the uniformly recognized principles of Christian morality.

COMMERCIAL DEPARTMENT.

Every facility is here afforded for fitting young persons to successfully carry on any kind of business. The best authors are studied on the various subjects, and such practical tests are made as will insure thoroughness on the part of the student.
